This story belongs to the year 1837, and was regarded by the generations of that and a succeeding time as the most miraculous of all the recorded deliverances from death at sea. It may be told thus: Mr. Montagu Vanderholt sat at breakfast with his daughter Violet one morning in September.

Vanderholt's house was one of a fine terrace close to Hyde Park. He was a rich man, a retired Cape merchant, and his life had been as chequered as Trelawney's, with nothing of romance and nothing of imagination in it. He was the son of honest parents, of Dutch extraction, and had run away to sea when about twelve years old. Nothing under the serious heavens was harsher, more charged with misery, suffering, dirt, and wretchedness, than seafaring in the days when young Vanderholt, with an idiot's cunning, fled to it from his father's comfortable little home. He got a ship, was three years absent, and on his return found both his father and mother dead. He went again to sea, and, fortunately for him, was shipwrecked in the neighbourhood of Simon's Bay. The survivors made their way to Cape Town, and presently young Vanderholt got a job, and afterwards a position. He then became a master, until, after some eight or ten years of heroic perseverance, attended by much good luck, beheld Mr. Vanderholt full-blown into a colonial merchant prince. How much he was worth when he made up his mind to settle in England, after the death of his wife, and when he had disposed of his affairs so as to leave himself as free a man as ever he had been when he was a common Jack Swab, really signifies nothing. It is certain he had plenty, and plenty is enough, even for a merchant prince of Dutch extraction. Besides Violet, he had two sons, who will not make an appearance on this little brief stage. They are dismissed, therefore, with this brief reference—that both were in the army, and both, at the time of this tale, in India. Violet was Vanderholt's only daughter, and he loved her exceedingly. She was not beautiful, but she was fair to see, with a pretty figure, and an arch, gay smile. You saw the Dutch blood in her eyes, as you saw it in her father's, whose orbs of vision, indeed, were ridiculously small—scarcely visible in their bed of socket and lash. An English mother had come to Violet's help in this matter. Taking her from top to toe, with her surprising quantity of brown hair, soft complexion, good mouth, teeth, and figure, Violet Vanderholt was undoubtedly a fine girl. THE LAST ENTRY "OPINIONS OF THE PRESS ON THE LAST ENTRY": "The Last Entry" is a rattling good salt-water yarn, told in the author's usual breezy, exhilarating style. - "Daily Mail. 'In this new novel Mr. Russell has cleverly thrown its events into the year 1837, and there are one or two ingenious passages which add to the Diamond Jubilee interest which that date suggests.... "The Last Entry" is as certain of general popularity as any of Mr. Russell's former tales of the marvels of the sea.' - "Glasgow Herald. 'We do not think it possible for anyone to dip into this novel without desiring to finish it, and it adds another to the long list of successes of our best sea author.' - "Librarian. 'In addition to mutiny and murder, "The Last Entry" contains many of those good things which have made Mr. Russell's pages a joy to so many lovers of the sea during the last twenty years.... "The Last Entry" is a welcome addition to Mr. Clark Russell's library.' - "Speaker. 'The writer is as realistic and picturesque as usual in his vivid descriptions of the stagnant life on board the homeward-bound Indiaman.' - "Times. 'It is full of pleasant vigour.... As is always the case in Mr. Clark Russell's books, the elements are treated with the pen of an artist.' - "Standard. 'We expected plenty of go, of fresh and vigorous description of sea-faring life, coupled with a story which would not be wanting in interest. All this we have here.'" -Tablet.

