BALL GIOVANNY

Straw Dogs Macmillan

The author of *Straw Dogs*, famous for his provocative critiques of scientific hubris and the delusions of progress and humanism, turns his attention to cats—and what they reveal about humans' torturous relationship to the world and to themselves. The history of philosophy has been a predictably tragic or comical succession of palliatives for human disquiet. Thinkers from Spinoza to Berdyaev have pursued the perennial questions of how to be happy, how to be

good, how to be loved, and how to live in a world of change and loss. But perhaps we can learn more from cats--the animal that has most captured our imagination--than from the great thinkers of the world. In *Feline Philosophy*, the philosopher John Gray discovers in cats a way of living that is unburdened by anxiety and self-consciousness, showing how they embody answers to the big questions of love and attachment, mortality, morality, and the Self: Montaigne's house cat, whose unexamined life may have been the one worth living; Meo, the Vietnam War survivor with an unshakable capacity for "fearless joy"; and Colette's Saha, the feline heroine of her subversive short story "The Cat", a parable about the pitfalls of

human jealousy. Exploring the nature of cats, and what we can learn from it, Gray offers a profound, thought-provoking meditation on the follies of human exceptionalism and our fundamentally vulnerable and lonely condition. He charts a path toward a life without illusions and delusions, revealing how we can endure both crisis and transformation, and adapt to a changed scene, as cats have always done.

Free Will Vintage

Compared with that of humans, the life of the marionette looks more like an enviable state of freedom In his brilliantly enjoyable and freewheeling new book, John Gray draws together the religious, philosophic, and fantastical traditions that question the

very idea of human freedom. We flatter ourselves about the nature of free will and yet the most enormous forces—logical, physical, metaphysical—constrain our every action. Many writers and intellectuals have always understood this, but instead of embracing our condition we battle against it, with everyone from world conquerors to modern scientists dreaming of a "human dominion" almost comically at odds with our true state. Filled with wonderful examples and drawing on the widest possible reading (from the Gnostics to Philip K. Dick), *The Soul of the Marionette* is a stimulating and engaging meditation on everything from cybernetics to the fairground marionettes of the title.  Doll Bones meets Splendors and Glooms as a boy who trades bodies with a wooden marionette. . . . The Museum of Peculiar Arts holds many oddities--a mechanical heart, a diary bound in its owner's skin . . . and Penny, a child-size marionette who almost looks alive. Fog clouds Penny's memories from before the museum, but she catches glimpses here and there: a stage, deep red curtains, long-fingered

hands gripping her strings. One day, a boy named Chance touches Penny's strings and hears her voice in his head. Penny can listen, and watch, and think? Now someone else is watching Penny and Chance--a man with a sharp face, a puppeteer who has the tools to change things. A string through a needle. A twist of a spindle. And suddenly Chance is trapped in Penny's marionette body, while Penny is free to run and dance. She knows that finding a way to switch back is the right thing to do. But this body feels so wonderful, so full of life! How can Penny ever return to her puppet shell?

 Explains why the environmental crisis should lead to an abandonment of "free market" ideologies and current political systems, arguing that a massive reduction of greenhouse emissions may offer a best chance for correcting problems.
A Single Man Open Road Media
 For the decade that followed the end of the cold war, the world was lulled into a sense that a consumerist, globalized, peaceful future beckoned. The beginning of the twenty-first century has rudely

disposed of such ideas—most obviously through 9/11 and its aftermath. But just as damaging has been the rise in the West of a belief that a single model of political behavior will become a worldwide norm and that, if necessary, it will be enforced at gunpoint. In *Black Mass*, celebrated philosopher and critic John Gray explains how utopian ideals have taken on a dangerous significance in the hands of right-wing conservatives and religious zealots. He charts the history of utopianism, from the Reformation through the French Revolution and into the present. And most urgently, he describes how utopian politics have moved from the extremes of the political spectrum into mainstream politics, dominating the administrations of both George W. Bush and Tony Blair, and indeed coming to define the political center. Far from having shaken off discredited ideology, Gray suggests, we are more than ever in its clutches. *Black Mass* is a truly frightening and challenging work by one of Britain's leading political thinkers.

Dawn, *Two Faces of Liberalism*, hailed by the Los Angeles Times as "elegant and powerful," offers a thoughtful and provocative analysis of the liberal tradition in politics. John Gray, an eminent professor at the London School of Economics, "picks large and interesting topics and says arresting things about them," according to the New York Review of Books. *Two Faces of Liberalism* argues that, in its beginning, liberalism contained two contradictory philosophies of tolerance. In one, it put forward the enlightenment vision of a universal civilization. In the other, it framed terms for peaceful coexistence between warring communities and between different ways of life. In this major contribution to political theory, Gray's new book "takes us beyond the current debate" (The New York Times Book Review) of traditional liberalism to keep up with the complex political realities of today's increasingly divided world.

Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet

whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. Pinocchio, *The Tale of a Puppet* is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinocchio. It includes 40 illustrations.

By the author of the best-selling *Straw Dogs*, this book is a characteristically trenchant and unflinchingly clear-sighted

collection of reflections on our contemporary lot. Whether writing about the future of our species on this planet, the folly of our faith in technological progress, or the self-deceptions of the liberal establishment, John Gray dares to be heretical like few other thinkers today.

A. C. Grayling's lucid and stimulating books, based on the idea that philosophy should engage with the world and make itself useful, invariably cause discussion. *The Challenge of Things* joins earlier collections such as *The Reason of Things* and *Thinking of Answers*, collecting Grayling's recent writings on the world in a time of war and conflict. In describing and exposing the dark side of things, he also explores ways out of the habits and prejudices of mind that would otherwise trap us forever in the deadly impasses of conflicts of all kinds. Whether he is writing about the First World War and its legacy, free speech, the advantages of an atheist prime minister or the role of science in the arts, his essays are always enlightening, enlivening, and hopeful.

A Twenty Minute Silence Followed by Applause Picador

From the provocative author of *Straw Dogs* comes an incisive, surprising intervention in the political and scientific debate over religion and atheism. When you explore older atheisms, you will find that some of your firmest convictions—secular or religious—are highly questionable. If this prospect disturbs you, what you are looking for may be freedom from thought. For a generation now, public debate has been corroded by a shrill, narrow derision of religion in the name of an often vaguely understood "science." John Gray's stimulating and enjoyable new book, *Seven Types of Atheism*, describes the complex, dynamic world of older atheisms, a tradition that is, he writes, in many ways intertwined with and as rich as religion itself. Along a spectrum that ranges from the convictions of "God-haters" like the Marquis de Sade to the mysticism of Arthur Schopenhauer, from Bertrand Russell's search for truth in mathematics to secular political religions like Jacobinism and Nazism, Gray explores the various ways great minds have attempted to understand the questions of salvation, purpose, progress, and evil. The result is a book that sheds an

extraordinary light on what it is to be human.

“The essential public good that Margaret Thatcher, Tony Blair and now Cameron sell is not power stations, or trains, or hospitals. It’s the public itself. it’s us.” In a little over a generation the bones and sinews of the British economy – rail, energy, water, postal services, municipal housing – have been sold to remote, unaccountable private owners, often from overseas. In a series of brilliant portraits the award-winning novelist and journalist James Meek shows how Britain’s common wealth became private, and the impact it has had on us all: from the growing shortage of housing to spiralling energy bills. Meek explores the human stories behind the incremental privatization of the nation over the last three decades. He shows how, as our national assets are sold, ordinary citizens are handed over to private tax-gatherers, and the greatest burden of taxes shifts to the poorest. In the end, it is not only public enterprises that have become private property, but we ourselves. Urgent, powerfully written and deeply moving, this is a passionate

anatomy of the state of the nation: of what we have lost and what losing it cost us – the rent we must pay to exist on this private island.

Innocence (with bonus short story Wilderness) Simon and Schuster

Vast legions of gods, mages, humans, dragons and all manner of creatures play out the fate of the Malazan Empire in this first book in a major epic fantasy series from Steven Erikson. The Malazan Empire simmers with discontent, bled dry by interminable warfare, bitter infighting and bloody confrontations with the formidable Anomander Rake and his Tiste Andii, ancient and implacable sorcerers. Even the imperial legions, long inured to the bloodshed, yearn for some respite. Yet Empress Laseen's rule remains absolute, enforced by her dread Claw assassins. For Sergeant Whiskeyjack and his squad of Bridgeburners, and for Tattersail, surviving cadre mage of the Second Legion, the aftermath of the siege of Pale should have been a time to mourn the many dead. But Darujhistan, last of the Free Cities of Genabackis, yet holds out. It is to this ancient citadel that Laseen turns her predatory gaze. However, it would appear

that the Empire is not alone in this great game. Sinister, shadowbound forces are gathering as the gods themselves prepare to play their hand... Conceived and written on a panoramic scale, *Gardens of the Moon* is epic fantasy of the highest order-- an enthralling adventure by an outstanding new voice. Sam Harris, bestselling author of *THE END OF FAITH* takes on one of today's liveliest issues: whether or not we actually have free will.

