Path is the spectacular 630-mile (1008-km) National Trail around the tip of Britain. This volume features the section of the Path from Minehead to Padstow, a distance of 163 miles (262 km). It skirts the Exmoor National Park, taking in the precipitous harbour towns of Lynton, Lynmouth and Ilfracombe, before heading south-west into Cornwall along the surfers' coast via Westword Ho! and Arthurian Tintagel, to reach the gastronomic mecca of Padstow. Along

the way there is the coastal path around Lundy Island, with its puffins, and other arresting wildlife from shearwaters to basking sharks. This guide has been fully revised and updated for 2016, and completely redesigned to feature many more colour photographs and much more information on local history, cultural associations and wildlife. It is not so much a walking guide as a complete companion to the landscape of the Path, whether you are a

dedicated long-distance walker or a weekend stroller. National Trail Guides are the official guidebooks to the fifteen National Trails in England and Wales and are published in association with Natural England, the official body charged with developing and maintaining the Trails. *Madagascar Wildlife* Trailblazer Editions A novel about a lonely mountain climber from the author of *All That Is*: "Beautifully composed . . . will remind readers of Camus and Saint-

Exupéry" (The Washington Post). Vernon Rand is a charismatic figure whose great love—whose life, in fact—is climbing. He lives alone in California, where he combats the drudgery of a roofing job with the thrill of climbing in the nearby mountain ranges. Sure of only his talent and nerve, Rand decides to test himself in the French Alps, with their true mountaineering and famed, fearsome peaks. He soon learns that the most perilous moments are, for him, the moments

when he feels truly alive. One of the great novels of the outdoors, *Solo Faces* is as thrilling, beautiful, and immediate as the Alpine peaks that have enthralled climbers for centuries. This ebook features an illustrated biography of James Salter including rare photos from the author's personal collection.

[One Man's Mountains](#) The Mountaineers Books

Bradt's fully illustrated wildlife guides focus on regions of the world particularly celebrated for their amazing and often unique species. With spectacular photography or exclusive watercolour drawings throughout, each visitors' guide provides an introduction to the region's principal flora and fauna alongside suggested wildlife itineraries, practical information on when to go and what to take and photography tips. Written in a deliberately engaging way, they offer something

different from dry field guides, and will appeal to the interested layman as much as the wildlife devotee. Ideal as a lightweight companion to any wildlife trip they also make a handsome souvenir. Beautifully illustrated with full-colour photographs throughout, Madagascar Wildlife is a celebration of the unique fauna of a remarkable island. Featuring over 250 species - from lemurs to millipedes - this guide is ideal for natural history enthusiasts and travellers alike. Newly discovered

species and recently protected habitats are all covered in this fully revised edition. Also included is practical advice on visiting the key national parks and reserves plus special features on the evolution, camouflage, night-time wildlife and conservation issues.

... **Port Tarascon** The Mountaineers Books Fiction. Translated from the German by Donna Stonecipher. Two young men with very different personalities set out to climb a mountain. Ull,

decisive and competent, has his eye on the goal: the summit. Johann, irresolute, is just along for the climb; after several setbacks, he gives up and turns back. Ull continues on despite the near impossibility of summiting along, and ignoring all warning signs determined to reach the summit in defiance of his friend. "Hohl is a great discovery, an unjustly neglected author." Susan Bernofsky" *Canada: Road Atlas* Open Road Media
* Reflections and humorous pieces, plus

insights into some of mountaineering's more controversial events * Revealing portraits of other Himalayan climbers Peeling back the layers to reveal the gritty truth about the elite climbing world is Greg Child's specialty. With clever wit, sharp observations, and insightful reflections, Child's writing covers the full spectrum of the mountaineering experience. Entertaining even to those who have never been above sea level, Child's stories reveal climbing's other

face. His description of the daily habits of mountaineers on expedition (who don't bathe for months) is both disgusting and horrifyingly funny. A post-climb fiasco in the offices of petty Pakistani bureaucrats proves that not all epics take place on high mountain faces. Falling of a rock climb in front of his mother is an exercise in humility. Child takes up climbing controversy with the same keen insight. His investigation of Tomo Cesen's claimed first

ascent of Lhotse's south wall is considered the definitive report on this controversial event. A hard look at the media frenzy around the death of Alison Hargreaves on K2 evolves into a brilliant, impassioned defense of a friend. He also speaks out on the money- and media-driven expeditions that now crowd Everest. But Child never preaches. Whether contrasting his clumsy performance with Lynn Hill's elegant moves on a climb in the remote mountains of Kyrgyzstan or reflecting upon

artifacts (from crucifixes to pink flamingos) that decorate the world's highest peaks, he writes it as he sees it, with a dose of wit. A true insider, Greg Child draws us deep into the world of climbing but never denies its dark side. *Rhodes, Karpathos, Kos, Southern Dodecanese* Graf Editions
 * Mark Twight's collected works, some never before published in North America * Includes dramatic black and white mountaineering photos * Features brand new epilogues to all of the

stories They call him Dr. Doom. Raving and kicking against mediocrity, his anger and pain simmer close to the surface. He speaks and writes the language of the punk music that defined him. He is extreme alpinist Mark Twight, and he doesn't back down from the truth. He's a one-man literary punk band. If you have any doubt, here comes his knockout punch: the only collection of writing Twight swears he'll ever publish. *Kiss or Kill: Confessions of a Serial Climber* is raw,

unfiltered Twight. These author's cut are the real deal, not the homogenized fluff offered up by magazine editors who are often unwilling to offend. Twight's words make it clear that climbing is only distantly about the summit. Several of these pieces are new to U.S. readers. Twight edited all of the selections and appended each with a current author's note; confessing his inspiration, events that followed, and lessons learned (or not learned, some might say). It adds up to a frightfully

lucid look into Twight's personal life as both man and hardcore alpine climber. The dissection scares me sometimes... Whether railing against the spinelessness of American siege-style mountaineering, admitting addiction to pushing the bounds of the possible, or reveling in his ability to cut away anything in life that holds him back, Twight never blinks. Along the way, there is the drama of new and epic routes, unbreakable bonds between climbing

partners, and Twight's evolution as a climber and a man. He tells every story in a unique, in-your-face style. Kiss or Kill is not an easy read. It may scare some readers-but that's the point. "I want this book to help you recognize your own anger, which will help you understand mine", says Twight. "Somewhere out there somebody understands these words and knows they matter. They were written in blood, learned by heart." *Climbing Tales of Terror* Hachette UK
