This stunning volume illuminates the current moment of artists' engagement with books, revealing them as an essential medium in contemporary art. Ever innovative and predictably diverse in their physical formats, artists' books occupy a

creative space between the familiar four-cornered object and challenging works of art that effectively question every preconception of what a book can be. Many artists specialize in producing self-contained art projects in the form of books, like Ken Campbell and Susan King, or they establish small presses, like Simon Cutts and Erica Van Horn's Coracle Press or Harry and Sandra Reese's Turkey Press. Countless others who are primarily known as sculptors, painters, or performance artists carry on a parallel practice in artists' books, including Anselm Kiefer, Annette Messager, Ed Ruscha, and Richard Tuttle. *Artists and Their Books / Books and Their Artists* includes over one hundred important examples selected from the Getty Research Institute's Special Collections of more than six thousand editions and unique artists' books. This volume also presents precursors to the artist's book, such as Joris Hoefnagel's sixteenth-century calligraphy masterpiece; single-sheet episodes from Albrecht Dürer's *Life of Mary*, designed to be either broadsides or a book; early illustrated scientific

works; and avant-garde publications. Twentieth-century works reveal the impact of artists' books on Pop Art, Fluxus, Conceptualism, feminist art, and postmodernism. The selection of books by an international range of artists who have chosen to work with texts and images on paper provokes new inquiry into the nature of art and books in contemporary culture. *Livres de France* New York : R.R. Bowker Company Following-up the highly successful *The Decorated Page*, this unique guide provides a wealth of ideas for beginners as well as those looking for inspiration to explore visual journaling further. But knowing and doing are two different things. Cynthia Hart, author of Cynthia Hart's Scrapbook Workshop, shows exactly how to collect, record, share, and preserve a family member's or a friend's oral history in this practical and inspirational guide. The Oral History Workshop breaks down what too often feels like an overwhelming project into a series of easily manageable steps: how to prepare for an interview; how to become a better listener; why there's always more beneath the surface and the questions to ask to get there; the pros and cons of video recording, including how your subjects should dress so the focus is on their words; four steps to keeping the interview on track; how to be attentive to your subject's energy levels; and the art of archiving or scrapbooking the interview into a finished keepsake. At the heart of the book are hundreds of questions designed to cover every aspect of your subject's history: Do you remember when and how you learned to read? Who in your life showed you the most kindness? What insights have you gained about your parents over the years? Would you

describe yourself as an optimist or a pessimist? In what ways were you introduced to music? What is the first gift you remember giving? If you could hold on to one memory forever, what would it be? When the answers are pieced together, a mosaic appears—a living history.

American art museums flourished in the late twentieth century, and the impresario leading much of this growth was J. Carter Brown, director of the National Gallery of Art in Washington, DC, from 1969 to 1992. Along with S. Dillon Ripley, who served as Smithsonian secretary for much of this time, Brown reinvented the museum experience in ways that had important consequences for the cultural life of Washington and its visitors as well as for American museums in general. In *Capital Culture*, distinguished historian Neil Harris provides a wide-ranging look at Brown's achievement and the growth of museum culture during this crucial period. Harris combines his in-depth knowledge of American history and

culture with extensive archival research, and he has interviewed dozens of key players to reveal how Brown's showmanship transformed the National Gallery. At the time of the Cold War, Washington itself was growing into a global destination, with Brown as its devoted booster. Harris describes Brown's major role in the birth of blockbuster exhibitions, such as the King Tut show of the late 1970s and the National Gallery's immensely successful *Treasure Houses of Britain*, which helped inspire similarly popular exhibitions around the country. He recounts Brown's role in creating the award-winning East Building by architect I. M. Pei and the subsequent renovation of the West building. Harris also explores the politics of exhibition planning, describing Brown's courtship of corporate leaders, politicians, and international dignitaries. In this monumental book Harris brings to life this dynamic era and exposes the creation of Brown's impressive but costly legacy, one that changed the face of American museums forever. *Emilio Sanchez in New York and Latin America* ArCiBel Editores
