Claudia Piccinnos Poesie ist eine Brücke zwischen dem inneren Bewusstsein und der Randständigkeit unserer Zeit. Sie glaubt,

dass Poesie wirklich eine Art Zeugnis ist, aber auch ein Mittel, um dem kollektiven Gedächtnis zu helfen, zu überleben. Sie spricht über Shoah, Migration, Partisanenkämpfe, vom Autismus betroffene Kinder, onkologische Patienten ... Sie hilft uns, die Fremden zu verstehen, die in uns leben. Und zeigt uns auch die Suche nach einem Gleichgewicht.
Über Land und Meer
 Simon and Schuster
 In this “powerful personal story woven with a rich

analysis of what we all seek” (Sergey Brin, cofounder of Google), Mo Gawdat, Chief Business Officer at Google’s [X], applies his superior logic and problem solving skills to understand how the brain processes joy and sadness—and then he solves for happy. In 2001 Mo Gawdat realized that despite his incredible success, he was desperately unhappy. A lifelong learner, he attacked the problem as an engineer would: examining all the provable facts and

scrupulously applying logic. Eventually, his countless hours of research and science proved successful, and he discovered the equation for permanent happiness. Thirteen years later, Mo’s algorithm would be put to the ultimate test. After the sudden death of his son, Ali, Mo and his family turned to his equation—and it saved them from despair. In dealing with the horrible loss, Mo found his mission: he would pull off the type of “moonshot” goal that he and his

colleagues were always aiming for—he would share his equation with the world and help as many people as possible become happier. In Solve for Happy Mo questions some of the most fundamental aspects of our existence, shares the underlying reasons for suffering, and plots out a step-by-step process for achieving lifelong happiness and enduring contentment. He shows us how to view life through a clear lens, teaching us how to dispel the illusions that cloud our thinking;

overcome the brain's blind spots; and embrace five ultimate truths. No matter what obstacles we face, what burdens we bear, what trials we've experienced, we can all be content with our present situation and optimistic about the future.

 The most comprehensive guide to the botany, history, distribution, and cultivation of all known psychoactive plants • Examines 414 psychoactive plants and related substances • Explores how using psychoactive plants in a culturally sanctioned

context can produce important insights into the nature of reality • Contains 797 color photographs and 645 black-and-white illustrations In the traditions of every culture, plants have been highly valued for their nourishing, healing, and transformative properties. The most powerful plants--those known to transport the human mind into other dimensions of consciousness--have traditionally been regarded as sacred. In The Encyclopedia of

Psychoactive Plants
Christian Rätsch details the botany, history, distribution, cultivation, and preparation and dosage of more than 400 psychoactive plants. He discusses their ritual and medicinal usage, cultural artifacts made from these plants, and works of art that either represent or have been inspired by them. The author begins with 168 of the most well-known psychoactives--such as cannabis, datura, and papaver--then presents 133 lesser known substances as well

as additional plants known as “legal highs,” plants known only from mythological contexts and literature, and plant products that include substances such as ayahuasca, incense, and soma. The text is lavishly illustrated with 797 color photographs--many of which are from the author’s extensive fieldwork around the world--showing the people, ceremonies, and art related to the ritual use of the world’s sacred psychoactives.

THE NO. 1 LADIES’
DETECTIVE AGENCY -
Book 5 Fans around the world adore the best-selling No. 1 Ladies’ Detective Agency series and its proprietor, Precious Ramotswe, Botswana’s premier lady detective. In this charming series, Mma Ramotswe—with help from her loyal associate, Grace Makutsi—navigates her cases and her personal life with wisdom, good humor, and the occasional cup of tea. Still engaged to the estimable

Mr J.L.B. Matekoni, Mma Ramotswe understands that she should not put too much pressure on him, as he has other concerns, especially a hair-raising request from the ever persuasive Mma Potokwane, matron of the orphan farm. Besides Mma Ramotswe herself has weighty matters on her mind. She has been approached by a wealthy lady to check up on several suitors. Are these men interested in the lady or just her money? This may be a difficult case, but it's just the kind of

problem Mma Ramotswe likes and she is, as we know, a very intuitive lady. *The Full Cupboard of Life* John Wiley & Sons Chemical Warfare Agents, Second Edition has been totally revised since the successful first edition and expanded to about three times the length, with many new chapters and much more in-depth consideration of all the topics. The chapters have been written by distinguished international experts in various aspects of

chemical warfare agents and edited by an experienced team to produce a clear review of the field. The book now contains a wealth of material on the mechanisms of action of the major chemical warfare agents, including the nerve agent cyclosarin, formally considered to be of secondary importance, as well as ricin and abrin. Chemical Warfare Agents, Second Edition discusses the physico-chemical properties of chemical warfare agents, their

dispersion and fate in the environment, their toxicology and management of their effects on humans, decontamination and protective equipment. New chapters cover the experience gained after the use of sarin to attack travellers on the Tokyo subway and how to deal with the outcome of the deployment of riot control agents such as CS gas. This book provides a comprehensive review of chemical warfare agents, assessing all available evidence regarding the

medical, technical and legal aspects of their use. It is an invaluable reference work for physicians, public health planners, regulators and any other professionals involved in this field. Review of the First Edition: "What more appropriate time for a title of this scope than in the post 9/11 era? ...a timely, scholarly, and well-written volume which offers much information of immense current and...future benefit." —VETERINARY AND HUMAN TOXICOLOGY Modern Hungers

The authors of this book focus on transcultural entanglements in Manchuria during the first half of the twentieth century. Manchuria, as Western historiography commonly designates the three northeastern provinces of China, was a politically, culturally and economically contested region. In the late nineteenth century, the region became the centre of competing Russian, Chinese and Japanese

interests, thereby also attracting global attention. The coexistence of people with different nationalities, ethnicities and cultures in Manchuria was rarely if ever harmoniously balanced or static. On the contrary, interactions were both dynamic and complex. Semi-colonial experiences affected the people's living conditions, status and power relations. The transcultural negotiations between all population groups across borders of all kinds are the subject of this book. The chapters of

this volume shed light on various entangled histories in areas such as administration, the economy, ideas, ideologies, culture, media and daily life.

der deutschsprachigen Enzyklopädien vor 1780 war vorwiegend eine Sammelbezeichnung. Sie diente dazu, unterschiedliche Gruppen von sogenannten «freiwilligen Vaganten», die man als besonders kriminell und die Sicherheit gefährdend etikettierte, zu erfassen. Vor dem Hintergrund des humanwissenschaftlichen Paradigmenwechsels um 1800 wurde in der «Sattelzeit» aus der primär sozialen eine ethnische Kategorie. Im Ergebnis wurden

'Zigeuner', in Rekurs auf die vergleichende Sprachwissenschaft und die Berichte englischer Missionsgesellschaften, als der 'innere Orient' des 'zivilisierten Europas' konstituiert. Diese diskursanalytische Arbeit leistet eine Re- und Dekonstruktion enzyklopädischer Wissensproduktion zu 'Zigeunern' zwischen 1700 und 1850. Sie sieht sich damit als Beitrag zu den gegenwärtigen Debatten in den Geschichts- und Kulturwissenschaften um
