A story of ingenuity and perseverance.

Richard Turere's own story: Richard grew up in Kenya as a Maasai boy, herding his family's cattle, which represented their wealth and livelihood. Richard's challenge was to protect their cattle from the lions who prowled the night just outside the barrier of acacia branches that surrounded the farm's boma, or stockade. Though not well-educated, 12-year-old Richard loved tinkering with electronics. Using salvaged components, spending \$10, he surrounded the boma with blinking lights, and the system works; it keeps lions away. His invention, Lion Lights, is now used in Africa, Asia, and South America to protect farm animals from predators.

In an age dominated by nationalism and ethnic conflict, Charles Jencks argues that these reactionary tendencies can be countered by an equally powerful drive - heterophilia: the love of difference, the desire to seek out new experience and curiosity. All of these are essential to the creation of a new form of city, the heteropolis, epitomized by Los Angeles. With over one hundred ethnic groups, forty different lifestyle clusters, eighty languages spoken in the schools, and extraordinarily different flora and fauna, Los Angeles' diversity has now become one of its main drawing points, and problems. Precariously balanced between civil unrest and the creative enjoyment of difference, it is something towards which other world cities, with their mass-migration and global trade are heading. The hetero-architecture of Los Angeles suggests a way beyond the present impasse between the fundamentalists and the multiculturalists, a third position which diffuses confrontation with creative displacement and inclusive eclecticism. The strange beauty of hetero-architecture embraces variety, its informality allows marginalized groups to feel at home and its unusual metaphors suggest our connection to the natural world. Frank Gehry, Eric Owen Moss, Morphosis, Frank Israel and Charles Moore are its visible leaders, but there is also a vernacular and funk version of the genre as well as the populist versions of Jon Jerde and Disneyland. The philosophy of hetero-architecture accepts difference as a necessity and turns it into a virtue with an informal aesthetic at once polyglot, abstract and representational - that is radically eclectic and inclusive in an understated way. The 'L.A. Style', as it is known, bears affinities with other aesthetics such as the Wabi and Sabi style of the Japanese. With many world cities now facing increasing pluralization, the heteropolis is bound to become a major urban form of the future.

This book offers unique insights into the Psalms and sketches a variety of interpretive possibilities. The exposition of Psalm texts against the background of their different historical and/or cultic settings in the ancient Near East sets a firm basis for their reapplication in the liturgy today. In the history of interpretation the Psalms have also proven themselves to be natural texts for liturgical use. This scholarly effort thus portrays in various ways the importance of the Psalms for their reviving interpretation and application in the liturgy. Contributors include: Marcel Bernhard, Georg P. Braulik, Brian Doyle, Alphonso Groenewald, Dirk J. Human, Jorg Jeremias, Louis C. Joner, Jurie H. le Roux, Eckhart Otto, Nick A. Schuman, Stephanus D. Snyman, Hans-Ulrich Steymans, Pieter M. The Sonderkommando—the "special squad" of enslaved Jewish laborers who were forced to work in the gas chambers and crematoria of Auschwitz-Birkenau—comprise one of the most fascinating and troubling topics within Holocaust history. As eyewitnesses to and unwilling abettors of the murder of their fellow Jews, they are the object of fierce condemnation even today. Yet it was a group of these seemingly compromised men who carried out the revolt of October

7, 1944, one of the most celebrated acts of Holocaust resistance. This interdisciplinary collection assembles careful investigations into how the Sonderkommando have been represented—by themselves and by others—both during and after the Holocaust.

