## SONNY CARNEY

*Trader Vic--Methods of a Wall Street Master* Penguin

Explains how to choose a broker, set up a brokerage account, build a core portfolio, minimize risk, and set long-term financial goals.

*A Fool and His Money* Traders Press

In 100 to 1 in the Stock Market, Thomas Phelps discloses the secrets and strategies to increasing your wealth one hundredfold through buy-and-hold investing. Unlike the short-term trading trends that are popular today, Phelps's highly logical, yet radical approach focuses on identifying compounding machines in public markets, buying their stocks, and holding these investments long term for at least ten years. In this indispensable guide, Phelps analyzes what made the big companies of his day so profitable for the diligent, long-term investor. You will learn how to identify and invest in profitable business models without visible growth ceilings that will quickly increase your earnings. Worth its weight in gold (and then some), 100 to 1 in the Stock Market illuminates the way to the path of long-term wealth for you and your heirs.

With this classic, yet highly relevant approach, you will pick companies wisely and watch your investments soar! Thomas William Phelps (1902-1992) spent over 40 years in the investing world working as a private investor, columnist, analyst, and financial advisor. His illustrious investing career began just before the stock market crash in 1929 and lasted into the 1970s. In 1927, he began his career with *The Wall Street Journal* where he was a reporter, news editor, and chief. Beginning in 1936, he edited *Barron's National Financial Weekly*. From 1949 to 1960, he served as an assistant to the chairman and manager of the economics department at *Socony Mobil Oil*. Following this venture, he was a partner in the investment firm of Scudder, Stevens & Clark until his retirement in 1970. "One of the five greatest investment books you've never heard of" -- *The Daily Reckoning* "Of all the books on investing that I've read over the years, 100 to 1 in the stock market one was at once, the most pleasurable and most challenging to my own beliefs." -- *Value Walk* (ValueWalk.com) "For years we handed out copies of Mr. Phelps book as bonuses." -- Timothy Lutts, *Cabot Investing Advice*, one of the largest investment advisories and newsletters in the country since 1970

*The Neatest Little Guide to Stock Market Investing* John Wiley & Sons

Es gibt zwar viele lehrreiche Bücher über Geschäftsweisheiten, aber nur wenige bekannte Investoren haben ihr Erfolgsgeheimnis tatsächlich gelüftet. Dieses Buch ist eine Anthologie bestehend aus 50 Essays und Reden von so schillernden Größen wie z. B. Charles Dow, B.C. Forbes, Peter Lynch und George Soros: In einem Band: Geschäftsweisheiten aus mehreren Jahrzehnten von der Crème de la Crème! Die verschiedenen Persönlichkeiten der Investoren und deren Umfeld wird deutlich durch ihren Sprachstil. Zu jeder Persönlichkeit gibt es als Vorwort einleitende Informationen über deren jeweiligen Hintergrund. Nach Themen gegliedert, erlaubt es dem Leser sich bequem auf bestimmte Informationen oder Ratschläge zu konzentrieren. Zu den behandelten Themen gehören u.a.: Die richtige Einstellung für erfolgreiche Investitionen, Theorie und Strategie, Marktzyklen und -verhalten, etc. Es bietet ein leserfreundliches Layout mit Fettdruck der besten Zitate, einen Namensindex aller zu Wort gekommenen Investoren sowie einen chronologischen Index. Die ideale Lektüre für alle in der Investmentbranche. (02/99)

**You Can Be a Stock Market Genius** John Wiley & Sons

**Laughing at Wall Street** Simon and Schuster  
 A NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER The legendary investor shows how to identify and master the cycles that govern the markets. We all know markets rise and fall, but when should you pull out, and when should you stay in? The answer is never black or white, but is best reached through a keen understanding of the reasons behind the rhythm of cycles. Confidence about where we are in a cycle comes when you learn the patterns of ups and downs that influence not just economics, markets, and companies, but also human psychology and the investing behaviors that result. If you study past cycles, understand their origins and remain alert for the next one, you will become keenly attuned to the investment environment as it changes. You'll be aware and prepared while others get blindsided by unexpected events or fall victim to emotions like fear and greed. By following Marks's insights—drawn in part from his iconic memos over the years to Oaktree's clients—you can master these recurring patterns to have the opportunity to improve your results.

