The New York Times-bestselling final book by the beloved, Pulitzer-Prize winning historian Tony Horwitz. With *Spying on the South*, the best-selling author of *Confederates in the Attic* returns to the South and the Civil War era for an epic adventure on the trail of America's greatest landscape architect. In the 1850s, the young Frederick Law Olmsted was adrift, a restless farmer and dreamer in search of a mission. He found it during an extraordinary journey, as an undercover correspondent in the South for the up-and-coming New York Times. For the Connecticut Yankee, pen name "Yeoman," the South was alien, often hostile territory. Yet Olmsted traveled for 14 months, by horseback, steamboat, and stagecoach, seeking dialogue and common ground. His vivid dispatches about the lives and beliefs of Southerners were revelatory for readers of his day, and Yeoman's remarkable trek also reshaped the American landscape, as Olmsted sought to reform his own society by creating democratic spaces for the uplift of all. The result: Central Park and Olmsted's career as America's first and foremost landscape architect. Tony Horwitz rediscovers Yeoman Olmsted amidst the discord and polarization of our own time. Is America still one country? In search of answers, and his own adventures, Horwitz follows Olmsted's tracks and often his mode of transport (including muleback): through Appalachia, down the Mississippi River, into bayou Louisiana, and across Texas to the contested Mexican borderland. Venturing far off beaten paths, Horwitz uncovers bracing vestiges and strange new mutations of the Cotton Kingdom. Horwitz's intrepid and often hilarious journey through an outsized American

landscape is a masterpiece in the tradition of Great Plains, Bad Land, and the author's own classic, *Confederates in the Attic*.

"The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable." —Richard Louv, from the new edition In his landmark work *Last Child in the Woods*, Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child's healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children's lives and the rise in obesity, attention disorders, and depression. Louv's message has galvanized an international back-to-nature campaign to "Leave No Child Inside." His book will change the way you think about our future and the future of our children. "[The] national movement to 'leave no child inside' . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a 'green hour' in each day. . . . The increased activism has been partly inspired by a best-selling book, *Last Child in the Woods*, and its author, Richard Louv." —The Washington Post "Last Child in the Woods, which describes a generation so plugged into electronic diversions that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation." —The Nation's Health "This book is an absolute must-read for parents." —The Boston

Named a Best Book of the Year by The Sunday Times (UK) \* The Guardian (UK) \* The Washington Independent Review of Books \* Sydney Morning Herald \* The Los Angeles Public Library \* The Irish Independent \* Real Simple \* Finalist for the Rathbones Folio Prize “Carys Davies is a deft, audacious visionary.” —Téa Obrecht When widowed mule breeder Cy Bellman reads in the newspaper that colossal ancient bones have been discovered in the salty Kentucky mud, he sets out from his small Pennsylvania farm to see for himself if the rumors are true: that the giant monsters are still alive and roam the uncharted wilderness beyond the Mississippi River. Promising to write and to return in two years, he leaves behind his only daughter, Bess, to the tender mercies of his taciturn sister and heads west. With only a barnyard full of miserable animals and her dead mother’s gold ring to call her own, Bess, unprotected and approaching womanhood, fills lonely days tracing her father’s route on maps at the subscription library and waiting for his letters to arrive. Bellman, meanwhile, wanders farther and farther from home, across harsh and alien landscapes, in reckless pursuit of the unknown. From Frank O’Connor Award winner Carys Davies, *West* is a spellbinding and timeless epic-in-miniature, an eerie parable of the American frontier and an electric monument to possibility.

For nearly twenty years, alone and unarmed, author Doug Peacock traversed the rugged mountains of Montana and Wyoming tracking the magnificent grizzly. His thrilling narrative takes us into the bear's habitat, where we observe directly this majestic animal's behavior, from hunting strategies, mating patterns, and denning habits to social hierarchy and methods of communication. As Peacock tracks the bears, his story turns into a thrilling narrative about the breaking down of suspicion between man and beast in the wild.

THE INSTANT #1 NEW YORK TIMES BESTSELLER “Sparkling with mystery, humor and the uncanny, this is a fun read. But beneath its effervescent tone, more complex themes are at play.”

