Get more out of your legacy systems: more performance, functionality, reliability, and manageability Is your code easy to change? Can you get nearly instantaneous feedback when you do change it? Do you understand it? If the answer to any of these questions is no, you have legacy code, and it is draining time and money away from your development efforts. In this book, Michael Feathers offers start-to-finish strategies for working more effectively with large, untested legacy code bases. This book draws on material Michael created for his renowned Object Mentor seminars: techniques Michael has used in mentoring to help hundreds of developers, technical managers, and testers bring their legacy systems under control. The topics covered include Understanding the mechanics of software change: adding features, fixing bugs, improving design, optimizing performance Getting legacy code into a test harness Writing tests that protect you against introducing new problems Techniques that can be used with any language or platform—with examples in Java, C++, C, and C# Accurately identifying where code changes need to be made Coping with legacy systems that aren't object-oriented Handling applications that don't seem to have any structure This book also includes a catalog of twenty-four dependency-breaking techniques that help you work with program elements in isolation and make safer changes.

A novel based on the true story of a remarkable woman, her lifelong relationship with birds and the joy she drew from it Len Howard was forty years old when she decided to leave her London life and loves behind, retire to the English countryside and devote the rest of her days to her one true passion: birds. Moving to a small cottage in Sussex, she wrote two bestselling books, astonishing the world with her observations on the tits, robins, sparrows and other birds that lived

nearby, flew freely in and out of her windows, and would even perch on her shoulder as she typed. This moving novel imagines the story of this remarkable woman's decision to defy society's expectations, and the joy she drew from her extraordinary relationship with the natural world.

The Wonderful World of Birds - How to Make Friends With Our Feathered Friends Table of Contents Introduction Knowing More about the Birds around You - Fun Facts of the More Common Bird Species Blackbirds Sparrows Hawks Cranes Goldfinch Ducks Blue Jays Chickadees Egrets Vultures Falcons Gulls Finches Owls The Territorial Rights of Birds How to Make Bird Houses Different Styles of Bird Houses Special Birdhouse Plans for Different Bird Species Taking Care of Your Bird Pets Feeding Your Feathered Friends Starting A Bird Watching Club Conclusion Introduction Did you know that some of the birds which people believed would never ever be extinct because they were so numerous have disappeared in the 20th and the 21st century? The last passenger pigeon, which once covered the skies of North America, died in captivity in 1904. In the same manner, it took just five years to kill off all the vultures, the Kites, the Eagles and the house sparrow (*Passer Domesticus*) and many other birds once common in cities, in parts of the Indian subcontinent. Blame it all on pesticides and also humans encroaching the natural habitats of birds. So why should you be interested in the wonderful world of birds, you may ask? Well, it is a well-known fact that a number of bird species are disappearing from the face of the earth,

just like the Great Auk and the dodo at the rate of 10- 25 per year. So what, you may say, after all, there are so many other birds to choose from. Just calculate. 25 species going extinct per year, never to make their appearance on earth again. At this rate, we are not going to see a living bird in the next 50 to 75 years. That is reality. There may come a generation, which may ask its grandparents, "what were those silly little creatures, you called birds? We can just hear their songs on audio. What were they like to look at?" And the grandparents trying desperately to describe the magic world of birds. Imagine a world without nightingales singing in Berkeley Square, bluebirds flying over the white cliffs of Dover, peacocks in purple adorning and other such songbirds disappearing from your windowsill, garden and lives. Imagine no bird nesting in your garden or waking you up to birdsong, bright and early in the morning. So if you begin to take an interest in birds, there is a chance that you may want to help save them and your children might grow up to be keen ornithologists.

\*\*A Reese Witherspoon x Hello Sunshine Book Club Pick and New York Times bestseller\*\* A year after a summer guest dies under suspicious circumstances, her best friend lives under a cloud of grief and suspicion in this "fast-paced and gripping" (People) thriller filled with "dizzying plot twists and multiple surprise endings" (The New York Times Book Review). Littleport, Maine, has always felt like two separate towns: an ideal vacation enclave for the wealthy, whose summer homes line the coastline; and a simple harbor community for the year-round residents whose livelihoods rely on service to the visitors. Typically, fierce friendships never develop between a local and a summer girl—but that's just what happens with visitor Sadie Loman and Littleport resident Avery Greer. Each summer for almost a decade, the girls are inseparable—until Sadie is found dead. While the police rule the death a suicide, Avery can't help but feel there are those in the community, including a local detective and Sadie's brother, Parker, who blame her. Someone knows more than

they're saying, and Avery is intent on clearing her name, before the facts get twisted against her. "A riveting read...from master of suspense, Megan Miranda," (Mary Kubica, New York Times bestselling author of *The Good Girl*) *The Last House Guest* is a clever, twisty mystery that brilliantly explores the elusive nature of memory and the complexities of female friendships.

The "enthraling page-turner" (Library Journal) now a major motion picture starring Jason Statham, Clive Owen, and Robert De Niro! Here is a gripping novel, inspired by real-life events, about a private team of British vigilantes that sets out to eliminate a gang of cold-blooded contract killers. From 1977 to 1990, four former British soldiers die, one by one, supposedly due to accident or illness. But soon a link is established between the victims: a shared mission in the desert kingdom of Oman, where they fought for a sultan against insurgents and ruined the life of a rival sheikh, who in turn has sent a band of assassins to methodically slay the soldiers and salvage his pride. Now these clever assassins are on the run from an underground group of SAS vets with nothing to lose, no time to waste, and a desire to dispense their own form of justice—no matter the cost. Winner of the National Book Award • Washington Post Best Book of the Year • A

New York Times Notable Book From one of the most revered novelists of our time, an exquisitely told story of a boy on the cusp of manhood who seeks justice and understanding in the wake of a terrible crime that upends and forever transforms his family. One Sunday in the spring of 1988, a woman living on a reservation in North Dakota is attacked. The details of the crime are slow to surface because Geraldine Coutts is traumatized and reluctant to relive or reveal what happened, either to the police or to her husband, Bazil, and thirteen-year-old son, Joe. In one day, Joe's life is irrevocably transformed. He tries to heal his mother, but she will not leave her bed and slips into an abyss of solitude. Increasingly alone, Joe finds himself thrust prematurely into an adult world for which he is ill prepared. While his father, a tribal judge, endeavors to wrest justice from a situation that defies his efforts, Joe becomes

frustrated with the official investigation and sets out with his trusted friends, Cappy, Zack, and Angus, to get some answers of his own. Their quest takes them first to the Round House, a sacred space and place of worship for the Ojibwe. And this is only the beginning. The Round House is a page-turning masterpiece—at once a powerful coming-of-age story, a mystery, and a tender, moving novel of family, history, and culture.

Rejecting traditional notions of what constitutes art, this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art. Although scholars over the last twenty years have turned their attention to fiber arts, redefining the conditions, practices, and products as art, there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary. With essays on a range of

fiber art practices, including embroidery, knitting, crocheting, machine stitching, rug making, weaving, and quilting, this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity. Focusing on women as producers of cultural products and creators of social value, the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles. Each essay also examines the ways in which needlework both performs gender and, in turn, constructs gender. Moreover, in concentrating on and theorizing material practices of textiles, these essays reorient the study of fiber arts towards a focus on process—the making of the object, including the conditions under which it was made, by whom, and for what purpose—as a way to rethink the fiber arts as social praxis.