This book, the only biography ever authorized by a sitting President--yet written with complete interpretive freedom--is as revolutionary in method as it is formidable in scholarship. When Ronald Reagan moved into the White House in 1981, one of his first literary guests was Edmund Morris, the Pulitzer Prize-winning biographer of Theodore Roosevelt. Morris developed a fascination for the genial yet inscrutable President and, after Reagan's landslide reelection in 1984, put aside the second volume of his life of Roosevelt to become an observing eye and ear at the White House. During thirteen years of obsessive archival research and interviews with Reagan and his family, friends, admirers and enemies (the book's enormous dramatis personae includes such varied characters as Mikhail Gorbachev, Michelangelo Antonioni, Elie Wiesel, Mario Savio, François Mitterrand, Grant Wood, and Zippy the Pinhead), Morris lived what amounted to a doppelgänger life, studying the young "Dutch," the middle-aged "Ronnie," and the septuagenarian Chief Executive with a closeness and dispassion, not to mention alternations of amusement, horror, and amazed respect, unmatched by any other presidential biographer. This almost Boswellian closeness led to a unique literary method whereby, in the earlier chapters of *Dutch: A Memoir of Ronald Reagan*, Morris's biographical mind becomes in effect another character in the narrative, recording long-ago events with the same eyewitness vividness (and absolute documentary fidelity) with which the author later describes the great dramas of Reagan's presidency, and the tragedy of a noble life now darkened by dementia. "I quite understand," the author has remarked, "that readers will have to adjust, at first, to what amounts to a new biographical style. But the revelations of this style, which derive directly from Ronald Reagan's own way of looking at his life, are I think rewarding enough to convince them that one of the most interesting characters in recent American history looms here like a colossus."

An examination of what can be learned by looking at the journals and diaries of Jews living during the Holocaust. What are the

effects of radical oppression on the human psyche? What happens to the inner self of the powerless and traumatized victim, especially during times of widespread horror? In this bold and deeply penetrating book, Amos Goldberg addresses diary writing by Jews under Nazi persecution. Throughout Europe, in towns, villages, ghettos, forests, hideouts, concentration and labor camps, and even in extermination camps, Jews of all ages and of all cultural backgrounds described in writing what befell them. Goldberg claims that diary and memoir writing was perhaps the most important literary genre for Jews during World War II. Goldberg considers the act of writing in radical situations as he looks at diaries from little-known victims as well as from brilliant diarists such as Chaim Kaplan and Victor Klemperer. Goldberg contends that only against the background of powerlessness and inner destruction can Jewish responses and resistance during the Holocaust gain their proper meaning. "This is a book that deserves to be read well beyond Holocaust studies. Goldberg's theoretical insights into "life stories" and his readings of law, language and what he calls the "epistemological grey zone" . . . provide a stunning antidote to our unthinking treatment of survivors as celebrities (as opposed to just people who have suffered terrible things) and to the ubiquity of commemorative platitudes." —Times Higher Education "Every decade or so, an exceptional volume is born. Provocative and inspiring, historian Goldberg's volume is one such work in the field of Holocaust studies. . . . Highly recommended." —Choice "Amos Goldberg's *Trauma in First Person: Diary Writing During the Holocaust* is an important and thought-provoking book not only on reading Holocaust diaries, but also on what that reading can tell us about the extent of the destruction committed against Jews during the Holocaust." —Reading Religion "Amos Goldberg's work offers an innovative approach to the subject matter of Holocaust diaries and challenges well-established views in the whole field of Holocaust studies. This is a comprehensive discussion of the phenomenon of Jewish diary writing during the Holocaust and after." —Guy Miron. Author of *The Waning of Emancipation: Jewish History, Memory, and the Rise of Fascism in Germany, France, and Hungary* "This is an important contribution to trauma studies and a powerful critique of those who use the "crisis" paradigm to study the Holocaust." —Dovile Budryt, Georgia Gwinnett College, *Holocaust and Genocide Studies*

Born into a magical Cree world in snowy northern Manitoba, Champion and Ooneemeetoo Okimasis are all too soon torn from their family and thrust into the hostile world of a Catholic residential school. Their language is forbidden, their names are changed to Jeremiah and Gabriel, and both boys are abused by priests. As young men, estranged from their own people and alienated from the culture imposed upon them, the Okimasis brothers fight to survive. Wherever they go, the Fur Queen--a wily, shape-shifting trickster--watches over them with a protective eye. For Jeremiah and Gabriel are destined to be artists. Through music and dance they soar.

Since an atomic Bose-Einstein condensate, predicted by Einstein in 1925, was first produced in the laboratory in 1995, the study of ultracold Bose and Fermi gases has become one of the most active areas in contemporary physics. This book explains phenomena in ultracold gases from basic principles, without assuming a detailed knowledge of atomic, condensed matter, and nuclear physics. This new edition has been revised and updated, and includes new chapters on optical lattices, low dimensions, and strongly-interacting Fermi systems. This book provides a unified introduction to the physics of ultracold atomic Bose and Fermi gases for advanced undergraduate and graduate students, as well as experimentalists and theorists. Chapters cover the statistical physics of trapped gases, atomic properties, cooling and trapping atoms, interatomic interactions, structure of trapped condensates, collective modes, rotating condensates, superfluidity, interference phenomena, and trapped Fermi gases. Problems are included at the end of each chapter.

