For the Northern mercenary called Blaise, it began with the death of a king and betrayal in the form of a peace treaty. Wandering in self-imposed exile, he would journey to the Kingdom of Arbonne, where the Court of Love made warriors bow to troubadours, and a well-sung ballad was valued as highly as a skillfully swung sword. But Arbonne was a troubled realm, torn by an ancient feud between its two most powerful dukes and coveted as a prize by the land in which Blaise himself had grown to manhood. And no one--except perhaps Arbonne's goddess--could foresee that one Northern mercenary might become the key to Arbonne's destiny....

Louisiana's bayous and their watersheds teem with cypress trees, alligators, crawfish, and many other life forms. From Bayou Tigre to Half Moon Bayou, these sluggish streams meander through lowlands, marshes, and even uplands to dominate the state's landscape. In

Bayou-Diversity, conservationist Kelby Ouchley reveals the bayou's intricate web of flora and fauna. Through a collection of essays about Louisiana's natural history, Ouchley details an amazing array of plants and animals found in the Bayou State. Baldcypress, orchids, feral hogs, eels, black bears, bald eagles, and cottonmouth snakes live in the well over a hundred bayous of the region. Collectively, Ouchley's vignettes portray vibrant and complex habitats. But human interaction with the bayou and our role in its survival, Ouchley argues, will determine the future of these intricate ecosystems. Bayou-Diversity narrates the story of the bayou one flower, one creature at a time, in turn illustrating the bigger picture of this treasured and troubled Louisiana landscape.

Award-winning author Guy Gavriel Kay evokes the dazzling Tang Dynasty of 8th-century China in an masterful story

of honor and power. It begins simply. Shen Tai, son of an illustrious general serving the Emperor of Kitai, has spent two years honoring the memory of his late father by burying the bones of the dead from both armies at the site of one of his father's last great battles. In recognition of his labors and his filial piety, an unlikely source has sent him a dangerous gift: 250 Sardinian horses. You give a man one of the famed Sardinian horses to reward him greatly. You give him four or five to exalt him above his fellows, propel him towards rank, and earn him jealousy, possibly mortal jealousy. Two hundred and fifty is an unthinkable gift, a gift to overwhelm an emperor. Wisely, the gift comes with the stipulation that Tai must claim the horses in person. Otherwise he would probably be dead already...

Before Guy Gavriel Kay became known for his groundbreaking works of speculative fiction, establishing himself as one of the world's most respected writers in that genre, he was an accomplished poet, his work appearing in major literary journals such as *The Antigonish Review* and *Prism*. Through the years, while writing his dramatic international bestsellers, Kay has continued to quietly explore the paths and boundaries of poetry as well. Now for the first time, Guy Gavriel Kay's poetry has been gathered and selected for publication. For those familiar with his fiction, the poems in *Beyond This Dark House* will resonate for their linguistic and emotional nuances and their mythological allusions, echoing and illuminating themes of his fiction. But readers of contemporary poetry will also be captivated by the exquisite craft and power of these poems. Some are ironic and austere, slyly tracing the interplay of writer and world, present and past; others are sensual, even erotic, charting the mercurial but abiding nature of passion-in love, in language, in history. The second book in a seafaring fantasy trilogy that George R. R. Martin has described as "even better than the *Farseer Trilogy*—I didn't think that was possible." As the ancient tradition of Bingtown's Old Traders slowly erodes under the cold new order of a corrupt ruler, the Vestrits anxiously await the return of their liveship—a rare magic ship carved from sentient wizardwood, which bonds the ships mystically with those who sail them. And Althea Vestrit waits even more avidly, living only to reclaim the ship as her lost inheritance

and captain her on the high seas. But the *Vivacia* has been seized by the ruthless pirate captain Kennit, who holds Althea's nephew and his father hostage. Althea and her onetime sea mate Brashen resolve to liberate the liveship—but their plan may prove more dangerous than leaving the *Vivacia* in Kennit's ambitious grasp. In this science-based book, registered dietitian Abby Langer tackles head-on the negative effects of diet culture and offers advice to help you enjoy food and lose weight without guilt or shame. There are so many diets out there, but what if you want to eat well and lose weight without dieting, counting, or

restricting? What if you want to love your body, not punish it? Registered dietitian Abby Langer is here to help. In her first-ever book, Abby takes on our obsession with being thin and the diets that are sucking the life, sometimes literally, out of us. For the past twenty years, she has worked with clients from all walks of life to free them from restrictive diets and help them heal their relationship with food. Because all food is good for us—yes, even carbs and fats. All diets are bad. Diets are like Band-Aids for what's really bothering us: Although we might lose weight, they prey on our insecurities, rob us of time and money, and often leave us with the same negative views of food and our bodies that we've always had. When the weight comes back, we still haven't solved the real issues behind our eating habits—our "why." This book is different. Chapter by chapter, Abby helps readers uncover the "why" behind their desire to lose weight and their relationship with food, and make lasting, meaningful change to the way they see food, nutrition, themselves, and the world around them. In this book, you'll learn how guilt and shame affect your food choices, how fullness and satisfaction aren't the same feeling, why it's important to quiet your "diet voice" and enjoy food, and what the best way to eat is according to science. Empowering, inclusive, smart, and a must-have, *Good Food, Bad Diet* will give you the tools to reject diets, repair your relationship with food, and lose weight so you can move on with your life.

