Teaching and learning mathematics is a political act in which children, teachers, parents, and policy makers are made visible as subjects. As they learn about mathematics, children are also learning about themselves – who they are, who they might become. We can choose to listen or not to what children have to say about learning mathematics. Such choices constitute us in relations of power. Mathematical know-how is widely regarded as essential not only to the life chances of individuals, but also to the health of communities and the economic well-being of nations. With the globalisation of education in an increasingly market-oriented world, mathematics has received intensified attention in the first decade of the twenty-first century with a shifting emphasis on utilitarian aspects of mathematics. This is reflected in the reconceptualisation of mathematical competence as mathematical literacy, loosely conceived as those ways of thinking, reasoning and working “mathematically” that allow us to engage effectively in everyday situations, in many occupations, and the cut and thrust of world economies as active, empowered and participatory citizens. It is no surprise then that mathematics has become one of the most politically charged subjects in primary school curricula worldwide. We are experiencing an unprecedented proliferation of regional and

national strategies to establish benchmarks, raise standards, enhance achievement, close gaps, and leave no child behind in mathematics education. Industries have sprung up around the design, administration and monitoring of standardised assessment to measure and compare children's mathematical achievement against identified benchmarks and each other.

Via memory, material objects, music, people and place, *Hip Hop In The Sticks* picks up where *Scratching the Surface* left off.

Through the eyes of an adolescent rural hip hop head, questions of identity, heritage and one's own location in the world emerge through rich lived experience. Often idiosyncratic, humorously dry, and underpinned by comprehensive and informative endnotes, *Hip Hop In The Sticks* presents a deep non-fiction contextual narrative, intersecting family secrets, a different sense of community and kinship, embryonic hip hop and graffiti practice. *Hip Hop In The Sticks* makes visible a different account of life in late 1980s rural Britain and an alternative version of hip hop history.

Hip Hop in The Sticks: A Deepening Con/Text Random House Books for Young Readers

Tyrus Raymond Cobb. Elected to the Baseball Hall of Fame in a nearly unanimous vote. Highest lifetime batting average in baseball. Highest lifetime number of runs scored. Second highest lifetime number of hits. The run of statistics goes on, making it clear that Ty Cobb was baseball's greatest overall player. But before Ty Cobb was a legend, he was a young man trying to escape from his famous father's lengthy shadow. William H. Cobb, former state senator, renowned educator, champion of the Southern cause in the late 1800s and early 1900s, a gentleman and a scholar. Tyrus Raymond Cobb, his oldest son, was to carry on the proud Cobb family traditions, as explained by Ty Cobb: "The honorable and honest Cobb blood . . . never will be subjected. It bows to no wrong nor to any man . . . The Cobbs have their ideals, and God help anyone who strives to bend a Cobb away from such." Unfortunately for W.H., Ty's greatest desire was to play baseball—a trivial game that would bring him

into contact with low people. Yet the father could not deny that the son's passion for his chosen profession burned hot, reflecting the very strength of will that was the hallmark of Cobb men. After much struggle, W.H. blessed his son and encouraged him to continue playing ball. The reconciliation nearly came too late, for soon after, W. H. Cobb was shot twice at close range—murdered—by his wife of more than twenty years. Ty was nineteen years old. The grief-stricken boy burned with rage as rumors circulated through the small Georgia town—rumors that his mother had been having an affair and that his father had caught her in the act. With his father newly buried and his mother awaiting trial, Ty Cobb was summoned to Detroit to play for the Tigers. Tyrus is a fictional account of this time in young Cobb's life—that pivotal half-season when Ty had to prove his value on the field or forever lose any chance of playing professional ball. Subjected to a rookie hazing that would have destroyed a lesser man, Cobb carried his battle with his teammates from the clubhouse onto the field and emerged bloodied but unbowed. The sights and sounds of cut throat baseball are brilliantly evoked—a type of baseball that Cobb said was "about as gentlemanly as a kick in the crotch." This thoroughly researched novel is a deft psychological portrait of a young man at a time of turmoil and transition. Patrick Creevy, whose earlier novel was praised as "intense [and full of] poetic yearning and literary allusion" (Kirkus Reviews), takes a unique literary look at the man dubbed "the Meanest Man in Baseball" as he left boyhood behind and began the baseball journey that made him a legend.