**The Little Book That Still Beats the Market** St. Martin's Press  
 FROM NATIONAL BESTSELLING AUTHOR ROBIN R. SPEZIALE - LEARN HOW TO MAKE MONEY INVESTING IN GROWTH STOCKS In *Capital Compounders*, DIY Investor & National Bestselling Author Robin R. Speziale makes it easy for anyone to beat the market and make money investing in growth stocks! Robin R. Speziale shares his journey building a \$300,000+ stock portfolio before 30 (and how you can too!) by investing in growth stocks or "Capital Compounders" - stocks that double, and then double again, and again on the market. Capital Compounder stocks have achieved the "tenbagger" (\$1 turns into \$10), and some even the "100-bagger" (\$1 turns into \$100) status. Mr. Speziale discusses the commonalities of today's market-beating growth stocks so that you can find the next ones in the future. WHAT YOU WILL LEARN IN THE BOOK: How you can turn \$0 into \$300,000 (and more) by saving, and then investing in growth stocks Why growth investing is better than value investing What top growth stocks ("Capital Compounders") have in common 72 Rules for investing stocks; winning in the market, and managing a portfolio Actual examples of tenbagger (10x return) and 100-bagger (100x return) stocks 75+ events, and corporate developments that move stocks How a hedge fund manager achieved a 24% compound annual return (since 1998!) 50+ predictions for the future Exclusive interviews with a small-cap technology analyst, and a growth hedge fund manager How to decode market psychology, and control your own behavioural biases Growth investing strategies from the world's top growth investors Daily routine - how to stay on top of the stock market, and find new growth ideas 100+ Free DIY investor resources (all of my favourites!) PLUS - FREE Investment Newsletter Subscription (inside the book) *Capital Compounders* is for both budding and seasoned investors. It's entertaining (because finance can be dry), and includes lots of easy-to-learn tips and strategies on growth investing that you can apply in the stock market. Robin R. Speziale is a DIY Investor and *Globe and Mail* National Bestselling Author; *Market Masters* (2016). He's been investing in the stock market since 2005, and built a \$300,000+ portfolio before 30. Mr. Speziale lives in Toronto, Ontario. Visit RobinRSpeziale.com and

**Mastering The Market Cycle** John Wiley & Sons

The first in-depth look at the innovative investment and business strategies of living legend, Warren Buffett. National ads/media.

**Rule #1** Swift Reads

Market mistakes to avoid: "Written for investors at all levels...[a] practical, no-nonsense guide."—Publishers Weekly One of Money Week's Five Best Books of the Year Investors are tempted daily by misleading or incomplete information. They may make a lucky bet, realize a sizable profit, and find themselves full of confidence. Their next high-stakes gamble might backfire, not only hitting them in the balance sheet but also taking a mental and emotional toll. Even veteran investors can be caught off guard: a news item may suddenly cause havoc for an industry they've invested in; crowd mentality among fellow investors may skew the market; a CEO may turn out to be unprepared to effectively guide a company. How can one stay focused in such a volatile world? If you can't trust your past successes to plan and predict, how can you avoid risky situations in the future? Patience and methodical planning will pay far greater dividends than flashy investments. In *Big Money Thinks Small*, veteran fund manager Joel Tillinghast shows investors how to avoid making these mistakes. He offers a set of simple but crucial steps to successful investing, including: · Know yourself, how you arrive at decisions, and how you might be susceptible to self-deception · Make decisions based on your own expertise, and do not invest in what you don't understand · Select only trustworthy and capable colleagues and collaborators · Learn how to identify and avoid investments with inherent flaws · Always search for bargains, and never forget that the first responsibility of an investor is to identify mispriced stocks

**The Art of Execution** John Wiley & Sons

*One Up on Wall Street: How to Use What You Already Know to Make Money in the Market* (1989) guides fledgling investors through the process of how to pick stocks and build a winning investment portfolio. Author and investor Peter Lynch, with the help of author John Rothchild, explains that investors do not have to work at high-profile finance firms to be successful... Purchase this in-depth summary to learn more.

