"Oneirism" wasn't just a new, homegrown form of surrealism, but implicitly a rebuke to the officially mandated socialist and nationalist realism imposed by Ceausescu on all Romanian authors: here was writing devoted to the logic of dreams, not the grim reality policed by the communist regime. As such, Dumitru Tsepeneag and the Canon of Alternative Literature is not just the study of one man's work, but of an entire nation's literary history over the latter half of the twentieth century. The first monograph to appear in English on perhaps the most idiosyncratic and influential Romanian writer working today, Dumitru Tsepeneag and the Canon of Alternative Literature places Tsepeneag among the ranks of the great literary innovators-and pranksters-of the twentieth century.

Getting MAD: Nuclear Mutual Assured Destruction, Its Origins and Practice is the first critical history of the intellectual roots and actual application of the strategic doctrine of nuclear mutual assured destruction or MAD. Written by the world's leading French, British, and American military policy planners and analysts, this volume examines how MAD and its emphasis on the military targeting of population centers influenced the operational plans of the major nuclear powers and states, such as Pakistan, India, and Israel. Given America's efforts to move away from MAD and the continued reliance on MAD thinking by smaller nations to help justify further nuclear proliferation, Getting MAD is a timely must read for anyone eager to understand our nuclear past and future.

The Future of Extended Deterrence Routledge

As we approach the centenary of the outbreak of the First World War, this timely reissue, first published in 1991, evaluates the function of poetry in wartime Europe, arguing that war poetry must be understood as a social as well as a literary phenomenon. As well as locating the work of well-known French, English and German war poets in a European context, Elizabeth Marsland discusses lesser-known poetry of the war years, including poems by women and the neglected tradition of civilian protest through poetry. Identifying shared characteristics as well as the unique features of each nation's poetry, The Nation's Cause affords new insight into the relationship between nationalism and the social attitudes that determined the conduct of war.

Romain Rolland the Man and his Work Bern: Herbert Lang; Frankfurt/M.: Peter Lang

"The text of the book is supported by more than fifty illustrations. Some are Jarry's own and some are those of contemporaries, such as Aubrey Beardsley, Emile Bernard, Pierre Bonnard, Max Elskamp, Charles Filiger, Paul Gauguin, Gerhard Munthe, Henri Rousseau, and Felix Vallotton. Others relate to an iconic intertext, hitherto unexplored. Alfred Jarry: An Imagination in Revolt sheds light on an underresearched area of fin-de-siecle French culture and art history, establishing Jarry's role as a major figure in the origins of modernism."--Jacket.

Pastoralism in Tropical Africa Routledge

Originally published in 1924, this title is divided into four parts, each looking at contemporary issues. Beginning with 'The Liberators of the Mind', the author discusses important thinkers of the time, such as Tolstoy and Nietzsche. The second part looks at 'The War and the Peace', which refers to the recently fought First World War. He then moves on to 'Education and Society', where discussions

include Bahaim and Father Christmas. The final part looks at 'Art and Criticism', discussing the trends of French post-war poetry - realism, symbolism and dynamism - followed by a look at dynamic drawing. This volume is available again after many years out of print.

Are NATO's mutual security commitments strong enough today to deter all adversaries? Is the nuclear umbrella as credible as it was during the Cold War? Backed by the full range of US and allied military capabilities, NATO's mutual defense treaty has been enormously successful, but today's commitments are strained by military budget cuts and antinuclear sentiment. The United States has also shifted its focus away from European security during the wars in Afghanistan and Iraq and more recently with the Asia rebalance. Will a resurgent Russia change this? The Future of Extended Deterrence brings together experts and scholars from the policy and academic worlds to provide a theoretically rich and detailed analysis of post-Cold War nuclear weapons policy, nuclear deterrence, alliance commitments, nonproliferation, and missile defense in NATO but with implications far beyond. The contributors analyze not only American policy and ideas but also the ways NATO members interpret their own continued political and strategic role in the alliance. In-depth and multifaceted, The Future of Extended Deterrence is an essential resource for policy practitioners and scholars of nuclear deterrence, arms control, missile defense, and the NATO alliance.

A New Universal Dictionary of the Marine DIANE Publishing

Originally published in 1975, the papers collected in this volume review African pastoralism in both West and East Africa, in relation to economy, ecology, social and community organisation, kinship, inter-group relations, modern administrative attitudes and policies and problems of development. The challenges confronting peoples and cultures in Africa which practise pastoralism are discussed.
