LILLIANNA NEWTON

Justice as Prevention Henry Holt and Company

When a young Algerian named Meursault kills a man, his subsequent imprisonment and trial are puzzling and absurd. The apparently amoral Meursault—who puts little stock in ideas like love and God—seems to be on trial less for his murderous actions, and more for what the authorities believe is his deficient character.

Ireland in 1804 Simon and Schuster

When a girl is found dead with a signed copy of Rudian Stefa's latest book in her possession, the author finds himself summoned for an interview by the Party Committee. Unable to guess what transgression he has committed Rudian goes fearfully to meet his interrogators. He has never met the girl in question but he remembers signing the book. As the influence of a paranoid regime steals up on him, Rudian finds himself swept along on a surreal quest to discover what really happened to the mysterious girl to whom he wrote the dedication – to Linda B.

Prosecuting the President HarperCollins

Franz Kafka's vision of the Law in "The Trial" is so strange, arbitrary, and unjust that it would seem to be the antithesis of our own. Yet, that is what makes Robert Burns' latest book so compelling. Robert Burns brilliantly shows that Kafka's masterpiece provides an uncanny lens through which to see and understand the American criminal justice system today. It provokes a shock of recognition that makes us see it in a very different light. Assuming no prior knowledge of Kafka's book, Burns tells the story, at once funny and grim, of Josef K., caught in the Law's grip and then crushed by it. Laying out the characteristics of Kafka's Law, Burns argues that the American criminal justice system has taken on too many of those same qualities. In the overwhelming majority of cases, our system is composed of police interrogation followed by plea bargaining, where the courts only function is but to set a sentence on an individual already determined to be guilty. Like Kafka's nightmarish vision, too much of our criminal law and procedure has become unknowable, ubiquitous, and bureaucratic. It too has come to rely on deception in dealing with suspects and jurors, to limit the role of defense counsel, and to increasingly dispense justice without the protections of formal procedures. Burns compellingly explains how and why we have become an increasingly punitive society. Finally, he takes up the question of whether we have the resources to change these Kafkaesque aspects of our criminal justice system and shows how the jury trial has that potential,

but only if it is returned to a more central place in our system."

Misdemeanorland Encounter Books

The author draws on her teaching background to share new writing guidelines and outline the steps for a personal or group writing retreat, providing coverage of such topics as working in silence and writing without criticism.

Caught Good Press

In this unprecedented view from the trenches, prosecutor turned champion for the innocent Mark Godsey takes us inside the frailties of the human mind as they unfold in real-world wrongful convictions. Drawing upon stories from his own career, Godsey shares how innate psychological flaws in judges, police, lawyers, and juries coupled with a "tough on crime" environment can cause investigations to go awry, leading to the convictions of innocent people. In *Blind Injustice*, Godsey explores distinct psychological human weaknesses inherent in the criminal justice system—confirmation bias, memory malleability, cognitive dissonance, bureaucratic denial, dehumanization, and others—and illustrates each with stories from his time as a hard-nosed prosecutor and then as an attorney for the Ohio Innocence Project. He also lays bare the criminal justice system's internal political pressures. How does the fact that judges, sheriffs, and prosecutors are elected officials influence how they view cases? How can defense attorneys support clients when many are overworked and underpaid? And how do juries overcome bias leading them to believe that police and expert witnesses know more than they do about what evidence means? This book sheds a harsh light on the unintentional yet routine injustices committed by those charged with upholding justice. Yet in the end, Godsey recommends structural, procedural, and attitudinal changes aimed at restoring justice to the criminal justice system.

The Criminal Justice System Princeton University Press

Now the subject of the Netflix documentary *The Devil Next Door* The incredible story of the most convoluted legal odyssey involving Nazi war crimes In 2009, Harper's Magazine sent war-crimes expert Lawrence Douglas to Munich to cover the last chapter of the lengthiest case ever to arise from the Holocaust: the trial of eighty-nine-year-old John Demjanjuk. Demjanjuk's legal odyssey began in 1975, when American investigators received evidence alleging that the Cleveland autoworker and naturalized US citizen had collaborated in Nazi genocide. In the years that followed, Demjanjuk was stripped of his American citizenship and sentenced to death by a Jerusalem court as "Ivan the Terrible" of Treblinka—only to be cleared in one of the most notorious cases of mistaken identity in legal history. Finally, in 2011, after eighteen months of trial, a court in Munich convicted

the native Ukrainian of assisting Hitler's SS in the murder of 28,060 Jews at Sobibor, a death camp in eastern Poland. An award-winning novelist as well as legal scholar, Douglas offers a compulsively readable history of Demjanjuk's bizarre case. *The Right Wrong Man* is both a gripping eyewitness account of the last major Holocaust trial to galvanize world attention and a vital meditation on the law's effort to bring legal closure to the most horrific chapter in modern history.