*Better Good Than Lucky* Columbia University Press

Mutual-fund superstar Peter Lynch and author John Rothchild explain the basic principles of the stock market and business in an investing guide that will enlighten and entertain anyone who is high-school age or older. Many investors, including some with substantial portfolios, have only the sketchiest idea of how the stock market works. The reason, say Lynch and Rothchild, is that the basics of investing—the fundamentals of our economic system and what they have to do with the stock market—aren't taught in school. At a time when individuals have to make important decisions about saving for college and 401(k) retirement funds, this failure to provide a basic education in investing can have tragic consequences. For those who know what to look for, investment opportunities are everywhere. The average high-school student is familiar with Nike, Reebok, McDonald's, the Gap, and the Body Shop. Nearly every teenager in America drinks Coke or Pepsi, but only a very few own shares in either company or even understand how to buy them. Every student studies American history, but few realize that our country was settled by European colonists financed by public companies in England and Holland—and the basic principles behind public companies haven't changed in more than three hundred years. In *Learn to Earn*, Lynch and Rothchild explain in a style accessible to anyone who is high-school age or older how to read a stock table in the daily newspaper, how to understand a company annual report, and why everyone should pay attention to the stock market. They explain not only how to invest, but also how to think like an investor.

*Learn to Earn* Plume

Investing is a life skill and, like any life skill, the key is to learn from those who have already done it well. Empower Your Investing offers a success-based mental framework, discipline, and toolkit for your investing success. This book examines the best practices from masters of the investing world who've demonstrated success over many market cycles: Sir John Templeton, Peter Lynch, and Warren Buffett. The case studies of their winning picks blend the prevailing news and popular opinion at the time of their successful investments with their rationale for buying stocks as they explained in subsequent interviews. "Just as athletes might study Michael Jordan, Mohammed Ali, and Babe Ruth, every investor should know and understand John Templeton, Peter Lynch, and Warren Buffett. Scott Chapman brilliantly showcases the investment world's Greatest of All Time (G.O.A.T.) so every stock market participant, from novice to seasoned professional, can learn the lessons of those who have

reached the pinnacle of success. With a comprehensive step-by-step approach, Chapman provides a deep understanding of what it takes to be the best." —Robert P. Miles, Author, *The Warren Buffett CEO*; Executive in Residence, University of Nebraska at Omaha "Scott Chapman's book is a clear read for any investor who wants to learn how to invest better. Scott is a successful long-term investor and educator who is someone all investors can learn from. He shares some of the best investment advice and actual experiences of three of the best investors in history—Peter Lynch, Warren Buffett, and Sir John Templeton. This book will help every person improve their investment skill from the beginning investor to professionally trained CFA analysts." —Craig Braemer, CFA; Blossom Wealth Portfolio Manager and Founder of Braemer Asset Management, LLC.

***A Random Walk Down Wall Street: The Time-Tested Strategy for Successful Investing (Ninth Edition)*** Macmillan

Explains how children can make money, be smart about saving, and find a job that they can enjoy.

***The Big Secret for the Small Investor*** John Wiley & Sons

Over seven years, 45 of the world's top investors were given between \$25 and \$150m to invest by fund manager Lee Freeman-Shor. His instructions were simple. There was only one rule. They could only invest in their ten best ideas to make money. It seemed like a foolproof plan to make a lot of money. What could possibly go wrong? These were some of the greatest minds at work in the markets today - from top European hedge fund managers to Wall Street legends. But most of the investors' great ideas actually lost money. Shockingly, a toss of a coin would have been a better method of choosing whether or not to invest in a stock. Nevertheless, despite being wrong most of the time, many of these investors still ended up making a lot of money. How could they be wrong most of the time and still be profitable? The answer lay in their hidden habits of execution, which until now have only been guessed at from the outside world. This book lays bare those secret habits for the first time, explaining them with real-life data, case studies and stories taken from Freeman-Shor's unique position of managing these investors on a day-to-day basis. A riveting read for investors of every level, this book shows you exactly what to do and what not to do when your big idea is losing or winning - and demonstrates conclusively why the most important thing about investing is always the art of execution.

