"Bucket of Blood" is what a coal town was called when bloodshed occurred to establish a worker's union. During the 1927-1928 strike in the western Pennsylvania coalfields, Russellton became known as such a place. In an effort to break the strike, special Coal and Iron Police were brought into the area to evict the mine families from their company houses. These men imposed unconstitutional restrictions to harass the people and keep out relief workers and organizers. It was a time of brutal beatings, rape, and murder. Without union representation, the workers were constantly exploited. Because the company used many weapons to keep them enslaved, the miners' families were forced to live in abject poverty. The miner had only one weapon, the strike. *Bucket of Blood: The Ragman's War* chronicles the depravation and indignities suffered by the families in the Russellton camps during the strike. Author R.S. Sukle explores the glimmers of hope appearing through relief efforts by the sons of a local farmer who become union activists. Ragman, a mine mechanic, walks out with the other men. Against his intentions, he is drawn into the struggle by his brothers, and the abuse that is heaped on his family by the Coal and Iron Police. The killing of a state Coal and Iron Policeman in Russellton is a local legend. The killer was never identified. This story has been passed down in certain families, each with their own version. Each claims the killer as a relative. *Bucket of Blood* is one of those stories.

Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

Making Small Farms Work Pebble Books

In her late 40s, Beth Hoffman decided to upend her comfortable life as a professor and journalist to move to her husband's family ranch in Iowa--all for the dream of becoming a farmer. There was just one problem: money. Half of America's two million farms made less than \$300 in 2019, and many struggle just to stay afloat. *Bet the Farm* chronicles this struggle through Beth's eyes. She must contend with her father-in-law, who is reluctant to hand over control of the land. Growing oats is good for the environment but ends up being very bad for the wallet. And finding somewhere, in the midst of COVID-19, to slaughter grass finished beef is a nightmare. If Beth can't make it, how can farmers who confront racism, lack access to land, or don't have other jobs to fall back on hack it? *Bet the Farm* is a first-hand account of the perils of farming today and a personal exploration of more just and sustainable ways of producing food.

In the fall of 1999, I had the great good fortune of moving to a secluded spot in the woods of southern Maine. There, I was to learn truths I might not have had I continued to live just inches from the asphalt in a small city. I would also amass a fount of impressions that would stay with me the rest of my life and that would color all my future days. I spent five years putting pen to all this in a weekly column that appeared in the local newspaper--the *Journal Tribune*. My aim was not so much to tell readers what I'd seen, heard and felt, but more to draw them in and to try to take them on that journey with me. The essays in this humble book are gleanings from those days, and they follow no particular order. My journey has not ended yet, it has simply taken a different path. This is a record of sorts of part of that journey, the remainder of which continues to unfold before me.
