From the New York Times bestselling author of *Confessions of a Scary Mommy* and the wildly popular blog *ScaryMommy.com*, a hilarious new essay collection that exposes the “vicious lies” that every parent is told. Newly pregnant and scared out of her mind, Jill Smokler lay on her gynecologist’s examination table and was told the biggest lie she’d ever heard in her life: “Motherhood is the most natural thing in the world.” Instead of quelling her nerves like that well intentioned nurse hoped to, Jill was instead set up for future of questioning exactly what DNA strand she was missing that made the whole motherhood experience feel less

than natural to her. Wonderful? Yes. Miraculous? Of course. Worthwhile? Without a doubt. But natural? Not so much. Jill’s first memoir, the New York Times bestseller *Confessions of a Scary Mommy*, rocketed to national fame with its down and dirty details about life with her three precious bundles of joy. Now Jill returns with all-new essays debunking more than twenty pervasive myths about motherhood. She’s here to give you what few others will dare: The truth.

Use the new, enticing, and highly portable event-driven runtime to simplify building resilient and scalable microservices for cloud and edge applications
 Key Features
 Build resilient, stateless, and stateful microservice applications that run on the cloud and edge
 Solve common distributed systems such as low latency and

scaling using any language and framework
 Use real-time and proactive monitoring tools to support a reliable and highly available system
 Book Description
 Over the last decade, there has been a huge shift from heavily coded monolithic applications to finer, self-contained microservices. Dapr is a new, open source project by Microsoft that provides proven techniques and best practices for developing modern applications. It offers platform-agnostic features for running your applications on public cloud, on-premises, and even on edge devices. This book will help you get to grips with microservice architectures and how to manage application complexities with Dapr in no time. You'll understand how Dapr offers ease of implementation while allowing you to work with multiple languages and platforms. You'll also understand how Dapr's runtime, services, building blocks, and software development kits (SDKs) help you to simplify the creation of resilient and portable microservices. Dapr provides an event-driven runtime that supports the essential features you need to build microservices, including service invocation, state management, and publish/subscribe messaging. You'll explore all of those in addition to various other advanced features with this practical guide to learning Dapr. By the end of this book, you'll be able to write microservices easily using your choice of language or framework by implementing industry best practices to solve problems related to distributed systems. What you will learn
 Use Dapr to create services, invoking them directly and via pub/sub
 Discover best practices for working with microservice architectures
 Leverage the actor model to orchestrate data and behavior
 Use Azure Kubernetes Service to deploy a sample application
 Monitor Dapr applications using Zipkin, Prometheus,

and GrafanaScale and load test Dapr applications on KubernetesWho this book is for This book is for developers looking to explore microservices architectures and implement them in Dapr applications using examples on Microsoft .NET Core. Whether you are new to microservices or have knowledge of this architectural approach and want to get hands-on experience in using Dapr, you'll find this book useful. Familiarity with .NET Core will help you to understand the C# samples and code snippets used in the book.

A Brief History of India UNC Press Books

Although he died in a tragic car accident at twenty-five, Clifford Brown is widely considered one of the most important figures in the history of jazz, a trumpet player who ranks with Louis Armstrong, Dizzy Gillespie, and Miles Davis, and a leading influence on contemporary jazz musicians. Now, in *Clifford Brown: The Life and Art of the Legendary Jazz Trumpeter*, Nick Catalano

gives us the first major biography of this musical giant. Based on extensive interviews with Clifford Brown's family, friends, and fellow jazz musicians, here is a fascinating portrait of a remarkable musician. Catalano depicts Brown's early life, showing how he developed a facility and dazzling technique that few jazz players have ever equaled. We read of his meteoric rise in Philadelphia, where he played with many of the leading jazz players of the 1950s, including Dizzy Gillespie and Charlie Parker; his tour of Europe with Lionel Hampton, which made him famous; and his formation of the Brown-Roach Quintet with prominent drummer Max Roach—one of the most popular hard bop combos of the day. Catalano also shows that Brown was a remarkable individual—he grew up in a middle-class African-American home in Wilmington, Delaware, attended college, was a skilled mathematician, and had wide cultural interests. Moreover, in an era when most jazz players were either alcoholics or addicts, Brown was clean-living and drug free. Indeed, he became a role model for musicians who were struggling with drugs and had great influence in this area with one prominent colleague, tenor sax player Sonny Rollins. Clifford Brown not only provides a colorful account of Brown's life, but also features an informed analysis of his major recorded solos, highlighting Brown's originality and revealing why he remains a great influence on trumpet players today. It is a book that anyone with a serious interest in jazz will want to own.

Kumba Africa Clarkson Potter

'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some

uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.