***100 to 1 in the Stock Market*** Post Hill Press

Value investing is not just a system for success in the market. It is also an intellectual toolkit for achieving a deeper understanding of the world. In *The Joys of Compounding*, the value investor Gautam Baid builds a holistic approach to value investing and philosophy from his wide-ranging reading, combining practical approaches, self-cultivation, and business wisdom. Distilling investment and life lessons into a comprehensive guide, Baid integrates the strategies and wisdom of preeminent figures whose teachings have stood the test of time. Drawing on the work of investing greats like Warren Buffett, Charlie Munger, and Ben Graham, as well as philosophers and scholars, he artfully interweaves the lessons learned from his many teachers. Baid demonstrates their practical applications in the areas of business, investing, and decision making and also shows that these ideas can be applied to one's own life with just as much reward. A celebration of the value investing discipline, this book also recounts Baid's personal experiences, testifying to his belief that the best investment you can make is an investment in yourself. *The Joys of Compounding* offers curated reflections on life and learning for all investors,

investment enthusiasts, and readers seeking a dose of practical wisdom. This revised and updated edition highlights Baid's distinctive voice.

***Dune (Movie Tie-In)*** Simon and Schuster

*Paths to Wealth through Common Stocks* contains one original concept after another, each designed to greatly improve the results of those who self-manage their investments -- while helping those who rely on professional investment advice select the right advisor for their needs. Originally written by investment legend Philip A. Fisher in 1960, this timeless classic is now reintroduced by his well-known and respected son, successful money manager Ken Fisher, in a new Foreword. Filled with in-depth insights and expert advice, *Paths to Wealth through Common Stocks* expands upon the innovative ideas found in Fisher's highly regarded *Common Stocks and Uncommon Profits* -- summarizing how worthwhile profits have been and will continue to be made through common stock ownership, and revealing why his method can increase profits while reducing risk. Many of the ideas found here may depart from conventional investment wisdom, but the impressive results produced by these concepts -- which are still relevant in today's market environment -- will quickly remind you why Philip Fisher is considered one of the greatest investment minds of our time.

***The Warren Buffett Way*** Simon and Schuster

Mad Money host Jim Cramer shows you how to invest your savings and turn them into real, lasting wealth. Tired of phony promises about getting rich quickly? How about trying something different? How about going for lasting wealth—and doing it the cautious way? In *Get Rich Carefully*, Jim Cramer draws on his unparalleled knowledge of the stock market to help you navigate our recovering economy and make big money without taking big risks. In plain English, Cramer lays it on the line. No-waffling, no on-the-one-hand-or-the-other hedging, just the straight stuff. He names names, highlights individual and sector plays, identifies the long-term investing themes—and explains how to develop the discipline you need to exploit them. An invaluable personal finance book, *Get Rich Carefully* is your guide to turning your savings into real, lasting wealth in a practical, highly readable, and entertaining way.

***The Mafia Manager*** Penguin

• DUNE: PART TWO • THE MAJOR MOTION PICTURE COMING NOVEMBER 3rd, 2023 Directed by Denis Villeneuve, screenplay by Denis Villeneuve and Jon Spaihts, based on the novel *Dune* by Frank Herbert • Starring Timothée Chalamet, Zendaya, Rebecca Ferguson, Josh Brolin, Austin Butler, Florence Pugh, Dave Bautista, Christopher Walken, Stephen McKinley Henderson, Léa Seydoux, with Stellan Skarsgård, with Charlotte Rampling, and Javier Bardem Frank Herbert's classic masterpiece—a triumph of the imagination and one of the bestselling science fiction novels of all time. Set on the desert planet Arrakis, *Dune* is the story of Paul Atreides—who would become known as Maud'Dib—and of a great family's ambition to bring to fruition humankind's most ancient and unattainable dream. A stunning blend of adventure and mysticism, environmentalism and politics, *Dune* won the first Nebula Award, shared the Hugo Award, and formed the basis of what is undoubtedly the grandest epic in science fiction.