Any on-screen schmuck can take down a wolfman with a silver bullet. It takes a certain kind of hero to hoist that wolfman overhead into an airplane spin, follow with a body slam, drop an atomic elbow across his mangy neck, leg-lock him until he howls, and pin his furry back to the mat for a three-count. It takes a Mexican masked wrestler. Add a few half-naked vampire women, Aztec mummies, mad scientists, evil midgets from space, and a goateed Frankenstein monster, and you have just some of the elements of Mexican masked wrestler and monster movies, certainly among the most bizarre, surreal and imaginative films ever produced. This filmography features some of the oddest cinematic showdowns ever concocted—Mexican masked wrestlers battling monsters, evil geniuses and other ne'er-do-wells, be it in caves, cobwebbed castles or in the ring. From the 1950s to the 1970s, these movies were staples of Mexican cinema, combining action, horror, sex, science fiction and comedy into a bizarre amalgam aimed to please the whole family. Chapters examine the roots of the phenomenon, including the hugely popular masked wrestling scene and the classic Universal horror films from which Mexican filmmakers stole without compunction. Subsequent chapters focus on El Santo, Blue Demon, and Mil Mascaras, the three most prominent masked wrestlers; wrestling women; other less prominent masked wrestlers; and the insane mish-mash of monsters pitted against the heroes. Each chapter includes background information and a full filmography, and a wide assortment of striking illustrations—posters, lobby cards and other graphic material, some better than the movies they advertised—accompany the text.

There is no soundtrack is a study of how sound and image produce meaning in contemporary experimental media art by artists ranging from Chantal Akerman to Nam June Paik to Tanya Tagaq. It contextualises these works and artists through key ideas in sound studies: voice, noise, listening, the soundscape and more. The book argues that experimental media art produces radical and new audio-visual relationships challenging the visually dominated discourses in art, media and the human sciences. In addition to directly addressing what Jonathan Sterne calls 'visual hegemony', it

also explores the lack of diversity within sound studies by focusing on practitioners from transnational and diverse backgrounds. As such, it contributes to a growing interdisciplinary scholarship, building new, more complex and reverberating frameworks to collectively sonify the study of culture.

A Rabelaisian satire loosely based on Voltaire's *Candide*, Terry Southern and Mason Hoffenberg's *Candy* became one of the most famous novels of the tumultuous 1960's. Detailing its humble beginnings in Paris through its agonizing three-year writing gestation (often on paper napkins, lost or destroyed) and the authors' wily business dealings first with French-based publisher Maurice Girodias, then Putnam in America, this book follows with unblinking scrutiny *Candy's* underground (then mainstream) success, its blatant piracy, its legal shenanigans, and its all-star movie flop. Replete with deceptions and self-deceptions, midnight dope runs, and general pandemonium, *THE CANDY MEN* is as much fun to read as the original novel itself. And far more instructive.

In almost a century since the First World War ended, Scotland has been transformed in many rich ways. Its literature has been an essential part of that transformation. The third volume of the *History*, explores the vibrancy of modern Scottish literature in all its forms and languages. Giving full credit to writing in Gaelic and by the Scottish diaspora, it brings together the best contemporary critical insights from three continents. It provides an accessible and refreshing picture of both the varieties of Scottish literatures and the kaleidoscopic versions of Scotland that mark literary developments since 1918.

The present volume is the second in a two-volume set dealing with modelling and numerical simulations in electrochemistry. Emphasis is placed on the aspect of nanoelectrochemical issues. It seems appropriate at this juncture to mention the n- growing body of opinion in some circles that George Box was right when he stated, three decades ago, that "All models are wrong, but some are useful". Actually, when the statement itself was made it would have been more appropriate to say that "All models are inaccurate but most are useful nonetheless". At present, however, the statement, as it was made, is far more appropriate and closer to the facts than ever before. Currently, we are in the midst of the age of massively abundant data. Today's philosophy seems to be that we do not need to know why one piece of information is better than another except through the statistics of incoming and outgoing links between information and this is good enough. It is why, both in principle and in practice, one can translate between two languages, without knowledge of either. While none of this can be ignored, and it may even be true that "All models are wrong and increasingly you can succeed without them" the traditional approach of scientific modelling is still the order of the day. That approach may be stated as hypothesize - measure - model - test. It is in this light that the present volume should be viewed.

