Le réseau « Chromatiques

whiteheadiennes » a pour objectif premier de fédérer les recherches sur les différents aspects, nuances et implications de la pensée du philosophe et algébriste britannique Alfred North Whitehead (1861-1947). C'est dans ce cadre qu'ont été créés en 2002 à l'Université Paris 1 Panthéon Sorbonne des séminaires de recherche sur la philosophie organique whiteheadienne. L'« Annuaire de la philosophie en procès » publie les principaux résultats de ces travaux et offre complémentairement des études critiques et des comptes rendus récents dans les domaines whiteheadiens et connexes. The « Chromatiques whiteheadiennes » network intends to bring together research on the different aspects, nuances and implications of Alfred North Whitehead's (1861-1947) thought. Since 2002, the network has fostered in Paris 1 Panthéon Sorbonne research seminars on his organic philosophy. The Chromatikon yearbook publishes the main results of this work and also offer critical studies and reviews in Whiteheadian and related fields. The Chromatikon yearbooks are complementary to the works published in ontos' « Chromatiques whiteheadiennes » and « Process Thought » series.

Henri Michaux is both a recognised poet and visual artist, arguably one of the greatest 'double artists' of the twentieth century. This book presents the first

detailed examination of a particular interdisciplinary aspect of his production, namely, the innovative experimentation with signs contained in four works: *Mouvements*, *Par la voie des rythmes*, *Saisir* and *Par des traits*. Questions arise concerning their literary and visual status as, in their attempt to render interior rhythm and dynamism, they occupy an interstitial space between writing and drawing, between the book and the canvas, between the Western alphabet and Chinese characters. This study addresses these questions by analysing the conception, production and reception of Michaux's signs and the literary and artistic contexts in which they were produced.

Henri Michaux is widely recognized as a major twentieth-century French poet and painter. Although his fascination with universal languages has attracted the attention of several of his critics, it has up until now been treated as a marginal concern. *Henri Michaux: Poetry, Painting, and the Universal Sign* argues that his ideas on what might constitute a universal language are central to an understanding of his works. It suggests that both his ambivalent articulation of his relationship to the languages and literary traditions of his native Belgium and adoptive France, and his efforts simultaneously to exacerbate and subvert the differences between words and images, are rooted in Enlightenment theories of the relationship of the self to nature and its language. Rigaud-Drayton's study makes a substantial and original contribution to the study of this complex artist, exploring the intricate relationships between word and image in his poetry and paintings, and his quest for a single, unifying language or sign.

"This selection of thirty letters and two postcards, written between September 2, 1969, and September 12, 1972, includes

most of Pizarnik's correspondence with Spanish writer-editor-artist Antonio Beneyto. From these informative letters we learn about her influences, the artists, poets, and writers she preferred, and her reactions to them. She collaborated on various projects and cultivated many literary and personal ties with writers of the stature of Julio Cortazar, Olga Orozco, Octavio Paz, Pieyre de Mandiargues, Silvina Ocampo, and Luisa Sofovich, among others." "Although the corpus of Pizarnik's writing available in English has expanded in the last twelve years, it is still far from adequate. This is the first time that a selection of letters from Alejandra Pizarnik to Antonio Beneyto has been published in English. The translators hope that this volume will serve English-speaking audiences as a new bridge to her work."--BOOK JACKET.

Chromatikon IV Bucknell University Press In Deleuze and Art Anne Sauvagnargues, one of the world's most renowned Deleuze scholars, offers a unique insight into the constitutive role played by art in the formation of Deleuze's thought. By reproducing Deleuze's social and intellectual references, Sauvagnargues is able to construct a precise map of the totality of Deleuze's work, pinpointing where key Deleuzian concepts first emerge and eventually disappear. This innovative methodology, which Sauvagnargues calls "periodization", provides a systematic historiography of Deleuze's philosophy that remains faithful to his affirmation of the principle of exteriority. By analyzing the external relations between Deleuze's self-proclaimed three philosophical periods, Sauvagnargues gives the reader an inside look into the conceptual and artistic landscape that surrounded Deleuze and the creation of his philosophy. With extreme clarity and precision,

Sauvagnargues provides an important glimpse into Deleuze's philosophy by reconstructing the social and intellectual contexts that contributed to the trajectory of his thought. This book is the product of insightful and careful research, which has not been made available to English readers of Deleuze before now.

