From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems

unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for

navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

The principles of getting a job are fairly simple 1. You will need to think like employers and understand the factors that make them and their organizations successful. You will practice doing that in this section. 2. You will need to identify the skills you can offer that will contribute to the success of both the business you are targeting and the individual hiring decision makers who determine if it makes sense to offer you a job. You will have an opportunity to do this in Section 2 of this Guide. 3. You will need to discover, research, and connect with employment opportunities that are a good match for your skills and interests. Sections 3 and 4 will help you accomplish these tasks. 4. You will need to develop and deliver self-marketing messages that enable civilian hiring decision makers to recognize that they and their organizations will be more successful if they hire you. You will have opportunities to develop these messages in Sections 5 and 6.

Nevil Shute was a writer whose books were frequently looked down on by literary critics and yet when he died in 1960 he was one of the best selling novelists of his day. Today, books such as

*A Town Like Alice* and *On the Beach* continue to attract new generations of fans. However there was more to Shute than his books, a great deal more. Richard Thorn explores Shute’s personal and professional life, drawing from extensive research carried out using archives and sources in the UK, USA and Australia. Nevil Shute Norway began his professional life as an aeronautical engineer working on the outskirts of London for the newly established de Havilland Aircraft Company. He quickly went on to play a key role in Britain’s ill-fated and final airship programme, before co-founding an aircraft manufacturing company at the height of an economic depression. All the while, using the pseudonym Nevil Shute, he spent his time writing for relaxation in the evenings. After the Second World War, he flew a single-engined aeroplane to Australia and back in search for new material for his novels. Fascinated by the new world that he had seen, the novelist sold up and moved his family to Australia, buying a farm in a small town on the outskirts of Melbourne. For the remainder of his life, Australia was his home and the inspiration for many of his best-loved novels. Shute tells the story of the life and times of an extraordinary man who made a significant contribution to twentieth century popular literature. This book will appeal to fans of Shute’s work, those interested in his background and personal life or to readers interested in the early years of the aviation industry in Britain.

In *Market Encounters*, Bianca Murillo explores the shifting social terrains that made the buying and selling of goods in modern Ghana possible. Fusing economic and business history with social and cultural history, she traces the evolution of consumerism in the colonial Gold Coast and independent Ghana from the late nineteenth century through to the political turmoil of the 1970s. Murillo brings sales clerks, market women, and everyday

consumers in Ghana to the center of a story that is all too often told in sweeping metanarratives about what happens when African businesses are incorporated into global markets. By emphasizing the centrality of human relationships to Ghana's economic past, Murillo introduces a radical rethinking of consumption studies from an Africa-centered perspective. The result is a keen look at colonial capitalism in all of its intricacies, legacies, and contradictions, including its entanglement with gender and race.

In *Behind the Hedges*, journalist Rich Whitt focused his investigative lens on recent events at the University of Georgia, and in so doing examined the bigger story of "a sea change in how America supports its institutions of higher education." Through interviews with many key figures in a struggle for power at UGA over the last decade, Rich examines the controversial tenure of Michael Adams as UGA president, and how this controversy led to the unprecedented split between the Board of Regents and the UGA Foundation, with implications for the landscape of higher education funding nationwide.
