CHAPTER 2: Literature Review

This chapter will explore the literature that is relevant to understanding the development of, and

interpreting the results of this convergent study. The first two parts of this review of the literature will describe two types of research: research on teaching and research on teachers' conceptions. CHAPTER 2: Literature Review Chapter 2 of the specification writers guide describes this specification development framework in detail, systematically leading a specifier through each step in the process. However, as suggested by a review of the guide 14 specifications themselves,

some steps are more critical to certain topic areas than to others. Chapter 2 - Research Methodology | Performance ... The basic outlines of hypothesis-driven research were provided in Section 1.3.1, but when setting out to create an

experiment to test a hypothesis, there is much more to consider. Your experiment should have at least one control or independent variable, and at least one response or dependent variable. The independent variable is something you are sure will change during the course of experimental measurements.