This ambitious study sets out to discover what marriage meant in the daily lives of the nobles of the tenth, eleventh, and twelfth centuries. Through entertaining anecdotes, family dramas, and striking quotations, Duby succeeds in bringing his subjects to life, making us feel as if we understand the motives and conflicts of those who inhabited the distant past. "It is typical of Duby's modest spirit and his book-long concern with the ancient status of beleaguered wives that he ends his study with a plea: 'We must not forget the women. Much has already been said about them. But how much do we really know?' Not everything, certainly, but far more than we did before the author began these charmingly erudite investigations."—Ken Turan, *Time* "It is refreshing to find a historian who is always conscious that we simply do not know what or how people thought 1000 years ago. . . . Duby explains the complicated machinations of the medieval churchman and the paterfamilias in a scholarly but lively style."—Sarah Lawson, *New Statesman* "Duby has written an extraordinarily rich book—a panoramic view of medieval marriage and the relations between men and women, full of arresting insights and human detail. . . . It is the work of a master historian at the peak of his powers on a subject of central relevance, compulsive and essential reading."—P. Stafford, *British History* Georges Duby (1919-1996) was a member of the Académie française and for many years held the distinguished chair in medieval history at the Collège de France. Created by the expert hosts of the popular Well-Fed Women Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality—not the quantity—of the food they eat. To eat your way to better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat—not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet books, calorie counters, and scales, and started eating their way to health. In *Coconuts and Kettlebells*, you'll eat at least 2,000 calories a day thanks to a delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is

full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four foods—grains, dairy, vegetable oils, and refined sugar—that cause the most health problems among women. While many diets require you to eliminate these foods entirely, *Coconuts and Kettlebells* provides an easy-to-follow step-by-step program to test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for the Butter Lover (people who tend to feel more satisfied eating higher ratios of fats) and one for the Bread Lover (people who tend to feel more satisfied eating higher ratios of carbs). Each meal plan comes with a weekly shopping list, a guide to kitchen tools and equipment, and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness plans tailored to three experience levels: beginner, intermediate, and advanced. All of the workouts can be done anywhere—at your home or on the road—and take no more than thirty minutes. A comprehensive whole body program to get and keep you healthy inside and out, *Coconuts and Kettlebells* provides the

knowledge and tools you need to heal in a way that is effortless, rewarding, confidence-boosting, and everlasting. *Coconuts and Kettlebells* is illustrated with color photos throughout.

Award-winning author Guy Gavriel’s sixth novel, hauntingly evocative of medieval Spain, is both a brilliant adventure and a moving story of love, divided loyalties, and what happens to men and women when hardening beliefs begin to remake -- or destroy -- a world. The ruling Asharites have come from the desert sands, worshipping the stars, their warrior blood fierce and pure. But over centuries, seduced by the sensuous pleasures of their new land, that stern piety has eroded. The Asharites empire has splintered into decadent city-states lead by warring petty kinds. King Almalik of Cartada is on the ascendancy, adding city after city to his realm, even though Cartada is threatened by forces both within and without. Almalik is aided by his friend and advisor, the notorious Ammar ibn Khairan -- poet, diplomat, soldier -- until a summer afternoon of savage brutality changes their relationship forever. Meanwhile, in the north, the Jaddite’s most celebrated -- and feared -- military leader, Rodrigo Belmonte, is driven into exile in the wake of events following the death of the king he loved. Rodrigo leads his mercenary company south, to the dangerous lands of Al-Rassan. In the

exquisite lakeside city of Ragosa, Rodrigo Belmonte and Ammar ibn Kharian meet and serve -- for a time -- the same master. Sharing the interwoven fate of these two men from different worlds -- and increasingly torn in her feelings -- is Jehane, the beautiful, accomplished court physician, whose own skills play an increasing role as Al-Rassan is swept to the brink of holy war, and beyond.

Some of the most portentous events in medieval history—the Cathar crusade, the persecution and mass burnings of heretics, the papal inquisition—fall between 1000 and 1250, when the Catholic Church confronted the threat of heresy with force. Moore's narrative focuses on the motives and anxieties of elites who waged war on heresy for political gain.