Constitution of the Republic of Kosovo University of Chicago Press

A major reappraisal of crime and punishment in America The huge prison buildup of the past four decades has few defenders, yet reforms to reduce the numbers of those incarcerated have been remarkably modest. Meanwhile, an ever-widening carceral state has sprouted in the shadows, extending its reach far beyond the prison gate. It sunders families and communities and reworks conceptions of democracy, rights, and citizenship—posing a formidable political and social challenge. In *Caught*, Marie Gottschalk examines why the carceral state remains so tenacious in the United States. She analyzes the shortcomings of the two dominant penal reform strategies—one focused on addressing racial disparities, the other on seeking bipartisan, race-neutral solutions centered on reentry, justice reinvestment, and reducing recidivism. With a new preface evaluating the effectiveness of recent proposals to reform mass incarceration, *Caught* offers a bracing appraisal of the politics of penal reform.

The True Secret of Writing Lexington Books

"Arrest-Proof Yourself will teach you everything you need to know about dirty cops, racial profiling, probable cause, search and seizure laws, your right to remain silent, and much more. This how-not-to guide will keep you safe and sound all year long." --Zink magazine What do you say if a cop pulls you over and asks to search your car? What if he gets up in your face and uses a racial slur? What if there's a roach in the ashtray? And what if your hot-headed teenage son is at the wheel? If you read this book, you'll know exactly what to do and say. More people than ever are getting arrested—usually for petty offenses against laws that rarely used to be enforced. And because arrest information is so easily available via the Internet, just one little arrest can disqualify you from jobs, financing, and education. This eye-opening book tells you everything you need to know about how cops operate, the little things that can get you in trouble, and how to stay free from the hungry jaws of the criminal justice system. It is now updated with new and important information on the right of the police to search your car; on guns, knives, and self-defense; and on changes in surveillance methods. Dale C. Carson was an FBI field agent, a SWAT sniper, an instructor at the FBI academy, and a Miami police officer who set Florida records for felony arrests. He is currently a criminal defense attorney. Wes Denham is the author of *Arrested*.

Beyond These Walls St. Martin's Press

Distinguished author Phillip Lopate, editor of the celebrated anthology *The Art of the Personal Essay*, is universally acclaimed as "one of our best personal essayists" (*Dallas Morning News*). Here, combining more than forty years of lessons from his storied career as a writer and professor, he brings us this highly anticipated nuts-and-bolts guide to writing literary nonfiction. A phenomenal master class shaped by Lopate's informative, accessible tone and immense gift for storytelling, *To Show and To Tell* reads like a long walk with a favorite professor—refreshing, insightful, and encouraging in often unexpected ways.

The Crisis of the European Union Random House

With contributions from over 90 authors and more than 60 individual contributions, this collection summarises the findings of a large-scale EU funding project on Strategic Transitions for Youth Labour in Europe (STYLE).

A criminal defense attorney, sociologist, and legal scholar takes readers inside New York City's lower criminal courts.

Unequal under Law Phoemixx Classics Ebooks

"You should definitely read this book... What really struck me in reading *Beyond These Walls* was that Tony Platt had very seriously and carefully considered the contributions of social movements—feminist, queer, disability, and labor." —Angela Davis *Beyond These Walls* is an ambitious and far-ranging exploration that tracks the legacy of crime and imprisonment in the United States, from the historical roots of the American criminal justice system to our modern state of over-incarceration, and offers a bold vision for a new future. Author Tony Platt, a recognized authority in the field of criminal justice, challenges the way we think about how and why millions of people are tracked, arrested, incarcerated, catalogued, and regulated in the United States. *Beyond These Walls* traces the disturbing history of punishment and social control, revealing how the criminal justice system attempts to enforce and justify inequalities associated with class, race, gender, and sexuality. Prisons and police departments are central to this process, but other institutions – from immigration and welfare to educational and public health agencies – are equally complicit. Platt argues that international and national politics shape perceptions of danger and determine the policies of local criminal justice agencies, while private policing and global corporations are deeply and undemocratically involved in the business of homeland security. Finally, *Beyond These Walls* demonstrates why efforts to reform criminal justice agencies have often expanded rather than contracted the net of social control. Drawing upon a long tradition of popular resistance, Platt concludes with a strategic vision of what it will take to achieve justice for all in this era of authoritarian disorder.

Kafka's Law University of California Press

This is the story of an Italian general, accompanied by his chaplain, charged with the mission of scouring Albania in search of the bones of their fallen countrymen, killed twenty years earlier during World War II.