This book analyses the way that HIV/AIDS is often narrativised and represented in contemporary world cultures, as well as the different strategies of remembrance deployed by different (sub)cultural groups affected by the illness. Through a close study of a variety of cultural texts; including cinema, literature, theatre, art and photography amongst others, it demonstrates the trajectory that such narratives and representations have undergone since the advent of the 'discovery' of the disease in the 1980s. Acknowledging the central - yet often overlooked - role that cultural products have played in the construction of public opinion towards the condition itself and those who suffer it, this ground-breaking volume focuses on a variety of narratives, as well as strategies of coping with HIV/AIDS that have emerged across the globe. Bringing together research on the UK, North and South America, Africa and China, it provides rich textual analyses of the ways in which the HIV positive body has been portrayed in contemporary culture, with attention to the differences between specific national contexts, whilst keeping in view a space of commonality amongst the different experiences reflected in such texts. As such, it will be of interest to social scientists and scholars of cultural and media studies, concerned with cultural production and representations of the body and sickness.

A powerhouse novel about an idealistic young man's return to a rural Southern town simmering with prejudice and anger Separation papers in hand, Beau Jim Early sets out one hot, dry August morning

in 1960 from Fort Jackson, South Carolina, for his brother's farm in Cocke County, Georgia. After six years in the army, civilian life is not as easy as it looks. In short order, Beau Jim gets conned by a shoe-shine boy, buys a Studebaker with bad brakes, and spends nearly every cent of the \$400 he won in a crap game the night before. But Beau Jim is a man who can roll with the punches, and the drive into his hometown is as exhilarating as he thought it would be. His brother's farm, however, is a different story. Older by fifteen years, Dan Early has given up his apartment and gone into debt to buy a barren piece of land that his wife, Charlene, calls a "wore out patch of misery." Sheila, their seven-year-old daughter, is unnaturally slow and shy and has been held back in school—a source of great shame. As Beau Jim hustles pool with Claire, a former high school classmate whose secret life is not as safe as he believes it to be, and makes time with Yancey, a voluptuous redhead finally looking to settle down, Dan's frustration and pity for himself mount. When Charlene sparks his rage, he commits an act so shocking and horrific it brings the whole county to its knees. A spellbinding tale of decent people fighting for their lives in a world overrun with poverty and ignorance, *The Trapper's Last Shot* is vintage John Yount—forceful, finely crafted, and absolutely unforgettable.

Disciplines from literary studies to environmentalism have recently undergone a spectacular reorientation that has refocused entire fields, methodologies, and vocabularies on the world and its sister terms such as globe, planet, and earth. The *Bloomsbury Handbook of World Theory* examines what "world" means and what it accomplishes in different zones of academic study. The contributors raise questions such as: What happens when "world" is appended to a particular form of humanistic or scientific inquiry? How exactly does "worlding" bear on the theoretical operating system and the history of that field? What is the theory or theoretical model that allows "world" to function in a meaningful way in coordination with that knowledge domain? With contributions from 38 leading theorists from a vast range of fields, including queer studies, religion, and pop culture, this is the first large reference work to consider the profound effect, both within and outside the academy, of the worlding of discourse in the 21st century.

I have completed this manuscript *Just Remember This*, or as *American Pop Singers 1900-1950+*, about music before the 1950s in America. It perhaps offers knowledge and insights not previously found in other musical reference books. I have moreover been working on this book very meticulously over the past twelve-plus years. It started as a bit of fun and gradually became serious as I began to listen along with the vocalists of popular music, of the era before 1950, essentially just before the dawn of rock and roll. If you can call it that! Indeed genre and labeling of American music started here, and then from everywhere. While the old adage of always starting from somewhere could be noted in every century, the 1900s had produced the technology. Understanding the necessity, more so, finds a curiosity on the part of a general public hungry for entertainment, despite 6 day work weeks, World War I, the Great Depression, and World War II.
