Good Dog

Macmillan
At last, an inexpensive paperback edition of a book that has been acclaimed as one of the most useful and reliable guides to training your dog. Obedience training does not have to resemble Marine boot camp, with

the dog as the recruit and the trainer as the drill instructor. Nor does it have to be work. Rather, as the title of this comprehensive guide suggests, it can be playful fun for both -- with a few rules thrown in to shape the game into an obedience exercise. Playtraining Your Dog provides an alternative to the violence that conventional training methods inflict on the minds and bodies of

dogs. Using widely known, standardized exercises from the American Kennel Club, and written in a clear, informative style, this book contributes to realizing the full potential of both the dog and the dog/owner relationship. Topics covered include: - instructors & training classes - training time - motivation - advice for showing a dog - cues & body language

dogs. The positive training based, Constructional Aggression Treatment (CAT), as described in Turning Fierce Dogs Friendly, has proven successful for many pet owners and trainers around the world. As a functional approach to changing aggressive behavior, it offers a humane alternative to desensitization, counter conditioning, and distraction procedures.

CAT typically produces long-lasting results in far less time than any positive treatment available, without the undesirable side-effects that are common with punishment procedures. The ultimate outcome is a once-aggressive dog that is now friendly. Inside Turning Fierce Dogs Friendly: Step-by-step instructions for performing CAT with aggressive dogs. Understand the normal

eligible dog combat unit candidates with whom SEAL handlers eventually forged close bonds and saved countless lives. Playtraining Your Dog Karen Pryor Clicker Training Karen Pryor's clear and entertaining explanation of behavioral training methods made Don't Shoot the Dog a bestselling classic with revolutionary insights into animal—and human—behavior. In her

groundbreaking approach to improving behavior, behavioral biologist Karen Pryor says, "Whatever the task, whether keeping a four-year-old quiet in public, housebreaking a puppy, coaching a team, or memorizing a poem, it will go fast, and better, and be more fun, if you know how to use reinforcement." Now Pryor clearly explains the underlying principles of behavioral training and

reveals how this art can be applied to virtually any common situation. And best of all, she tells how to do it without yelling threats, force, punishment, guilt trips—or shooting the dog. From the eight methods for putting an end to all kinds of undesirable behavior to the ten laws of “shaping” behavior, Pryor helps you combat your own addictions and deal with such difficult problems as a moody

spouse, an impossible teen, or an aged parent. Plus, there’s also incredibly helpful information on house training the dog, improving your tennis game, keeping the cat off the table, and much more! “In the course of becoming a renowned dolphin trainer, Karen Pryor learned that positive reinforcement ...is even more potent that prior scientific work had suggested...Don’t Shoot the
