The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book - the first comprehensive study of collage and its relation to

modernism - challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage - and the Futurist multimedia work that was inspired by it - undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of exchange.
The Birth of Biopolitics Penguin
By examining in detail the material life of pre-industrial peoples around

the world, Fernand Braudel significantly changed the way historians view their subject. Originally published in the early 1980s, *Civilization* traces the social and economic history of the world from the Middle Ages to the Industrial Revolution, although his primary focus is Europe. Braudel skims over politics, wars, etc., in favor of examining life at the grass roots: food, drink, clothing, housing, town markets, money, credit, technology, the growth of towns and cities, and more. Volume I describes food and drink, dress and housing, demography and family structure, energy and technology, money

and credit, and the growth of towns.

Secret identities, criminal conspiracies, and forbidden love converge in this “whimsical and at times heartbreaking look” at the Muslim communities of Rome (The New York Times). The Italian secret service believes that a group of Muslim immigrants is planning a terrorist attack. Christian Mazzari, a young Sicilian translator who speaks perfect Arabic, goes undercover in Rome’s Egyptian neighborhood, Viale Marconi, to infiltrate the group. Posing as a recently arrived Tunisian in search of a job and a place to sleep, Christian soon meets Sofia, a young Egyptian immigrant whose arranged marriage is anything but fulfilling. While Christian attempts in vain to uncover terrorist activity, Sofia is on another kind of secret mission—in defiance of a husband who forbids her to work. In alternating voices, Algerian-born Italian author Amara Lakhous examines the commonplaces and stereotypes of life in modern, multicultural Italy. *Divorce Islamic Style*

mixes the rational and the absurd as it depicts the conflicts and contradictions of today's globalized world.

The Complete Idiot's Guide to Intermediate French Picador

This volume brings together contributions from leading specialists in syntax and morphology to explore the complex relation between periphrasis and inflexion from both a synchronic and diachronic perspective. The chapters draw on data from across the Romance language family, including standard and regional varieties and dialects. The relation between periphrasis and inflexion raises questions for both syntax and morphology, and understanding the phenomena involved requires cooperation across these sub-domains. For example, the components that express many periphrases can be interrupted by

other words in a way that is common in syntax but not in morphology, and in some contexts, a periphrastic form may be semantically equivalent to a single-word inflected form, with which it arguably forms part of a paradigmatic set. Patterns of this kind are found across Romance, albeit with significant local differences. Moreover, diachrony is essential in understanding these phenomena, and the rich historical documentation available for Romance allows an in-depth exploration of the changes and variation involved, as different members of the family may instantiate different stages of development. Studying these changes also raises important questions about the relation between attested and reconstructed patterns. Although the empirical focus of the volume is on the Romance languages, the analyses and conclusions presented shed light on the development and nature of similar structures in other language families and provide valuable insights relevant to linguistic theory more broadly. 1948. The creation of the Hebrew state is proving to be not exactly a peaceful affair, starting with the Egyptian bombs that are regularly falling on Tel-Aviv. All that Israel has to fight the lethal enemy 'Spitfires' are some old 'Mezek', flown by Jewish volunteers from all over the world, but also mercenaries from rather more sinister backgrounds. Bjorn is one of those mercenaries. He's come to risk his life for several million dollars, a fact that galls his brothers-in-arms, who are fighting not for cash but for their ideals!

Mixing fiction, history, psychoanalysis, and personal fantasy, *Teresa, My Love* turns a past world into a modern marvel, following Sylvia Leclercq, a French psychoanalyst, academic, and incurable insomniac, as she falls for the sixteenth-century Saint Teresa of Avila and becomes consumed with charting her life. Traveling to Spain, Leclercq, Julia Kristeva's probing alter ego, visits the sites and embodiments of the famous mystic and awakens to her own desire for faith, connection, and rebellion. One of Kristeva's most

passionate and transporting works, *Teresa, My Love* interchanges biography, autobiography, analysis, dramatic dialogue, musical scores, and images of paintings and

sculpture to engage the reader in Leclercq's—and Kristeva's—journey. Born in 1515, Teresa of Avila outwitted the Spanish Inquisition and was a key reformer of the Carmelite Order. Her experience of ecstasy, which she intimately described in her writings, released her from her body and led to a complete realization of her consciousness, a state Kristeva explores in relation to present-day political failures, religious fundamentalism, and cultural malaise.

Incorporating notes from her own psychoanalytic practice, as well as literary and philosophical references, Kristeva builds a fascinating dual diagnosis of contemporary society and the individual psyche while sharing unprecedented insights into her own character.

Chamavam-se Inessa, Clara, Nadia, Magda, Felismina, Jiang Qing, Elena, Catherine... E eles Lenine, Mussolini, Estaline, Hitler, Salazar, Mao, Ceausescu, Bokassa. Prostitutas ou mulheres da alta burguesia intelectual, paixões fugazes ou amores intensos, eles maltratavam ou adoravam-nas, mas, sistematicamente, voltavam para os seus braços. Esposas, companheiras, musas, admiradoras, todas têm em comum o facto de terem sido vencedoras, enganadas e sacrificadas. Aos seus homens cruéis, violentos, tiranos e infiéis, faziam crer que eram belos, charmosos e todopoderosos. Sendo a

virilidade um dos alicerces do poder absoluto, os ditadores sentiam a necessidade de juntar figuras femininas ao imaginário de poder e domínio que criaram. E assim controlando-os na sombra, por vezes, até à morte, como se vivessem sob a égide de um Pigmaleão. Diane Ducret relata em detalhe os momentos, as estratégias de sedução, os casos amorosos, as intervenções políticas e os destinos diversos, ocasionalmente trágicos, das mulheres que cruzaram o caminho ou passaram pelo leito dos ditadores.

"Acharnians" is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from

some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.

This book explores how the Medici Grand Dukes pursued ways to expand their political, commercial, and cultural networks beyond Europe, cultivating complex relations with the Ottoman Empire and other Islamicate regions, and looking further east to India, China, and Japan. The chapters in this volume discuss how casting a global, cross-cultural net was part and parcel of the Medicean political vision. Diplomatic gifts, items of commercial exchange, objects looted at war, maritime connections, and political plots were an inherent part of how the Medici projected their state on the global arena. The eleven chapters of this volume demonstrate that the mobility of objects, people, and knowledge that generated the global interactions analyzed here was not unidirectional—rather, it went both to and from Tuscany. In addition, by exploring evidence of objects produced in Tuscany for Asian

markets, this book reveals hitherto neglected histories of how Western cultures projected themselves eastwards. *Marie Claire's Workshop* Europa Editions

In *Colonial Transactions* Florence Bernault moves beyond the racial divide that dominates colonial studies of Africa. Instead, she illuminates the strange and frightening imaginaries that colonizers and colonized shared on the ground. Bernault looks at Gabon from the late nineteenth century to the present, historicizing the most vivid imaginations and modes of power in Africa today: French obsessions with cannibals, the emergence of vampires and witches in the Gabonese imaginary, and the use of human organs for fetishes. Struggling over objects, bodies, agency, and values, colonizers and colonized

entered relations that are better conceptualized as "transactions." Together they also shared an awareness of how the colonial situation broke down moral orders and forced people to use the evil side of power. This foreshadowed the ways in which people exercise agency in contemporary Africa, as well as the proliferation of magical fears and witchcraft anxieties in present-day Gabon. Overturning theories of colonial and postcolonial nativism, this book is essential reading for historians and anthropologists of witchcraft, power, value, and the body.
