TRISTEN DRAVEN		Talk Dirty German Penguin <p>Polynesian Pop Icon: How Tiki became an American dream Urban islands and bamboo hideaways set the stage for a pop culture phenomenon like no other. In mid-century America, the imaginative appeal of Tiki penetrated fashion, music, eating, drinking, and architecture. Published in connection with an exhibition at the prestigious Musée du quai Branly in Paris, Tiki Pop traces the development of Tiki as romantic vision and cultural appropriation. Follow Tiki from James Cook's first Pacific Island expeditions, through Gauguin's exotic paintings, Hollywood jungle fantasies, and elaborate temples erected to celebrate Tiki as the god of recreation. With hundreds of previously unpublished images, Tiki the pop icon unfolds from its earliest, enthusiastic beginnings to its spectacular downfall in the dawning awareness of the Western world's colonial misdeeds. This book is the culmination of the extensive research of Sven Kirsten, urban archaeologist, Tiki sage, and author of earlier TASCHEN books, The Book of Tiki and Tiki Modern, which first recovered the figure of Tiki from obscurity. In his widely lauded graphic style, Kirsten places venerable ancient godheads next to their Polynesian pop counterparts, movie posters next to matchboxes, comic strips next to Robinson Crusoe illustrations. The result is at once a visual feast, a piece of cultural history, and a tribute to a very particular vision of paradise. Text in English, French, and German</p> Hideaway Hardy Marks Publications <p>In Schatz' first underwater book, WaterDance, he brought his remarkable eye as well as skill and determination to bear on the problem of energizing the human body in an essentially languid environment. In Pool Lith, he plumbs the depths not only of water, but of emotion, feeling, and eroticism.</p> Bodies of Inscription Simon and Schuster <p>Henry and Paul are strangers when they find themselves sharing a sleeping compartment on a night train from Munich to Berlin. When they begin to talk, their stories appear to be variations on the same theme: young guys adrift in the big city, relationships gone wrong, broken hearts. Henry is running away from a triangle of friendship gone sour; Paul is running away too, but as the night unfolds and the train speeds north across the German landscape, his story turns ominous. What he finally reveals to his unsuspecting traveling companion goes into the darkest sphere of human behavior. Shocking and raw, The Bird is a Raven is the work of a writer at the beginning of a stellar career.</p> Bibliografia națională română Riva Verlag <p>Let's be sérieux! They were originally presented at the Sixth International Conference on Word and Music Studies, which was held at Edinburgh University in June 2007 and was organized by the International Association for Word and Music Studies (WMA). The contributions to this volume focus on self-reference in various systematic, historical and intermedial ways. Self-reference – including, as a special case, metareference (the self-conscious reflection on music, literature and other medial concerns) – is explored, among others, in instrumental music by Mozart, Mahler and Satie, in the structure and</p>	Inked: 0,3 mm unter der Haut der Gesellschaft Other Press, LLC <p>Diktierte Lust und manipulierte Wünsche. Ingelore Ebberfeld beschreibt eine Sexualisierung, die alles Bisherige in den Schatten stellt. Dabei wird ihr Buch zum Zeitzeugen, und steigt tief hinab in die Abgründe der öffentlichen Sexualität. Auf der Strecke bleiben Scham, ein gesundes Selbstwertgefühl, und schließlich ist nicht mehr auszumachen, ob unsere sexuellen Wünsche von uns kommen oder gemacht wurden. Wo man hinschaut und hinhört: Sex, Sex, Sex - kein Tag ohne. Der öffentliche Raum ist voll davon. Abschottung ist nicht möglich. Ob Kunst, Theater oder Medien, sie alle bombardieren uns mit nackten Tatsachen. Aus Erotik wurde Porno, aus dem kurzen Rock das nackte Hinterteil, mehr noch, der Blick in den Schritt. Wer es zu etwas bringen will, muss sexy sein. Wer es zu etwas gebracht hat, geizt nicht mit seinen Reizen. Und last but not least beginnt der geliebte Tatort mit einer heißen Sexszene, Moderatoren laden Pornostars ein, und in der Schule machen es minderjährige Mädchen für eine Handykarte. Unser Leben wird durch diese Tatsachen bestimmt, und vieles ist zur Selbstverständlichkeit geworden, aber - und das ist ganz wesentlich - wir werden dadurch auch in Frage gestellt und maßlos verunsichert.