Broken April Chicago Review Press

A concise, accessible, and engaging guide to the law of treason, written by the nation's foremost expert on the subject The only crime defined in the United States Constitution, treason is routinely described by judges as more heinous than murder. Today the term is regularly thrown around by lawmakers and pundits on both sides of the aisle. But as these heated accusations flood the news cycle, it's not always clear what the crime of treason truly is, or when it should be prosecuted. Drawing on over two decades of research, constitutional law and legal history scholar Carlton Larson

takes us on a grand tour of the Treason Clause of the United States Constitution. Despite the Clause's apparent simplicity, Larson demonstrates that it is a form of constitutional quicksand in which seemingly obvious intuitions are often far off the mark. From the floors of the medieval British Parliament that codified the Statute of Treasons upon which the American law was based to the treason of Benedict Arnold, our nation's founding traitor, to more recent events, including WWII's "Tokyo Rose" and the allegations against Edward Snowden and Donald Trump, Larson provides a riveting account of treason law in action. On Treason is an indispensable guide for anyone who wants to understand this fundamental aspect of our legal system. With this short, accessible look at the law's history and meaning, Larson clarifies who is actually guilty—and readers won't need a law degree to understand why.

Pulled Over Rowman & Littlefield

The European integration project currently faces profound political, economic, legal, and societal challenges. These challenges seem increasingly to overburden the European Union as well as the cohesion among the Member States, and therefore pose a serious threat to the integration project. The EU faces a major task in coping with this situation and it is one that calls for new approaches and ideas. This book addresses the major challenges confronting the EU, analyses the consequences for the integration project, and develops fresh perspectives on the EU's future prospects for coping with the most debated, current and upcoming issues, such as the rise of Euroscepticism or the contested idea of an 'ever-closer union'. Renowned experts in European Studies from the fields of political science, law, economics and sociology provide an interdisciplinary perspective on the different dimensions of the EU's crisis-laden situation and question whether the EU's existing problem-solving mechanisms and methods are sufficient to address the imminent tasks. This text will be of key interest to scholars and students of EU Politics, European Politics, European Governance, and more broadly European law, history and the wider social sciences.

Case of a Lifetime Larousse Kingfisher Chambers

"Constitution of the Republic of Kosovo" by Constitutional Commission of the Republic of Kosovo. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Sourcebook on Criminal Law University of Chicago Press

Offers clear, comprehensive and authoritative treatment of all aspects of the criminal justice system.

The Criminal Justice System, completely updated, covers the most important aspects of criminal justice in the United States. It details the commission and frequency of crimes through the investigation, apprehension, prosecution, and punishment of wrongdoers.

When Brute Force Fails Simon and Schuster

A senior federal judge's incisive, unsettling exploration of some of the paradoxes that define the judiciary today, *Why the Innocent Plead Guilty and the Guilty Go Free* features essays examining why innocent people plead guilty, why high-level executives aren't prosecuted, why you won't get your day in court, and why the judiciary is curtailing its own constitutionally mandated power. How can we be proud of a system of justice that often pressures the innocent to plead guilty? How can we claim that justice is equal when we imprison thousands of poor Black men for relatively modest crimes but rarely prosecute rich white executives who commit crimes having far greater impact? How can we applaud the Supreme Court's ever-more-limited view of its duty to combat excesses by the president? The federal judge Jed S. Rakoff, a leading authority on white-collar crime, explores these and other puzzles in *Why the Innocent Plead Guilty and the Guilty Go Free*, a startling account of our broken legal system. Grounded in Rakoff's twenty-four years as a federal trial judge in New York in addition to the many years he worked as a federal prosecutor and criminal defense lawyer, Rakoff's assessment of our justice system illuminates some of our most urgent legal, social, and political issues: plea deals and class-action lawsuits, corporate impunity and the death penalty, the perils of eyewitness testimony and forensic science, the war on terror and the expanding reach of the executive branch. A fundamental problem, he reveals, is that the judiciary is constraining its own constitutional powers. Like few others, Rakoff understands the values that animate the best aspects of our legal system—and has a close-up view of our failure to live up to these ideals. But he sees within this gap great opportunities for practical reform, and a public mandate to make our justice system truly just.

Kanuni i Lekë Dukagjinit Salem Press

A recent study estimates that thousands of innocent people are wrongfully imprisoned each year in the United States. Some are exonerated through DNA evidence, but many more languish in prison because their convictions were based on faulty eyewitness accounts and no DNA is available. Prominent criminal lawyer and law professor Abbe Smith weaves together real life cases to show what it is like to champion the rights of the accused. Smith describes the moral and ethical dilemmas of representing the guilty and the weighty burden of fighting for the innocent, including the victorious story of how she helped free a woman wrongly imprisoned for nearly three decades. For fans of Law and Order and investigative news programs like 20/20, *Case of a Lifetime* is a chilling look at what really determines a person's innocence.
