More importantly, if you work for one of the millions of small-to-medium-sized businesses, how do you find the time to build the expertise necessary to reach these goals? Even the most powerful tool will not allow you to succeed unless you can get the majority of your staff to use it efficiently and effectively. You need a guide that demonstrates a platform that small-to-medium-sized businesses can use to reach these goals. There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when •

coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . Teachers and governments all agree that if you wish to raise educational standards then it’s imperative to improve school attendance, and yet an average of around ten per cent of secondary pupils are missing school on a daily basis. Despite governments around the globe trying to address this situation, any improvements have been negligible and improvements in school attendance have been stubbornly hard to achieve. As an internationally recognised expert on this topic, Professor Ken Reid offers workable, practical solutions to help schools improve attendance and to reduce non-attendance and truancy at government level, school and local authority level, individual pupil level and at the family level. Underpinned by the very latest research, but expanded upon with an accessible, practitioner focus, the issues covered by this topical text

include: The causes of non-attendance and truancy Successful interventions and the evidence from research Reflections on the attempts to find national solutions Implementing home-school solutions An agenda for the future Supporting throughout with case-studies and workable solutions to the most demanding of situations, this book will be essential reading for head teachers, deputy head teachers, teachers and any educational professional eager to raise standards for all.

California and federal laws create numerous rules that provide employees the right to leaves of absence and time off from work. More than 20 statutes now govern the rules in this area and Governor Brown has signed more time off bills into law. The evolution of these laws dramatically erodes the freedom employers formerly had to grant or deny time off requests. In many cases, several laws provide employees overlapping protections through a complicated system of rules. The publication provides charts showing the universe of laws providing time off rights and coverage standards. It also includes sample forms and checklists for reviewing leave requests. -- Publisher's website.

"California employers are covered by state and federal laws that regulate family and medical leaves. These laws guarantee employees the right to take leaves to care for newborn children, adopted children, and seriously-ill family members. Employees can also take leaves needed due to their own serious

health conditions, due to qualifying exigencies and to care for service members. The laws usually require employers to maintain health insurance benefits in effect, continue life and disability insurance, allow the use of vacation and sick leave benefits, and comply with numerous other rules. They regulate reinstatement, employee handbooks, employee notice, record-keeping, and posting requirements. They also establish serious sanctions and penalties. In this publication, Attorney Richard J. Simmons of the law firm of Sheppard, Mullin, Richter & Hampton LLP, guides employers through the complicated web of rules created by the laws. It examines the extension of the CFRA to employers with five or more employees, key features of the state and federal laws, including the new regulations, provides sample medical certification forms, posters, and a fact sheet, as well as a drafting checklist for policies. It contains a sample leave of absence request form that identifies eligible employees and sample leave of absence policies."--