</p> <i>The New York Times: 36 Hours. 125 Weekends in Europe</i> Penguin <p>Compared to the citizens of just about every other nation, Americans are the least adept at having affairs, have the most trouble enjoying them, and suffer the most in their aftermath and Pamela Druckerman has the facts to prove it. The Moses Code was first used to create some of the greatest miracles in the history of the world, but then it was hidden away, and only the highest initiates were allowed to practice it. In this book, James F. Twyman reveals the Code for the first time, showing how it can be used to create miracles in your life . . . and in the world. By practicing the principles presented within these pages, you'll discover how you can integrate the most powerful manifestation tool in the history of the world into your own life.At the very heart of the Moses Code is the true function and practice of the Law of Attraction. You may have been told that this Law is all about "getting" the things you want--things that you think will make your life more satisfying. But what if that's just the first step, and cracking the Moses Code depends more on what you're willing to "give" rather than "get." That would mean that you have the power to create miracles in your life right now! It would also mean that you have the ability, even the responsibility, to use that power for more than just attracting money, a better car, or the perfect relationship. You're here to use the power of Divinity itself to create a world based on the laws of compassion and peace. Honorary editor: René Dirven The series Applications of Cognitive Linguistics (ACL) welcomes book proposals from any domain where the theoretical insights developed in Cognitive Linguistics (CL) have been (or could be) fruitfully applied. In the past thirty-five years, the CL movement has articulated a rich and satisfying view of language around a small number of foundational principles. The first one argues that language faculties do not constitute a separate module of cognition, but emerge as specialized uses of more general cognitive abilities. The second principle emphasises the symbolic function of language. The grammar of individual languages (including the lexicon, morphology, and syntax) can be exclusively described as a structured inventory of conventionalized symbolic units. The third principle states that meaning is equated with conceptualization. It is subjective, anthropomorphic, and crucially incorporates humans' experience with their bodies and the world around them. Finally, CL's Usage-Based conception anchors the meaning of linguistic expressions in the rich soil of their social usage. Consequently, usage-related issues such as frequency and entrenchment contribute to their semantic import. Taken together, these principles provide researchers in different academic fields with a powerful theoretical framework for the investigation of linguistic issues in the specific context of their

particular disciplines. The primary focus of ACL is to serve as a high level forum for the result of these investigations.

Literarische Texte sind wissensvermittelnden Darstellungsformen vielfach verpflichtet: Sie nutzen Formate wie etwa das des alphabetischen Lexikons, des Wörterbuchs oder des Atlas; sie stellen fiktionale Wesen und Welten in enzyklopädischer Form dar; sie treiben ihr reflexives Spiel mit Ordnungsmustern. Die Verbindung ästhetischer und epistemischer Impulse stimuliert insbesondere seit dem Surrealismus sowohl zu neuen Schreibweisen wie auch zu explorativer Buchgestaltung; zentrale Impulse gehen von Jorge Luis Borges und Roland Barthes aus. Am Leitfaden wichtiger Beispiele diskutiert Teil I des Bandes Formen und Poetiken des poetischen Dictionnaires, des Lexikonromans sowie literarischer und künstlerischer Enzyklopädistik. Herausgearbeitet wird insbesondere das Zusammenspiel von Wissensdiskursen, deren kritischer Reflexion und spielerisch-konstruktiven Gestaltungsverfahren literarisch-poetischer Werke. Teil II erörtert einschlägige Formate und Konzepte am Leitfaden einer alphabetischen Artikelreihe von „Alphabet“ bis „Wörterbücher“. Teil III präsentiert 101 kommentierte Beispiele: Repräsentiert sind die fiktionale Literatur und die philosophische Essayistik, (auto-)biographische Werke, Satiren und Wissenschaftsparodien, eine mit literarischen Mitteln arbeitende Wissens(diskurs)geschichte sowie Verfahren künstlerischer Buchgestaltung.
