He discusses the heritage of its people and examines in detail the developments that led to Albanian independence: national resistance to the decisions of the Congress of Berlin, later opposition to Turkey, and the struggle between the Albanians and the Young Turks. Consideration is given to such internal problems as geographic configuration, religious and political

division, and to such external problems as Italo-Austrian rivalry, political interference from neighboring states, and the involvement of great powers. Originally published in 1967. When it was first published in the author's native country, THE PALACE OF DREAMS was immediately banned. The novel revolves around a secret ministry whose task is not just to spy on its citizens, but to collect and interpret their dreams. An entire nation's unconscious is thus tapped and meticulously laid bare in the form of

 The flow of emigrants from Albania to Greece, being one-sided, indicates a relation of inequality between the two countries. Indeed, the violence with which the collapse of the regime is effected and the subsequent opening of the border and the, as a rule, undocumented way of entering Greece, makes this relation even more asymmetrical

and places the moving ones in a much more powerless position, as they live and work illegally: their "outlaw" status deprives them of all rights. Legalisation improves their position but does not cancel the structural inequality that characterises the phenomenon of immigration any way, as well as the quality of the immigrant. In any case, the effort of the immigrants to present aspects of

identity that would facilitate their position and residence (proofs of Greek roots or Christian faith, changes of names, etc.) demonstrates, precisely, how they experience this unequal relationship, which is further aggravated by factors pertaining to their otherness. A Novel LIT Verlag Münster Continuing the work undertaken in Vol. 1 of the History of the Literary

Cultures of East-Central Europe, Vol. 2 considers various topographic sites—multicultural cities, border areas, cross-cultural corridors, multiethnic regions—that cut across national boundaries, rendering them permeable to the flow of hybrid cultural messages. By focusing on the literary cultures of specific geographical locations, this volume intends to put into practice a new type of

comparative study. Traditional comparative literary studies establish transnational comparisons and contrasts, but thereby reconfirm, however inadvertently, the very national borders they play down. This volume inverts the expansive momentum of comparative studies towards ever-broader regional, European, and world literary histories. While the theater of this

volume is still the literary culture of East-Central Europe, the contributors focus on pinpointed local traditions and geographic nodal points. Their histories of Riga, Plovdiv, Timișoara or Budapest, of Transylvania or the Danube corridor – to take a few examples – reveal how each of these sites was during the last two-hundred years a home for a variety of foreign or ethnic literary traditions next

to the one now dominant within the national borders. By foregrounding such non-national or hybrid traditions, this volume pleads for a diversification and pluralization of local and national histories. A genuine comparatist revival of literary history should involve the recognition that “treading on native grounds” means actually treading on grounds

cultivated by diverse people. **botim jubilar** Pan Macmillan Sait Faik may well be named “the Turkish Chekhov.” In Turkey, critics and readers regard him as their finest short story writer. Since his death in 1954 at the age of forty-eight, his stature has grown on the strength of his narrative art, which is both realistic and whimsical with a poetic touch. Süha Oguzertem, a premier authority on Turkish fiction,

writes in his introduction to *Sleeping in the Forest* that "As an anti-bourgeois writer and fierce democrat, Sait Faik has always sided with the underdog" and that no characters remain " 'common' or 'ordinary' once they enter Sait Faik's stories; his piercing gaze and thoughtful vision transform them lovingly into unique beings." Sait Faik's fiction ranges from the realistic to

the surrealistic, from the romantic to the modern, from the cynical to the compassionate. With virtuosic skill, he captures the spirit and the spleen of the city of Istanbul and its environs. In evoking the mystery of that great metropolis through such ordinary characters as Armenian fishermen, Greek Orthodox priests, and the disillusioned and disfranchised,

he creates for us a marvelous microcosm of tragicomedy. Few writers, in Turkey or elsewhere, command Sait Faik's mastery of the ironic. *Sleeping in the Forest* features twenty-two stories, an excerpt from a novella, and fifteen poems rendered into English by some of the best-known translators of Turkish literature. Sait Faik's chiaroscuro world is brought into focus by an introductory

essay on utopian poetics and lyrical stylistics of this great Turkish writer. The book is a stimulating exploration into Turkish mood and milieu. Central European University Press Masterful in its simplicity, Chronicle in Stone is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful

women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of

human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of

the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

Chronicle in

Stone John Benjamins Publishing From Ismail Kadare, winner of the inaugural Man Booker International Prize - a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie - the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with

the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that

follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful

carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, The Siege is

an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.