The Marionettes Madim Larcy Literary Do we have free will? How can we know anything? What is justice? Why is there evil in the world? What is the source of truth? Is it possible for God not to exist? Can we really believe what we see? These are some of the questions that have intrigued the world's greatest thinkers over the ages. They are questions that make us think about the way we live, work, relate to each other, and see the world. In elegant and accessible prose, the

eminent philosopher Leszek Kolakowski explores the essence of these ideas and their ongoing relevance as he introduces us to the great figures of Western thought: from Socrates to St. Augustine, Descartes to Nietzsche, and beyond. Reflecting on the great issues that animate our lives—good and evil, truth and beauty, faith and the soul, free will and consciousness—*Why Is There Something Rather Than Nothing?* offers a guided tour of Western philosophy by one of the world's greatest living experts.

From the bestselling author of *The Boy Who Drew Monsters* and *The Stolen Child* comes a modern take on the Orpheus and Eurydice Myth—A Suspenseful tale of romance and enchantment In the Old City of Québec, Kay Harper falls in love with a puppet in the window of the Quatre Mains, a toy shop that is never open. She is spending her summer working as an acrobat with the cirque while her husband, Theo, is translating a biography of the pioneering photographer Eadweard Muybridge. Late one night, Kay fears someone is following her home. Surprised

to see that the lights of the toy shop are on and the door is open, she takes shelter inside. The next morning Theo wakes up to discover his wife is missing. Under police suspicion and frantic at her disappearance, he obsessively searches the streets of the Old City. Meanwhile, Kay has been transformed into a puppet, and is now a prisoner of the back room of the Quatre Mains, trapped with an odd assemblage of puppets from all over the world who can only come alive between the hours of midnight and dawn. The only way she can return to the human world is if Theo can find her and recognize her in her new form. So begins the dual odyssey of Keith Donohue's *The Motion of Puppets*: of a husband determined to find his wife, and of a woman trapped in a magical world where her life is not her own.

The award-winning, bestselling French novel by Philippe Besson—"the French *Brokeback Mountain*" (*Elle*)—about an affair between two teenage boys in 1984

France, translated with subtle beauty and haunting lyricism by the iconic and internationally acclaimed actress/writer Molly Ringwald. We drive at high speed along back roads, through woods, vineyards, and oat fields. The bike smells like gasoline and makes a lot of noise, and sometimes I'm frightened when the wheels slip on the gravel on the dirt road, but the only thing that matters is that I'm holding on to him, that I'm holding on to him outside. Just outside a hotel in Bordeaux, Philippe chances upon a young man who bears a striking resemblance to his first love. What follows is a look back at the relationship he's never forgotten, a hidden affair with a gorgeous boy named Thomas during their last year of high school. Without ever acknowledging they know each other in the halls, they steal time to meet in secret, carrying on a passionate, world-altering affair. Dazzlingly rendered in English by Ringwald in her first-ever translation, Besson's powerfully moving coming-of-age story captures the eroticism and tenderness of first love—and the heartbreaking passage of time.

From the author of *Straw Dogs*, John Gray's *Gray's Anatomy* is a pugnacious and brilliantly readable collection of essays from across his career. Why is progress a pernicious myth? Why do beliefs that humanity can be improved end in farce or horror? Is atheism a hangover from Christian faith? John Gray, one of the most iconoclastic thinkers of our time, smashes through civilization's most cherished beliefs, overturning our view of the world, and our place in it. 'The most prescient of British public intellectuals' Pankaj Mishra, *Financial Times* 'Gray has

consistently anticipated the shape of things to come ... he teaches us that true humanism is to be found in uncertainty and doubt' Will Self 'Gray's dissection of modern delusion, cant and wishful thinking is to be welcomed in this moment of convulsion ... This is a book to learn from and argue with' Ben Wilson, *Literary Review* 'A thoroughly enjoyable book ... These essays cover a remarkable range of topics, from Isaiah Berlin to Damien Hirst, from torture to environmentalism. But their unifying theme is that our naïve belief in the idea of progress has turned modern life into a constant round of

shadow-boxing' David Runciman, *Observer* 'Demolishes the theory that we have reached the "end of history", the dogmas of secular liberalism, the weaknesses of financial casino capitalism and the limits of energy-intensive economic growth' Economist John Gray is most recently the acclaimed author of *Straw Dogs: Thoughts on Humans and Other Animals*, *Heresies: Against Progress and Other Illusions*, *Al Qaeda and What It Means To Be Modern* and *Black Mass: Apocalyptic Religion and the Death of Utopia*.
