For more than a decade, there has been growing interest and research on the pivotal role of emotions in educational settings. This ground-breaking handbook is the first to highlight this emerging field of research and to describe in detail the ways in which emotions affect learning and instruction in the classroom as well as students' and teachers' development and well-being. Informed by research from a number of related fields, the handbook includes four sections. Section I focuses on fundamental principles of emotion, including the interplay among emotion, cognition, and motivation, the regulation of emotion, and emotional intelligence. Section II examines emotions and emotion regulation in classroom settings, addressing specific emotions (enjoyment, interest, curiosity, pride, anxiety, confusion, shame, and boredom) as well as social-emotional learning programs. Section III highlights research on emotions in academic content domains (mathematics, science, and reading/writing), contextual factors (classroom, family, and culture), and teacher emotions. The final section examines the various methodological approaches to studying emotions in educational settings. With work from leading international experts across disciplines, this book synthesizes the latest research on emotions in education.

Should I Share My Ice Cream? Guilford Publications

"... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.

This heartwarming book encourages positive behavior by using the concept of an invisible bucket to show children how easy and rewarding it is to express kindness, appreciation and love by "filling buckets." Updated and revised, this 10th anniversary edition will help readers better understand that "bucket dipping" is a negative behavior, not a permanent label. It also explains that it's possible to fill or dip into our own buckets.

The burgeoning multidisciplinary field of social and emotional learning (SEL) now has a comprehensive and definitive handbook covering all aspects of research, practice, and policy. The prominent editors and contributors describe state-of-the-art intervention and prevention programs designed to build students' skills for managing emotions, showing concern for others, making responsible decisions, and forming positive relationships. Conceptual and scientific underpinnings of SEL are explored and its relationship to children's and adolescents' academic success and mental health examined. Issues in implementing and assessing SEL programs in diverse educational settings are analyzed in depth, including the roles of school- and district-level

leadership, teacher training, and school-family partnerships.

The Social Emotional Classroom Routledge

While social and emotional learning (SEL) is most familiar as compartmentalized programs separate from academics, the truth is, all learning is social and emotional. What teachers say, the values we express, the materials and activities we choose, and the skills we prioritize all influence how students think, see themselves, and interact with content and with others. If you teach kids rather than standards, and if you want all kids to get what they need to thrive, Nancy Frey, Douglas Fisher, and Dominique Smith offer a solution: a comprehensive, five-part model of SEL that's easy to integrate into everyday content instruction, no matter what subject or grade level you teach. You'll learn the hows and whys of Building students' sense of identity and confidence in their ability to learn, overcome challenge, and influence the world around them. Helping students identify, describe, and regulate their emotional responses. Promoting the cognitive regulation skills critical to decision making and problem solving. Fostering students' social skills, including teamwork and sharing, and their ability to establish and repair relationships. Equipping students to become informed and involved citizens. Along with a toolbox of strategies for addressing 33 essential competencies, you'll find real-life examples highlighting the many opportunities for social and emotional learning within the K-12 academic curriculum. Children's social and emotional development is too important to be an add-on or an afterthought, too important to be left to chance. Use this book's integrated SEL approach to help your students build essential skills that will serve them in the classroom and throughout their lives.

Learn from the Engagement Masters Education is a battle for attention. Whether you are a teacher trying to reach a classroom full of students or a parent trying to prepare your child for the world to come, getting our audience to just listen can be a real challenge. When students have access to personalized entertainment sitting in their pockets, anything that doesn't jump out and grab their attention right away is easily drowned out. But there is a place where even today all those modern distractions melt away--Disneyland. When you're there, you're not only in a different world, you're in Walt Disney's world. Whether you are Peter Pan flying over London in Fantasyland or a rebel fighter struggling against the First Order in Galaxy's Edge, you are 100% engaged. Sights, sounds and even smells ensure that your brain is locked into the experience. If we can bring those techniques into our teaching, we can create engaging experiences for our students, grab their attention, and boost their learning. You'll improve your teaching and create a place students want to visit. In this book we'll learn from the world's greatest engagement masters--the Disney Imagineers. Through narrative visits to attractions throughout Disneyland and Disney California Adventure, you'll experience a visit to the park as we share memories and see how the Imagineers make it all work. We'll be guided by Imagineering icon Marty Sklar's Mickey's 10 Commandments of Theme Park Design as we turn our classrooms into the most engaging places on Earth!