An incredible publishing event: a philosopher draws on his own experience of madness as he takes readers on an unforgettable journey through the philosophy of psychosis and the psychosis of philosophy. In this book, philosopher and linguist Wouter Kusters examines the philosophy of psychosis--and the psychosis of philosophy. By analyzing the experience of psychosis in philosophical terms, Kusters not only emancipates the experience of the psychotic from medical classification, he also emancipates the philosopher from the narrowness of academia, allowing philosophers to engage in real-life praxis, philosophy in vivo. Philosophy and madness--Kusters's preferred, non-medicalized term--coexist, one mirroring the other. Drawing on his own experience of madness--two episodes of psychosis, twenty years apart--Kusters argues that psychosis presents itself to the psychotic as an inescapable truth and reality.

Although the great French novelists of the last two centuries are widely read in America, there is a widespread notion that little of importance has happened in French literature since the heyday of Sartre, Camus, and the nouveau roman. Some might argue that even well read Americans are ignorant about what is happening in European literature generally. Certainly, there has never been so few translations of foreign books in the United States, or so little coverage of foreign writers. Curious American readers need new, up-to-date information and analyses about what is happening elsewhere. *Paths to Contemporary French Literature* is a stimulating and much-needed guide to the major currents of one of the world's great literatures. This critical panorama of contemporary French literature introduces English-language readers to over fifty important writers and poets, many of whom are still little known outside of France. Emphasizing authors who are admired by their peers (as opposed to those with overnight reputations), John Taylor offers a compelling insider's view. The pioneering essays included in this book offer incisive

analyses of the ideas motivating current writing and delve into a writer's or poet's entire output. Although some names may be familiar (Marguerite Duras, Hulne Cixous, Philippe Jaccottet, Henri Michaux), the reader obtains fresh reappraisals of their seminal work. Especially noteworthy, however, are Taylor's lively introductions to many other key writers who either have not yet crossed the English Channel, let alone the Atlantic. Combating the notion that French literature is overtly intellectual, inaccessible, or interested only in formal experimentation, Taylor shows that many French writers are instead acutely inquisitive about the outside world, shrewd observers of reality, even very funny. Although not conceived as a reference book, the volume possesses some qualities of a reference work: a good bibliography, reliable dates and biographical facts. *Paths to Contemporary French Literature* will be of interest to students of French literature and culture, literary scholars, and readers of contemporary fiction and poetry.

Altered states of consciousness – including experiences of deprivation, pain, hallucination, fear, desire, alienation, and spiritual transcendence – can transform the ordinary experience of selfhood.

Unselfing explores the nature of disruptive self-experiences and the different shapes they have taken in literary writing. The book focuses on the tension between rival conceptions of unselfing as either a form of productive self-transcendence or a form of alienating self-loss. Michaela Hulstyn explores the shapes and meanings of unselfing through the framework of the global French literary world, encompassing texts by modernist figures in France and Belgium alongside writers from Algeria, Rwanda, and Morocco. Together these diverse texts prompt a re-evaluation of the consequences of the loss or the transcendence of the self. Through a series of close readings, Hulstyn offers a new account of the ethical questions raised by altered states and shows how philosophies of empathy can be tested against and often challenged by literary works. Drawing on cognitive science and phenomenology, *Unselfing* provides a new methodology for approaching texts that give shape to the fringes of conscious experience.

The Nobel Prize-winning poet and man of letters Octavio Paz was also a brilliant reader of other writers, and this book selects his best critical essays from over three decades. In the sixteen pieces collected here, Paz discusses a wide range of poets and writers, both American and international, from Robert Frost and Walt Whitman to William Carlos Williams; from Fyodor Dostoevsky to Luis Buñuel to

Alexander Solzhenitsyn; and from Charles Baudelaire to Jean-Paul Sartre, André Breton, and Henri Michaux. Paz writes, "I believe that a writer's attitude to language should be that of a lover: fidelity and, at the same time, a lack of respect for the beloved object. Veneration and transgression." When this original thinker meets these writers, each essay is an adventure of the mind.
