Music Asylums: Wellbeing Through Music in Everyday Life MacMillan Publishing Company

A spirited artist with a can-do attitude, Yvonne Wakefield naively leaves behind a secure life in the lush Pacific Northwest to

teach art in the desert state of Kuwait. Over the course of six years, she will instruct university aged Muslim women, earn her student's trust, and learn the consequences of freedom of expression, taken for granted in one culture but not granted in another. Despite obstacles set by her detractors, she persists, and she and her students flourish. Yet the traps never disappear, only multiply as others set more for her, intent on denying what they have no desire to understand. Told from the unique perspective of an artist, *Suitcase Filled with Nails* is a colorful, true, and timely tale about living and coping in the Middle East.

This title brings to light the discoveries and insights into the lives of many marine

species made possible over the last decade by passive acoustic recorders (PAR). Pop-ups, ARF, HARP, EAR, Bprobe, C-POD Atag, and Dtag are the acronyms of some of the many PARs that have changed our understanding of how marine animals live and strive in the ocean. Various types of PARs are used by different investigators in different areas of the world. These recorders have accumulated copious amounts of very important data, unveiling previously unknown information about large marine animals. Temporal, seasonal and spatial distribution patterns have been uncovered for many marine species. There have been many discoveries, new understandings and insights into how these animals live in and utilize the ocean and the importance of acoustics in their lives. Listening Within the Ocean summarizes these important discoveries, providing both a valuable resource for researchers and enjoyable reading for non-professionals interested in marine life.

Taking a cue from Erving Goffman's classic work, *Asylums*, Tia DeNora develops a novel interdisciplinary framework for music, health and wellbeing. Considering health and illness both in medical contexts and in the often-overlooked realm of everyday life, DeNora argues that these identities are by no means mutually exclusive. Moreover, she suggests that the promotion of health and more specifically, mental health, involves a great deal more

than a concern with medication, genetic predispositions, clinical and neuro-scientific procedures. Adopting a holistic, interactionist focus, *Music Asylums* reconnects states of wellness and wellbeing to encounters with others and - critically - to opportunities for aesthetic experience. Building on DeNora's earlier work on music as a technology of self in everyday life, the book presents music as an active ingredient of action, identity, capacity and consciousness. From there, it suggests that access to, and evaluation of, music is an important ethical matter. Intended for scholars and practitioners in psychiatry and psychology, palliative care, socio-music studies, music psychology and the allied health professions, *Music Asylums* showcases music's role in the existential project of being and staying well, mentally and physically, from moment-to-moment and across all realms of social life.

The whole world runs away from death, because death snatches everything, but the one who accepts it and willingly faces it, receives something from death itself. Ironically, knowledge of death gives you the gift of life. *Katopanishad* tells the story of young Nachiketa who goes to face the lord of death and the extraordinary dialogue that ensues between them. *Upanishad* means sitting close to the Master. Gurudev takes us through this beautiful story integrating its profoundness with real-life situations, turning abstract philosophy into existential reality.
