The British country house has long been regarded as the jewel in the nation's heritage crown. But the country house is also an expression of wealth and power, and as scholars reconsider the nation's colonial past, new questions are being posed about these great houses and their links to Atlantic slavery. This book, authored by a range of academics and heritage professionals, grew out of a 2009 conference on 'Slavery and the British Country house: mapping the current research' organised by English Heritage in partnership with the University of the West of England, the National Trust and the Economic History Society. It asks what links might be established between the wealth derived from slavery and the British country house and what implications such links should have for the way such properties are represented to the public today. Lavishly illustrated and based on the latest scholarship, this wide-ranging and innovative volume provides in-depth examinations of individual houses, regional studies and critical reconsiderations of existing heritage sites, including two studies specially commissioned by English Heritage and one sponsored by the National Trust.

The Journey's Hmh School

Our proven Spectrum Science grade 6 workbook features 176 pages of

fundamentals in science learning.

Developed to current national science standards, covering all aspects of sixth grade science education. This workbook for children ages 11 to 12 includes exercises that reinforce science skills across the different science areas. Science skills include: • Observational Science • Atomic Structure • Heredity • Earth's History • Space Technology • Natural Hazards • Cultural Contributions to Science Our best-selling Spectrum Science series features age-appropriate workbooks for grade 3 to grade 8. Developed with the latest standards-based teaching methods that provide targeted practice in science fundamentals to ensure successful learning!

Science Grade 6 Historic England Publishing

Cupcakes and Courage is a memoir about women, politics and Ohio. In 2006 Jennifer Brunner was elected Ohio's first and only woman Secretary of State where no woman has yet been elected Governor or U.S. Senator. Brunner speaks to her experiences in public and private life-from death threats and 24-hour guards during the 2008 presidential election to receiving the prestigious John F. Kennedy Profile in Courage Award for her work. In a tough U.S. Senate race in 2010 she fought the conventional political establishment with cupcake parties and a silver school bus bought on eBay named by her supporters, "The Courage Express." Brunner's compelling stories offer an inside look at the human side of state and national politics in the must-win battleground state of Ohio. Like the cherry on top, her stories make a quiet and poignant case for better politics in U.S. democracy in the twenty-first century.

The Goat in the Rug HARCOURT

Part of the History-social science series created to follow the California standards and framework, providing stories of important people, places, geography, and events.

Harcourt Science Harcourt School Publishers

Geraldine, a goat, describes each step as she and her Navajo friend make a rug, from the hair clipping and carding to the dyeing and actual weaving.

Textbook of Pediatric Infectious Diseases Harcourt School Publishers