—San Francisco Chronicle In his wildly entertaining debut novel, Hank Green—cocreator of *Crash Course*, *Vlogbrothers*, and *SciShow*—spins a sweeping, cinematic tale about a young woman who becomes an overnight celebrity before realizing she's part of something bigger, and stranger, than anyone could have possibly imagined. The Carls just appeared. Roaming through New York City at three a.m., twenty-three-year-old April May stumbles across a giant sculpture. Delighted by its appearance and craftsmanship—like a ten-foot-tall Transformer wearing a suit of samurai armor—April and her best friend, Andy, make a video with it, which Andy uploads to YouTube. The next day, April wakes up to a viral video and a new life. News quickly spreads that there are Carls in dozens of cities around the world—from Beijing to Buenos Aires—and April, as their first

documentarian, finds herself at the center of an intense international media spotlight. Seizing the opportunity to make her mark on the world, April now has to deal with the consequences her new particular brand of fame has on her relationships, her safety, and her own identity. And all eyes are on April to figure out not just what the Carls are, but what they want from us.

Compulsively entertaining and powerfully relevant, *An Absolutely Remarkable Thing* grapples with big themes, including how the social internet is changing fame, rhetoric, and radicalization; how our culture deals with fear and uncertainty; and how vilification and adoration spring for the same dehumanization that follows a life in the public eye. The beginning of an exciting fiction career, *An Absolutely Remarkable Thing* is a bold and insightful novel of now.

*The World Is a Book*, Indeed chronicles in eleven rich personal essays the ongoing quest of award-winning writer Peter LaSalle to embark on offbeat, often startlingly revelatory literary travel. LaSalle spends a summer roaming the lesser-known quarters of Paris, haunted by the writing of the French surrealists. In Hanoi, he meets for beers with the editors—two military men—of the *Army Literature and Arts Magazine* while investigating Vietnam's acknowledged great modern novel, Bao Ninh's *The Sorrow of War*. Other pieces find LaSalle on a strange nighttime drive through the streets of sprawling São Paulo in search of landmarks associated with Brazilian modernist poetry, bouncing around Africa to interview writers there when very young, exploring Argentine author Jorge Luis Borges's memorable stay in Texas, and traveling to Istanbul, Lisbon, Tunis, and elsewhere, as he considers major writers amid the settings that produced their works. Deeply felt and replete with insight into literature and life itself, even capable of evoking valid

mind leaps in its innovative approaches, this is a collection for readers who love books and want to learn more about the places they originated, presented by a well-traveled guide with an intimate voice and a gift for the essay form.

Private property is everywhere. Almost anywhere you walk in the United States, you will spot “No Trespassing” and “Private Property” signs on trees and fence posts. In America, there are more than a billion acres of grassland pasture, cropland, and forest, and miles and miles of coastlines that are mostly closed off to the public. Meanwhile, America’s public lands are threatened by extremist groups and right-wing think tanks who call for our public lands to be sold to the highest bidder and closed off to everyone else. If these groups get their way, public property may become private, precious green spaces may be developed, and the common good may be sacrificed for the benefit of the wealthy few. Ken Ilgunas, lifelong traveler, hitchhiker, and roamer, takes readers back to the nineteenth century, when Americans were allowed to journey undisturbed across the country. Today, though, America finds itself as an outlier in the Western world as a number of European countries have created sophisticated legal systems that protect landowners and give citizens generous roaming rights to their countries’ green spaces. Inspired by the United States’ history of roaming, and taking guidance from present-day Europe, Ilgunas calls into question our entrenched understanding of private property and provocatively proposes something unheard of: opening up American private property for public recreation. He imagines a future in which folks everywhere will have the right to walk

safely, explore freely, and roam boldly—from California to the New York island, from the Redwood Forest to the Gulf Stream waters.

WINNER OF THE PULITZER PRIZE •

NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle).

• From the bestselling author of *The Passenger* A father and his son walk alone through burned America.

Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark.

Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love.

Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.