Sources of Holocaust Insight maps the odyssey of an American Christian philosopher who has studied, written, and taught about the Holocaust for more than fifty years. What findings result from John Roth's journey; what moods pervade it? How have events and experiences, scholars and students, texts and testimonies—especially the questions they raise—affected Roth's Holocaust studies and guided his efforts to heed the biblical proverb: "Whatever else you get, get

insight"? More sources than Roth can acknowledge have informed his encounters with the Holocaust. But particular persons—among them Elie Wiesel, Raul Hilberg, Primo Levi, and Albert Camus—loom especially large. Revisiting Roth's sources of Holocaust insight, this book does so not only to pay tribute to them but also to show how the ethical, philosophical, and religious reverberations of the Holocaust confer and encourage responsibility for human well-being in the twenty-first century. Seeing differently, seeing better—sound learning and teaching about the Holocaust aim for what may be the most important Holocaust insight of all: Take nothing good for granted.

"Jann Pasler's remarkable *Composing the Citizen* reaches well beyond what any book concerned with music in society has ever attempted. Concentrating on France of the Third Republic, from the 1870s through the early 1900s, she demonstrates convincingly how music—whether new, old, popular, or élite, whether performed at institutions of state (such as the Opéra), the Folies Bergère, concert halls, or the zoo—helped to redefine what it meant to be French under evolving political circumstances. Equally adept in the languages of history, sociology, political science, reception history, and music analysis, Pasler establishes music's cultural significance and implicitly illuminates the role it can still play in countries like the United States."--Philip Gossett, The University of Chicago and University of Rome, La Sapienza "Composing the Citizen offers nothing less than a new paradigm for the study of musical cultures. Rather than forcing French music into the moulds developed for the Austro-German canon, Pasler simply studies the social uses of music in fin-de-siècle France. Her painstaking archival research allows her to present an astonishingly detailed account of musical practices, tastes, and activities; new names and genres come to the fore to engage in a variety of dynamic artistic scenes most of us never knew--or only thought we did by virtue of having read Proust. A masterwork of a scholar at the very peak of her career."--Susan McClary, MacArthur Fellow 1995 and author of *Georges Bizet: Carmen and Modal Subjectivities: Self-Fashioning in the Italian Madrigal* "Utilité publique: a common-sense republican notion of sweeping consequence. In this greatly anticipated volume Jann Pasler uses it as touchstone, showing how and why musical life so

mattered in Third-Republic France: layer after layer of it, in a journey that takes us past the Opéra and Conservatoire to the pops concerts, department stores, the zoo, the world's fairs, the overseas colonies. Companionable as a well-worn Baedeker, seductive as Roger Shattuck's *The Banquet Years*, this exquisitely styled and paced achievement is also a compelling read."--D. Kern Holoman, author of *Berlioz and The Société des Concerts du Conservatoire, 1828-1967*

In his own words, the heavyweight champion of the world pulls no punches as he chronicles the battles he faced in and out of the ring in this fascinating memoir edited by Nobel Prize-winning novelist, Toni Morrison. Growing up in the South, surrounded by racial bigotry and discrimination, Ali fought not just for a living, but also for respect and rewards far more precious than money or glory. He was named Sportsman of the Century by *Sports Illustrated* and the BBC. Ali redefined what it meant to be an athlete by giving hope to millions around the world and inspiring us all to fight for what is important to us. This is a multifaceted portrait of Muhammad Ali only he could render: sports legend; unapologetic anti-war advocate; outrageous showman and gracious goodwill ambassador; fighter, lover, poet, and provocateur; an irresistible force to be reckoned with. Who better to tell the tale than the man who went the distance living it?

