In 1980, there were exactly four professional bike racers in America. Six years later, an American cycling team would wear the coveted yellow jersey of the Tour de France. And that same team would go on to win Italy's greatest race--the Giro d'Italia--only two years later. Team 7-Eleven is the extraordinary

story of how two Olympic speed skaters, Jim Ochowicz and Eric Heiden, pulled together a small group of amateur cyclists and turned them into one of the greatest cycling teams the sport has known. From humble beginnings in a barn in Pennsylvania to soaring victories in the French Alps, Team 7-Eleven is the complete history that has never been fully told--until now. The 7-Eleven Cycling

Team--Team 7-Eleven for short--launched the careers of American cycling superstars Andy Hampsten, Davis Phinney, Bob Roll, Ron Kiefel, and many more. It also changed the cycling world, creating a new team structure based on multiple stars, unified goals, and personal sacrifice for the greater good. And yet at the time it was formed, the number of American cyclists with

world-class experience could be counted--literally--on one hand. And the number of American teams that competed in Europe's biggest races was exactly zero. Team 7-Eleven is the amazing story of how two cycling fans found one exceptional sponsor and created the greatest American cycling team of its era. Written with the enthusiastic cooperation of the team members,

Team 7-Eleven will impress cycling fans with behind-the-scenes stories of the team's founding, its growing pains, and its lasting success as the team that established America as a powerhouse in the world of professional cycling. The Paris-Roubaix Classic. 273 kilometres of torment across the bone-crunching pavé of northern France. In 1976 the celebrated Danish film director, Jørgen Leth, embarked on an ambitious

project to capture the spirit of this spectacular and cruel one-day race. The resulting film, *A Sunday in Hell*, has become the most admired cycling documentary of all time, and its revolutionary camera and sound techniques have forever changed the way the sport is viewed on screen. The film centres around legends including Eddie Merckx, Roger De Vlaeminck, Freddie

Maertens and Francesco Moser, capturing not just their experiences from the saddle, but also the mood of a nation and its relationship with the most punishing of the Spring Classics. *Sunday in Hell* looks at the men, the method and the places behind the film. It observes the creativity of Leth and his collaborators, explores the lives of riders such as unlikely winner Marc

Demeyer and revisits locations which have changed little to this day.

 It's time we all stopped whining and learned a thing or two from The Toughest Cyclists Ever. Including: Stephen Roche, whose cure for exhaustion was to go up a gear and fight harder, all the way to the ambulance. Eddy Merckx, who hurt himself so

badly in breaking the Hour record that, he estimated, he shortened his career by a year. Beryl Burton, who crushed her (male) rival's morale with the offer of a piece of liquorice, before speeding past to victory. Nicole Cooke and Edwig Van Hooydonck, who rejected dope and became legends. The Hardmen tells the stories - the good bits, anyway - of the 40 most heroic Cyclists ever. Their

bravery, their panache and their Perfect Amount of Dumb. It reminds us that suffering on a bike liberates us from our daily lives, and that, in the words of Lance Armstrong "pain is temporary, quitting lasts forever"; proof that even assholes can be insightful.

As well as days of brilliance, there have been controversies such as the high-speed and drug-fuelled duels of the EPO years in the 1990s and into the new millennium. In Alpe d'Huez, veteran

cycling journalist Peter Cossins reveals the triumphs, passion and despair behind the great exploits on the Alpe and discloses the untold details that have led to the mountain becoming as important to the Tour as the race is to resort at its summit. This is the story of a sport told through its communities. Rugby League in New Zealand: A People's History unveils the compelling journey of a game flourishing against the odds. Beginning with the game's introduction to

the country in 1907, Ryan Bodman reveals the deep-rooted connections between rugby league's development and the evolving cultural fabric of New Zealand. By questioning the mythic status of rugby union in the nation's identity, this history highlights how power, politics and people have collectively shaped the country's sporting scene. Drawing on

first-hand interviews and a wide range of illustrations and archival material, Bodman locates rugby league history in working-class suburbs, and among Kiingitanga Māori, Pasifika migrants, and clubs and communities across the country. The people behind the game share accounts of change, triumph and resilience, while emphasising rugby league's lasting influence on

New Zealanders' lives.

 With a foreword by Donal Lenihan.
 Owen Doyle is an Irish Times columnist and former Irish

rugby test match referee. Here in his frank, revealing and often humorous memoir, he gives a behind-the-scenes glimpse into the high-pressured world of international rugby. From the processes involved in becoming a referee, to officiating in the Five Nations, internationals and a World Cup, Doyle takes us through the most memorable matches of his

career and how, following his retirement, he became instrumental in coaching the most successful generation of referees in the IRFU's history. Covering over forty years of rugby, and written in his

own inimitable style, Doyle looks at the challenges facing modern rugby, particularly the issues of concussion and dementia, to give a fascinating insight into the great game, told from a unique

perspective. 'Owen Doyle was a highly respected referee who officiated matches with passion, commitment, knowledge and, occasionally, some great humour' Will Carling
