Night after night they stifled their fears and flew through flak and packs of enemy fighters to drop the bombs that would demolish the Third Reich. The airmen of the United States 8th Army Air Force American and British Bomber Command were among the greatest heroes of the Second World War, defying Hitler in the darkest early days of the war and taking the battle to the German homeland when no one else would. Toward the end of the conflict, too, they continued to sacrifice their lives to shatter an enemy sworn never to surrender. Blasted out of the sky in an instant or bailing out from burning aircraft to drop helplessly into hostile hands, they would die in their tens of thousands to ensure the enemy's defeat. Especially vulnerable were the "tail-end Charlies"---for the Americans, which meant two things: the gunners who flew countless missions in a plexiglass bubble at the back of the bomber, and the last bomber in the formation who ended up flying through the most hell, and for the British, the rear-gunners who flew operations in a Plexiglas bubble at the back of the bomber. Following their groundbreaking revelations about the ordeals suffered by Allied prisoners of war in their bestselling book, *The Last Escape*, John Nichol and Tony Rennell tell the astonishing and deeply moving story of the controversial last battles in the skies of Germany through the eyes of the forgotten heroes who fought them. "This is the best account that has been written of the heroic American and British bomber crews . . . the best of its kind." ---George McGovern "Rivaling the best of Stephen Ambrose's work, *Tail-End Charlies* gives a breathtakingly intimate look at the lives, loves, and deaths of the brave airmen of the greatest generation. This fascinating book is as valuable for its stories of joyous life on the ground as it is for its sobering tales of death in the air. You see the whole picture of the war here from the eyes of the strong young men who fought it." ---Walter J. Boyne, bestselling author of *Beyond the Wild Blue* "Adds new dimensions to the saga of the air war in Europe. The eyewitness accounts, reported within the context of the battle against Nazi Germany, provide a sense of the ordeals, the terror, the gore, and the heroism of ordinary men thrust into the savagery of aerial combat." ---Gerald Astor, author of *The Mighty Eighth*

The Boston Red Sox have blown hot and cold over the decades. These lists of Top 5s and 10s cover both the highs and lows of a team that has endured a long history of both joy and sorrow. They won the first World Series ever played and then five more pennants in the next fifteen years. Famously, from 1918 until the magical year of 2004, the Sox endured eighty-six seasons without a championship, although they lost pennants and world

championships on the last possible day more times than fans care to remember. Finally, in 2004, they won it all. Loyal fans will always remember the joy of Mo Vaughn's grand slam on opening day in 1998 and will likely never forget the agony of Game 6 in 1986. Through it all, unforgettable names like Buckner, Yaz, Tony C. and Big Papi still resonate in the shadows of Fenway Park. From the greatest pitchers to the worst opening days, author Bill Nowlin recounts the highs and lows of Boston's most celebrated sports franchise.

Dan McDévvitt battles depression and faces a foundering career when his colleague, Red Prendergast, takes him to South America to confront officials who have cheated his company out of millions. Their mission is to get the money back, but that's the easy part. What happens next turns their lives into a nightmare. By chance, Dan meets his friend and Jesuit priest, Tommy McGrail. Seduced by Tommy, Dan drives him into the backcountry to bring home Father J. C. McAleese, their teacher and mentor. Fleeing marauding soldiers and drug lords, the two companions travel to a secret mountain camp, where Dan discovers Tommy has deceived him. Rather than looking for J. C., they must enter the lair of the dictator Adolpho Streggemann and rescue the hostages he holds. Dan and Tommy face a violent journey that leads from Streggemann's dungeons to a lost city high in the Andes. On the pinnacle of a sacred temple, they struggle with Streggemann for their lives and the lives of the hostages. The real test, however, is to triumph over the demons of their past and wrestle the dark angels of their souls into submission.

It seems that we can divide the world-history of football-related deaths into three periods. The early period, 1900-1959, contains from 0 to 3 tragedies per decade. Deaths were very rare - but were tremendously tragic when they happened. Take for instance the very first incident occurring on the 5th of April in 1902 at Ibrox Stadium in Glasgow, where Scotland played England in the British Home Championship. At the time it was considered to be the most prestigious international tournament in the world and would therefore draw a large audience. While the game was being played the newly built wooden West Stand broke under the

weight of the excited crowd. People fell several meters down and on top of each other - resulting in 26 people dying and 517 being injured. Blame was put on the rain that had fallen the night before the game, causing the wooden construction to become unstable. Arena architects abandoned wood as material for higher audience facilities after this episode. But what caused the other disasters? *LIFE* XinXii

Perhaps the most fundamental barrier to faith is that every scheme of meaning is seen as a construction, i.e. that reality in itself is meaningless. One constructs a meaning and lives within it to make life workable and bearable. This current view though is based on the assumption that reality has no meaning. In contrast, the claim here is that reality is not meaningless in itself, and that Judeo-Christianity, and Catholicism in particular, and other understandings to the extent that they agree with these two, are not constructions but are true in reality. Reality has meaning, and that meaning is revealed and accessible to us. It's not pushing one construction over another, it is to claim that Catholicism / Christianity describes the nature of reality. At the same time, it has to be acknowledged that our culture has recently moved beyond discourse and discussion, of which this collection is a part, making it sort of out of date: we have moved on to simple conflicts of power, and now to even worse. In general, it might be that our situation is that of Revelation (22:11): "Let the one who does wrong continue to do wrong; let the vile person continue to be vile; let the one who does right continue to do right; and let the holy person continue to be holy." (From the forward.)

BOOKER PRIZE WINNER • NATIONAL BESTSELLER • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single setting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

Jurassic Park meets *The Hunger Games* in this stunning new high-energy, high-concept tale from first-time novelist Ted Kosmatka, a Nebula Award and Theodore Sturgeon Memorial Award finalist. Brilliant geneticist Silas Williams oversees U.S. selections for the Olympic Gladiator competition, an internationally sanctioned bloodsport with only one rule: No entrants may possess human

DNA. Desperate to maintain America's edge in the upcoming Games, Silas's superior engages an experimental supercomputer to design the ultimate, unbeatable combatant. The result is a highly specialized killing machine, its genome never before seen on earth. But even a genius like Silas cannot anticipate the consequences of allowing a computer's cold logic to play God. Growing swiftly, the mutant gladiator demonstrates preternatural strength, speed, and—most chillingly—intelligence. And before hell breaks loose, Silas and beautiful xenobiologist Vidonia João must race to understand what unbound science has wrought—even as their professional curiosity gives way to a most unexpected emotion: sheer terror. Of all the famous books ever written, *The Song of Songs* has been designated as the finest ever produced or ever to be read on the subject of finding love, developing relationships, and experiencing life. Its title, *The Song of Songs*, is a superlative, an almost exaggerated expression of praise, which insists that this book is "the best of the best." Designed to be read over fifty days, *As Good as It Gets* takes the reader through this greatest of love songs, delighting in its beauty and exploring its passion while discovering its insights into aspects of love and life such as praise, intimacy, affirmation, identity, insecurity, community, friendship, transformation, disruption, resolution, restlessness, rapture, confidence, dignity, disclosure, and freedom. In the end the reader will discover much more than a manual on relationships or even what it takes to live a passionate and purposeful life. While remaining entirely honest about the realities of life, love, and relationships, *The Song* retains the remarkable ability to bring us into a life that is filled with joy and grace, beauty, and poetry.