KidConnect Ready2Learn Curriculum teaches the fundamental Social Emotional Learning (SEL) skills that K-6 students need to manage their emotions and behaviors. Clear, quick and easy to use lessons that integrate into your busy school day Lessons progressively build students' core SEL skills Fun, classroom-ready to use tools give students opportunities to apply and practice learned skills in the classroom. In less than 30 minutes a week, you will have a whole class of students who are engaged and Ready2Learn. A look inside: KidConnect Ready2Learn Curriculum has 4 units [Emotions, Behaviors, Strategies, Mindfulness] with 26 lessons, each designed and sequenced to teach specific skills that build the ability to regulate emotions. Student's learn: How to identify, understand, and manage their emotions The critical connection between emotions and behaviors How to manage their emotions using personalized strategies and mindfulness

techniques In the EMOTIONS UNIT, students learn how to identify their emotions, differentiate between emotions, communicate their emotions, and how to put their emotions into context to understand those events and situations that impact them. The BEHAVIORS UNIT introduces the critical link between emotions and behaviors. Activities and discussions focus on learning how to recognize On-Target and Off-Target Behavior. Whole class activities create a set of classroom expectations that students develop together. Teachers are able to personalize for their classroom and school needs. The STRATEGIES UNIT teaches students how to manage their emotions so they can make better behavior choices. This unit doesn't label behavior right or wrong or bad or good; instead, it focuses on equipping students with the tools they need to manage their behaviors. The classroom discussions and activities create shared ideas. Everyone benefits from successful strategies on how to stay emotionally regulated and Ready2Learn. The MINDFULNESS UNIT builds students' ability to refocus and be in control through simple, useful techniques that help them to transition during stressful situations. Students create personalized techniques to remind them of their plan so they can succeed in the classroom, during the school day, and at home. When students manage their own emotions and behavior, the benefits are many, and have a ripple effect: They positively participate in classroom activities with their peers They make responsible decisions They contribute to a positive learning environment for the entire class Interact and benefit from the academic curriculum A strong SEL curriculum MUST teach emotional regulation so that students are able to identify and then manage their emotions and behaviors to become enthusiastic learners. Only then, are students able to show empathy for others, build relationships, and make good decisions at school, at home, and in the future.

Practitioner's Guide to Emotion Regulation in School-Aged Children ASCD

One of the five books in the Mental Health and Wellbeing Teacher Toolkit for teachers and other professionals working with children, this practical resource focuses on the topic of 'Emotional Literacy' and how to support children and young people on a journey of self-discovery where they learn to recognise, understand, share and manage a range of emotions. Promoting a proactive rather than a reactive approach to dealing with the social and emotional aspects of learning and managing the world of today, Emotional Literacy addresses the increasing number of mental health issues arising among young people. Chapters span key topics including Recognising Emotions, Understanding Emotions, Self-Regulation and Empathy. This book offers: • Easy to follow, and flexible, lesson plans that can be adapted and personalised for use in lessons or smaller groups or 1:1 work. • Resources that are linked to the PSHE and Wellbeing curriculum for KS1, KS2 and KS3. • New research, 'Circles for Learning', where the introduction of baby observation into the classroom by a teacher is used to understand and develop self-awareness, skills for learning, relationships, neuroscience and awareness of others. • Sections on the development of key skills in communication, skills for learning, collaboration, empathy and self-confidence. • Learning links, learning objectives and reflection questions. Offering research-driven, practical strategies and lesson plans, Emotional Literacy is an essential resource book for educators and health professionals looking to have a positive impact on the mental health and wellbeing of the children in their care; both now and in the future.

Using Social Emotional Learning to Prevent School Violence is an essential resource that seeks to close the existing gap in literature on ways to mitigate school violence, as well as to advocate for the integration of social emotional learning in schools. In an effort to create culturally responsive, student-centered, and secure school environments, this book outlines strategies that highlight the importance of collaboration between critical stakeholders in identifying and mitigating bullying, assisting students struggling with relationship building skills, grief and loss, and anger; particularly those that demonstrate the need for power and control or the desire for retaliation. Mental health issues are also taken into consideration. Proactive responses and best practices are exemplified in order to equip struggling students with resources that foster their well-being and success.

Dr. Paolini draws upon extensive research in her depiction of school violence in America's education system and designs lesson plans and activities that address and align with each of the social emotional learning core competencies for both elementary and secondary school counselors. This book will be of interest to critical stakeholders in P-12 settings as well as those in higher education, particularly as a resource for graduate students training to become transformative school counselors.
