Achaan Chah spent many years walking and meditating in the forest monastery of Wat Ba Pong, engaging in the uncomplicated and disciplined Buddhist practice called dhudanga. A Still Forest Pool reflects the quiet, intensive, and joyous practice of the forest monks of Thailand. Achaan Chah's humble words, compiled by two Westerners who are former ordained monks, awaken the spirit of inquiry, wonderment, understanding, and deep inner peace. Attachment, according to Achaan Chah, causes all suffering. Understanding the impermanent, insecure, and selfless nature of life is the message he offers for human happiness and realization. To vividly grasp the meaning of attachment leads us to a new place of practice - the path of balance, the Middle Path. [Zen Pool](#) Lion Hudson Ltd

For all who have found the Bible difficult to read and science hard to understand, this author did too! Wouldn't it be wonderful if someone would take the time to study things such as difficult verses? Also, would it be helpful if somebody wrote it in a book? Have we really found real truth to Noah's flood? Does anyone know the physics that could cause such a global occurrence? Someone has now researched for most of a lifetime, plus three extra years of intensive study. The answers are not always easy, the solutions not always simple. Modern Science finds more evidence almost daily that there once was a flood of such proportions. Author, Harris F. Allen has spent countless hours attempting to answer his own questions. He has a few tools including much science and Bible in his college studies. Always an active overachiever, Allen has become deaf and partially disabled. That left far more time and greater opportunity than he could ever imagine. Having a history of regular church attendance from his early youth, the author received a reasonable background, but always had some unanswered questions. So, in pharmacy school in a Baptist college, he excelled in New and Old Testament studies. Chemistry and science of various sorts were the main topics of study, and by adding Bible, that is an ideal mix for this

discussion. Allen will present his findings from both a scientific view and a Biblical understanding. He will explain what he found about difficult verses and some parts of the Bible that seem at times to be in conflict. He will also discuss the physics, biochemistry and other dynamics that could be involved in such a worldwide flood. Regardless of science or Biblical belief, the flood did occur at about the time the Bible said it did.
