No other guide on the market covers the volume of comic book listings and range of eras as Comic Book Checklist & Price Guide does, in an easy-to-use checklist format. Readers can access listings for 130,000 comics, issued since

1961, complete with names, cover date, creator information and near-mint pricing. With super-hero art on the cover and collecting details from the experts as America's longest-running magazine about comics in this book, there is nothing that compares. *Nira X* Dark Horse Comics In this follow-up to the 2008 art book *Robots and Donuts*, vintage toys are paired with pastries to create fascinatingly bizarre paintings. This

volume showcases San Francisco-based artist Eric Joyner's newest and most impressive pieces-- including *The Horseshoe Bend*, *Daybreak*, *Movers and Shakers*, and more. Much like the subjects of his paintings, Joyner's artistic style is subtly nostalgic yet imaginatively unique. By juxtaposing familiar items with every day foods, he creates whimsical masterpieces that have the power to both comfort and inspire. Robotic

Existentialism: The Art of Eric Joyner is a beautiful collection that entices the reader to stop, ponder the meaning of life, and perhaps savor a donut or two.

2000 Comic Book Checklist and Price Guide
St. Martin's Griffin
Continuing from Committed Comics' *Nira-X #1*, *Nira's All New Official Issue #2*, set in the all new timeline created in *Nira-X #1*. There is a mysterious power source that might be the answer to all their questions and problems but it's being

guarded by a powerful entity unknown to all. Somehow Nira and the rest of the CyberAngels need to find the power source, stop the end of all existence but also prevent her arch-nemesis ENX, from trying to kill her and seize the universe's power for herself. Just another day in the life of Nira X! *Guyver Reborn* McFarland This fourth title in a unique series that combines reference and analytical qualities in chronicling the horror and science fiction genres, Horror and Science Fiction

Films IV brings the earlier three volumes in the series up to date, concentrating on the period from 1984-1994, as well as updating entries from the previous volumes and adding newly-discovered titles from 1900-1983. Entries in the main list include credits, cast, synopsis, and annotation. The introduction lists 1995 releases in the genres and 1996 releases through the summer, cites the more memorable films in the genres for both the current period and

1900-1984, and serves as an index to key titles in the main list, including long-lost titles such as the -obscure silent *Were Tiger* and the 1931 *The Phantom*. Willis includes many films from around the world that are not found in any other English-language film reference work. One appendix provides thumbnail descriptions of problem and peripheral films; another updates entries in the first three books with alternate titles; and a third appendix serves as an

index to the approximately 7,000 films listed in the first three volumes in the series as well as in the current volume, thus bringing the total number of films covered in this series to roughly 11,000 titles. *Anime from Akira to Howl's Moving Castle* R. R. Bowker
When I open my eyes, I find myself in an unfamiliar car, in an unfamiliar town, in front of the on-ramp to an unfamiliar highway. Before I can process any of this, I see the fiery

explosions of multiple car crashes in the distance, and without thinking, I stomp on the accelerator and race toward the scene. I soon find that I've driven straight into hell at full speed with no brakes, just like everyone around me...! In the midst of this insanity, I discover the corpse of a girl, and suddenly I know—I am the brilliant detective. And I must solve the mystery of her death.

 With the popularity of Pokemon still far from waning, Japanese animation, known as anime to its fans, has a firm hold on American pop culture. However, anime is much more than

children's cartoons. It runs the gamut from historical epics to sci-fi sexual thrillers. Often dismissed as fanciful entertainment, anime is actually quite adept at portraying important social and cultural issues like alienation, gender inequality, and teenage angst. This book investigates the ways that anime presents these issues in an in-depth and sophisticated manner, uncovering the identity conflicts, fears over rapid technological advancement, and other

key themes present in much of Japanese animation.

**Robotic Existentialism:
The Art of Eric Joyner**
A&C Black

In this book, the first collection of its kind, you will hear insights directly from the mouths and minds of the anime and manga creators themselves, in interviews with are often the only ones on record in English. some of these creators are larger-than-life legends in their native Japan, some are up-and-coming young talents, but

all have a lot to say on the subject of their work.