English for Au Pairs Samuel French, Inc. A timely study of the effects of family separation on child refugees, using newly discovered archival sources from the WWII era: "Highly recommended." —Choice *The Kindertransport*—an organized effort to extract children living under the threat of Nazism—lives in the popular memory as well as in literature as a straightforward act of rescue and salvation, but these celebratory accounts leave little room for a deeper, more complex analysis. This volume reveals that in fact many children experienced difficulties with settlement: they were treated inconsistently by refugee agencies, their parents had complicated reasons for giving them up, and their caregivers had a variety of motives for taking them in. Against the grain of many other narratives, Jennifer Craig-Norton emphasizes the use of newly discovered archival sources, which include the correspondence of refugee agencies, carers, Kinder and their parents, and juxtaposes this material with testimonial accounts to show readers a more nuanced and complete picture of the Kindertransport. In an era in which the

family separation of refugees has commanded considerable attention, this book is a timely exploration of the effects of family separation as it was experienced by child refugees in the age of fascism.

One of the most recognizable, respected and inspirational men on earth, Muhammad Ali is the world's most famous boxing hero. Ali brought unprecedented speed and grace to the sport, and his charm and wit changed forever what the world expects of a champion athlete. In the words of over two hundred of Ali's family members, associates, opponents, friends and enemies, this comprehensive and honest portrait relates his legendary sporting accomplishments, as well as the high drama of life outside the boxing ring. From Olympic gold in Rome, to stunning victory over George Foreman in Zaire, every historic victory and defeat of Ali's career is covered. His controversial embrace of the Nation of Islam - with the renunciation of his 'slave name', Cassius Clay - and the historic refusal to be inducted into the US Army makes for compelling reading. Ali became America's first national conscientious objector, and with a willingness to stage his fights in Third World locales, he continued his advocacy for people in need which was honoured in 2000 when he became a United Nations Messenger of Peace. Charismatic, dedicated and a skilful self-publicist, Ali is the living embodiment of the American Dream. This is the biography to match his achievements.

This volume brings together educational effectiveness research and international large-scale assessments, demonstrating how the two fields can be applied to inspire and improve each other, and providing readers direct links to instruments that cover a broad range of topics and have been shown to work in more than 70 countries. The book's initial chapters introduce and summarize recent discussions and developments in the conceptualization, implementation, and evaluation of international large-scale context assessments and provide an outlook on possible future developments. Subsequently, three thematic sections - "Student Background", "Outcomes of Education Beyond Achievement", and "Learning in Schools" - each present a series of chapters that provide the conceptual background for a wide range of important topics in education research, policy, and practice. Each chapter defines a conceptual framework that relates recent findings in the educational effectiveness research literature to current issues in education policy and practice. These frameworks were used to develop interesting and relevant indicators that may be used for meaningful reporting

from international assessments, other cross-cultural research, or national studies. Using the example of one particular survey (the Programme for International Student Assessment (PISA 2015)), this volume links all theoretical considerations to fully developed questionnaire material that was field trailed and evaluated in questionnaires for students and their parents as well as teachers and principals in their schools. The primary purposes of this book are to inform readers about how education effectiveness research and international large-scale assessments are already interacting to inform research and policymaking; to identify areas where a closer collaboration of both fields or input from other areas could further improve this work; to provide sound theoretical frameworks for future work in both fields; and finally to relate these theoretical debates to currently available and evaluated material for future context assessments.

Au-pair Guide John Wiley & Sons
Published in association with the United States Holocaust Memorial Museum, a riveting story of Jewish families seeking to escape Nazi Germany. In 1938, on the eve of World War II, the American journalist

Dorothy Thompson wrote that "a piece of paper with a stamp on it" was "the difference between life and death." *The Unwanted* is the intimate account of a small village on the edge of the Black Forest whose Jewish families desperately pursued American visas to flee the Nazis. Battling formidable bureaucratic obstacles, some make it to the United States while others are unable to obtain the necessary documents. Some are murdered in Auschwitz, their applications for American visas still "pending." Drawing on previously unpublished letters, diaries, interviews, and visa records, Michael Dobbs provides an illuminating account of America's response to the refugee crisis of the 1930s and 1940s. He describes the deportation of German Jews to France in October 1940, along with their continuing quest for American visas. And he re-creates the heated debates among U.S. officials over whether or not to admit refugees amid growing concerns about "fifth columnists," at a time when the American public was deeply isolationist, xenophobic, and antisemitic. A Holocaust story that is both German and American, *The Unwanted* vividly captures the experiences of a small community struggling to survive amid tumultuous world events.
