Premchand was one of the foremost Hindustani writers of the early twentieth century, and Godaan

(first published 1936) is Premchand's most celebrated novel. Economic and social conflict in a North Indian village are graphically portrayed in the story of Hori, a typical Indian fanner, and his family's struggle for survival and self-respect. Grinding poverty is the Indian farmer's greatest enemy, and Hori fights it to the bitter end of his life. As every Hindi, Hori cherishes the desire to make the gift of a cow to a Brahman at the time of his death, for it is common belief that this gift enables him to enter heaven. The novel is dominated by that most important of themes of Indian folklore, the symbol of the cow, and by Hori's ceaseless striving to achieve his goal. In

striking contrast to the village scene is the picture of Indian middle and upper-class urban life, which Premchand skillfully reveals through such memorable characters as Miss Malti, an attractive young physician, Pandit Onkarnath, a newspaper editor, Dr. Mehta, a philosophy professor, and Mr. Khanna, a bank manager and factory owner. In both the "traditional" and the "modern" settings there is oppression; in both there are clashes of values. Yet behind the distinctively Indian setting, readers will recognize universal human predicaments.-- Adapted from publisher description.

Discover the flavours of the North-East If there is one part of this country that is yet to be discovered, at least in terms of its cuisine, it is the North-East. The kitchens of the North-East are the source of an extraordinary range of dishes that blend tradition and innovation in unexpected ways. The basic tribal diet of jungle produce has, over the years, been influenced by various other communities—the Thais, who once ruled over some parts of the territory; the Chinese,

because of their proximity; and the Bengali migrants—and it is this unusual combination that makes the food of this region unique in India. With a variety of new recipes from the eight states of the North-East—now including Sikkim—this updated cookbook will help you transform the most ordinary meal into an exotic experience.

Her poetic myth and philosophy are self-created and universal to the core. ~ Naseer Ahmed Nasir. "Kalpna's poetry is a saga of struggle between two parts of the dual principle of male-female creation as one. It is the first ever attempt in English to understand, debate and resolve this issue in poetry." ~ Satyapal Anand. "Only a poet of Kalpna's caliber could make words sing and dance or weep and mourn all at the same time." ~ John Harricharan. "These are the verses not only

 The Wrestler's Body tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of

each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health.

Everyone is called on to become a wrestler and build collective strength through self-discipline.