***The Little Book That Builds Wealth*** The Rosen Publishing Group, Inc

In this absorbing, smart, and accessible blend of economic and cultural history, Scott Nations, a longtime trader, financial engineer, and CNBC contributor, takes us on a journey through the five significant stock market crashes in the past century to

reveal how they defined the United States today The Panic of 1907: When the Knickerbocker Trust Company failed, after a brazen attempt to manipulate the stock market led to a disastrous run on the banks, the Dow lost nearly half its value in weeks. Only billionaire J.P. Morgan was able to save the stock market. Black Tuesday (1929): As the newly created Federal Reserve System repeatedly adjusted interest rates in all the wrong ways, investment trusts, the darlings of that decade, became the catalyst that caused the bubble to burst, and the Dow fell dramatically, leading swiftly to the Great Depression. Black Monday (1987): When "portfolio insurance," a new tool meant to protect investments, instead led to increased losses, and corporate raiders drove stock prices above their real values, the Dow dropped an astonishing 22.6 percent in one day. The Great Recession (2008): As homeowners began defaulting on mortgages, investment portfolios that contained them collapsed, bringing the nation's largest banks, much of the economy, and the stock market down with them. The Flash Crash (2010): When one investment manager, using a runaway computer algorithm that was dangerously unstable and poorly understood, reacted to the economic turmoil in Greece, the stock market took an unprecedentedly sudden plunge, with the Dow shedding 998.5 points (roughly a trillion dollars in valuation) in just minutes. The stories behind the great crashes are filled with drama, human foibles, and heroic rescues. Taken together they tell the larger story of a nation reaching enormous heights of financial power while experiencing precipitous dips that alter and reset a market where millions of Americans invest their savings, and on which they depend for their futures. *Scott Nations* vividly shows how each of these major crashes played a role in America's political and cultural fabric, each providing painful lessons that have strengthened us and helped us to build the nation we know today. *A History of the United States in Five Crashes* clearly and compellingly illustrates the connections between these major financial collapses and examines the solid, clear-cut lessons they offer for preventing the next one.

***Beating the Street*** Harriman House Limited

Dieser praktische Leitfaden macht Anleger mit dem Economic Moat Konzept vertraut, der "Zauberformel" des Morningstar, mit der sich erstklassige Investmentchancen aufspüren lassen. Das Konzept ist keineswegs neu: Es wurde zunächst durch Benjamin Graham und Warren Buffett populär, wurde dann aber lange vernachlässigt. "The Little Book that Builds Wealth" erklärt ganz genau, wie man den Economic Moat, d.h. die Wettbewerbsbarriere bzw. den Wettbewerbsvorteil (wie z.B. geringe Produktionskosten, ausgebautes Vertriebsnetz, gutes Markenimage etc.) ermittelt, durch den sich ein Unternehmen deutlich von Konkurrenzunternehmen abgrenzt. Dabei geht es aber weder um reines Value Investing, noch um reines Growth Investing, sondern vielmehr darum, erstklassige Nischen-Wachstumswerte zu einem attraktiven Kurs zu kaufen. Das Buch demonstriert anschaulich Schritt für Schritt, was einen Economic Moat ausmacht, wie man ihn ermittelt, wie man verschiedene Moats gegeneinander abwägt, und wie man auf der Basis dieser Daten am besten eine Investmententscheidung trifft. Mit begleitender Website. Sie wird vom Morningstar betrieben und enthält eine Reihe von Tools und Features, mit deren Hilfe der Leser das Gelernte in der Praxis testen kann. Autor Pat Dorsey ist ein renommierter Finanzexperte. Er ist Chef der Morningstar Equity Research und Kolumnist bei Morningstar.com. Ein neuer Band aus der beliebten 'Little Book'-Reihe.
