*The Constitutional Dimension of Contract Law* Aspen Publishing

One of the hallmarks of the present era is the discourse surrounding Human Rights and the need for the law to recognise them. Various national and supranational human rights instruments have been developed and implemented in order to transition society away from atrocity and callousness toward a more just and inclusive future. In some countries this is done by means of an overarching constitution, while in others international

conventions or ordinary legislation hold sway. Contract law plays a pivotal role in this context. According to many, this is done through the much-debated 'civilising mission' of the contract, a notion which itself constitutes the canon of the Western liberal principle of 'civilised economy'. The movement away from the belief in the absolute freedom of contract, which reached its zenith in the nineteenth century, to the principles of fairness and justice that underpin contract law today, is often deemed to be a testament to this civilising influence. Delving into the interplay between human rights policies, constitutional law, and contract law from both theoretical and practical perspectives, this first volume of a two-book collection offers a totally new reappraisal of the subject by gathering a collection of essays written by contract law scholars from Europe, South Africa, Canada, and Australia. Instead of providing the reader with a sterile compilation of positivistic norms and policies on the impact of fundamental rights and constitutional law issues on contract law's development, the authors build on their personal experience to analyse specific topics related to contracting that include a constitutional dimension. The book fills an important void in comparative law scholarship and in so doing represents the starting point for further debate on the subject.

This proceedings volume for the 4th international conference CIGOS 2017 (Congrès International de Géotechnique - Ouvrages - Structures) presents novel technologies, solutions and research advances, making it an excellent guide in civil engineering for researchers, students, and professional engineers alike. Since

2010, CIGOS has become a vital forum for international scientific exchange on civil engineering. It aims to promote beneficial economic partnerships and technology exchanges between enterprises, worldwide institutions and universities. Following the success of the last three CIGOS conferences (2010, 2013 and 2015), the 4th conference was held at Ho Chi Minh City University of Technology, Ho Chi Minh City (Saigon), Vietnam on 26 to 27 October 2017. The main scientific themes of CIGOS 2017 were focused on 'New Challenges in Civil Engineering'.

The Revised 4th Edition of *Civil Procedure: A Contemporary Approach* is updated with references to the 2015 amendments to the Federal Rules of Civil Procedure, as well as case law developments since the 2014 publication date of the Fourth Edition. Major recent case law developments included in this revised edition consist of decisions from the Supreme Court addressing personal jurisdiction (*Goodyear Dunlop Tires Operations, S.A. v. Brown*, 131 S. Ct. 2846 (2011), *J. McIntyre Machinery, Ltd. v. Nicastro*, 131 S. Ct. 2780 (2011), and *Daimler AG v. Bauman*, 134 S. Ct. 746 (2014)), federal question jurisdiction (*Gunn v. Minton*, 133 S. Ct. 1059 (2013)), removal of class actions (*Standard Fire Ins. Co. v. Knowles*, 133 S. Ct. 1345 (2013)), change of venue and forum-selection clauses (*Atl. Marine Constr. Co., Inc. v. U.S. Dist. Court for W. Dist. of Texas*, 134 S. Ct. 568 (2013) [now a principal case]), class certification (*Wal-Mart Stores, Inc. v.*

Dukes, 131 S. Ct. 2541 (2011), Comcast Corp. v. Behrend, 133 S. Ct. 1426 (2013), Amgen Inc. v. Conn. Ret. Plans & Trust Funds, 133 S. Ct. 1184 (2013)), class arbitration waivers (AT&T Mobility LLC v. Concepcion, 131 S. Ct. 1740 (2011) and American Express Co. v. Italian Colors Restaurant, 133 S. Ct. 2304 (2013)), and offers of judgment (Genesis HealthCare Corp. v. Symczyk, 133 S. Ct. 1523 (2013)). Regarding the 2015 amendments to the Federal Rules of Civil Procedure, this revised edition makes reference to them in the text where appropriate. The changes include the "Duke Rules" package, which alters Rules 1, 4, 16, 26, 30, 31, 33 and 34 to make proportionality a main component of the scope of discovery, to eliminate access to subject matter discovery, require early discussions regarding preservation and privilege protection, permit early document requests, and shorten the time permitted to issue scheduling orders and to achieve service of process. The amendment to Rule 37 codifies an approach to preservation and spoliation that favors curative measures unless there is intentional spoliation, in which case more severe sanctions such as adverse inference instructions or dismissal become available. This edition also fully incorporates recent amendments to the Federal Rules of Civil Procedure and to Title 28 of the U.S. Code, including the Federal Courts Jurisdiction and Venue Clarification Act of 2011 and the 2013 amendment to Rule 45 (subpoenas). Finally, the Revised Fourth Edition integrates references to online assessment tools in the Casebook Plus platform. These consist of a bank of 200 multiple-choice questions that provide comprehensive assessment of the topics covered in this book, with detailed feedback consisting of explanations for both correct and incorrect responses. This feature provides an unparalleled opportunity to engage with the material actively as the course progresses and permits students and professors to determine the extent to which the material is being learned.

This book presents select proceedings of the International Conference on Sustainable Construction and Building Materials (ICSCBM 2018), and examines a range of durable, energy-efficient, and next-generation construction and building materials produced from industrial wastes and byproducts. The topics covered include alternative, eco-friendly construction and building materials, next-generation concretes, energy efficiency in construction, and sustainability in construction project management. The book also discusses various properties and performance attributes of modern-age concretes including their durability, workability, and carbon footprint. As such, it offers a valuable reference for beginners, researchers, and professionals interested in sustainable construction and allied fields.

This Updated 4th Edition revises the casebook to account for the restyling of the Federal Rules of Civil Procedure. The pagination has not changed from the 4th Edition (2005). Students will be alerted to the new numbering and wording of the Rules; but teachers can continue to use their current versions of the 4th edition as originally published. On December 1, 2007, the "restyled" Federal Rules went into effect. The hope is that this restyling will pay dividends for decades, and that beginning law students will be among the first beneficiaries. For them, the restyled rules will be the only rules they will know in their professional careers. We assume that most teachers will have their students read and learn from the restyled rules. But

this watershed does not change what's in the decided cases under the rules as they were written before Dec. 1, 2007. So students may find it unnerving for their rule pamphlets to say something different from what they find quoted in the cases in the casebook. The Updated 4th Edition is designed to deal with these issues. It has been changed only to reflect changes in numbering or wording of the rules that resulted from the restyling project. Teachers who have been using the 4th edition as published in 2005 can continue to use it; they need not start working afresh with the updated 4th edition. To facilitate that continued use of the existing book, we will soon circulate a listing of the changes in this revised edition. Teachers will therefore be able simply to annotate their copies of the original 4th edition and have the equivalent of what the students possess in the updated 4th edition. In addition, the authors have added an Appendix including two post-publication decisions that were previously handled by circulating edited versions suitable for class handouts--Bell Atlantic Corp. v. Twombly and Exxon Mobil Corp. v. Allapattah Services, Inc. The authors have included footnotes on the pages where they recommend substituting these cases to refer readers to them. In 2009, we expect to publish the 5th edition. That will, of course, be based on the restyled rules, but it move far beyond the minimal accounting for small numbering and wording changes resulting from restyling. We are pleased to announce that Professor James Pfander, of Northwestern University Law School, will be a new co-author on the 5th edition.
