[The Errand Boy](#) Fine Arts Museums of San Francisco and DelMonico Books  
The title of this book by Perry Miller, who is world-famous as an interpreter of the American past, comes close to posing the question it has been Mr. Miller's lifelong purpose to answer: What was the underlying aim of the first colonists in coming to America? In what light did they see themselves? As men and women undertaking a mission that was its own cause and justification? Or did they consider themselves errand boys for a higher power which might, as is frequently the habit of authority, change its mind about the importance of their job before they had completed it? These questions are by no means frivolous. They go to the roots of seventeenth-

century thought and of the ever-widening and quickening flow of events since then. Disguised from twentieth-century readers first by the New Testament language and thought of the Puritans and later by the complacent transcendentalist belief in the oversoul, the related problems of purpose and reason-for-being have been central to the American experience from the very beginning. Mr. Miller makes this abundantly clear and real, and in doing so allows the reader to conclude that, whatever else America might have become, it could never have developed into a society that took itself for granted. The title, *Errand into the Wilderness*, is taken from the title of a Massachusetts election sermon of 1670. Like so many jeremiads of its time, this sermon appeared to be addressed to the sinful and unregenerate whom God was about to destroy. But the original speaker's underlying concern was with the fateful ambiguity in the word errand. Whose errand? This crucial uncertainty of the age is the starting point of Mr. Miller's engrossing account of what happened to the European mind when, in spite of itself, it began to become something other than European. For the second generation in America discovered that their heroic parents had, in fact, been sent on a fool's errand, the bitterest kind of all; that the dream of a model society to be built in purity by the elect in the new continent was now a dream that meant nothing more to Europe. The emigrants were on their own. Thus left alone with America, who were they? And what were they to do? In this book, as in all his work, the author of *The New England Mind: The Seventeenth Century*; *The New England Mind: From Colony to Province*, and *The Transcendentalists*, emphasizes the need for understanding

the human sources from which the American mainstream has risen. In this integrated series of brilliant and witty essays which he describes as "pieces," Perry Miller invites and stimulates in the reader a new conception of his own inheritance.

Founding Director Lonnie Bunch's deeply personal tale of the triumphs and challenges of bringing the Smithsonian National Museum of African American History and Culture to life. His story is by turns inspiring, funny, frustrating, quixotic, bittersweet, and above all, a compelling read. In its first four months of operation, the Smithsonian National Museum of African American History and Culture surpassed one million visits and quickly became a cherished, vital monument to the African American experience. And yet this accomplishment was never assured. In *A Fool's Errand*, founding director Lonnie Bunch tells his story of bringing his clear vision and leadership to realize this shared dream of many generations of Americans. Outlining the challenges of site choice, architect selection, building design, and the compilation of an unparalleled collection of African American artifacts, Bunch also delves into his personal struggles--especially the stress of a high-profile undertaking--and the triumph of establishing such an institution without mentors or guidebooks to light the way. His memoir underscores his determination to create a museum that treats the black experience as an essential component of every American's identity. This inside account of how Bunch planned, managed, and executed the museum's mission informs and inspires not only readers working in museums, cultural institutions, and activist groups, but also

those in the nonprofit and business worlds who wish to understand how to succeed--and do it spectacularly--in the face of major political, structural, and financial challenges.

Horatio Alger's classic tale of social striving.

The Errand Boy of Andrew Jackson Dark Horse Comics

Philip started in irrepressible astonishment as these words fell from the lips of his step-mother. It seemed to him as if the earth were crumbling beneath his feet, for he had felt no more certain of the existence of the universe than of his being the son of Gerald Brent. He was not the only person amazed at this declaration. Jonas, forgetting for the moment the parthe

was playing, sat bolt upright on the sofa, with his large mouth wide open, staring by turns at Philip and his mother. "Gosh!" he exclaimed in a tone indicating utter surprise and bewilderment. "Will you repeat that, Mrs. Brent?" asked Philip, after a brief pause, not certain that he had heard aright. "I spoke plain English, I believe," said Mrs. Brent coldly, enjoying the effect of her communication. "I said that Mr. Brent, my late husband, was not your father." "I don't believe you!" burst forth Philip impetuously. "You don't wish to believe me, you mean," answered his step-mother, unmoved. "No, I don't wish to believe you," said the boy, looking her in the eye. "You are very polite to doubt a lady's word," said Mrs. Brent with sarcasm. "In such a matter as that I believe no one's word," said Phil. "I ask for proof." "Well, I am prepared to satisfy you. Sit down and I will tell you the story." Philip sat down on the nearest chair and regarded his step-mother fixedly. "Whose son am I," he demanded, "if not Mr. Brent's?" "You are getting on too fast. Jonas," continued his mother, suddenly turning to her hulking son, on whose not very intelligent countenance there was an expression of greedy curiosity, "do you understand that what I am going to say is to be a secret, not to be spoken of to any one?" "Yes'm," answered Jonas readily. "Very well. Now to proceed. Philip, you have heard probably that when you were very small your father--I mean Mr. Brent--lived in a small town in Ohio, called Fultonville? *The Errand* J. Born in Poland, Rose Mandel emigrated to California in 1942. A love of photography soon brought her into contact with Edward Weston and then with Ansel Adams and Minor White, both of whom had a strong influence on Mandel's work. Including her important sequence *The Errand of the Eye*, this book presents the sensitivity and clarity of Mandel' vision. Images from natural and man-made environments, eloquent portraits and abstract landscapes convey Mandel's delight in the compositions and patterns that can be found anywhere, whether walking along a city street or a country path. These photographs are the result of a highly refined sense of craftsmanship and a complex understanding of psychology and abstract expressionism that caused Mandel to be described as "a painter with a camera." The first monograph on the artist, this volume features an enlightening overview of Mandel's life and work, along with an illustrated chronology and exhibition history. AUTHOR: Susan Ehrens is an art historian and independent photography curator and consultant who worked closely with Rose Mandel during the last two decades of the artist's life. Julian Cox is the Fine Arts Museums of San Francisco's Founding Curator of Photography and Chief Administrative

Curator. SELLING POINTS: The first publication dedicated to Rose Mandel, a pioneering woman in photography, introduces her remarkable, if often
