"A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious."
—The New York Times
Years ago, when House of Leaves was first being passed

around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the

book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices.

The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility,

until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams. **Single-Camera Video Production** Penguin Shoot, Edit, Share is an interactive, accessible

introduction to video production techniques, concepts, and terminology. With the increasing availability of affordable video equipment, many students and professionals need to learn the basics of video production without being overwhelmed by technical details and equipment lists. Covering preproduction, production, editing in post, and distribution, this book shows you

how to produce video quickly and effectively for a range of clients, from commercial firms to community service organizations. Key features include: A companion website including video interviews with professionals that demonstrate and reinforce techniques covered in the book; Service-learning exercises that engage readers in real-world learning

experiences, encouraging them to interact with their communities and new clients; Clear, easy to follow and heavily illustrated guides for all of the equipment and processes that go into video production; Focus on creating stories for a target audience, and building convincing and engrossing narrative through videos; A thorough breakdown of

all the techniques needed in post-production, through editing, well-designed graphics, and quality sound; A best-practices guide to viral videos, sharing video content online and increasing its exposure on social media sites; QR codes throughout the book, that when scanned, demonstrate video techniques and concepts related to what was read.

storytelling seminars, then you need his book! Now in full color for the first time, this best-seller offers a clear view of the relationship between the story/script structure and the visual structure of a film, video, animated piece, or video game. The Cutting Begins Taylor & Francis "Mr. Jurgenson makes a first sortie toward a new understanding of the photograph, wherein artistry or documentary intent have given way to communication and circulation. Like Susan Sontag's On Photography, to which it self-consciously

responds, The Social Photo is slim, hard-bitten and picture-free." - New York Times A set of bold theoretical reflections on how the social photo has remade our world. With the rise of the smart phone and social media, cameras have become ubiquitous, infiltrating nearly every aspect of social life. The glowing camera screen is the lens through which many of us seek to communicate

our experience. But our thinking about photography has been slow to catch-up; this major fixture of everyday life is still often treated in the terms of art or journalism. In *The Social Photo*, social theorist Nathan Jurgenson develops bold new ways of understanding photography in the age of social media and the new kinds of images that have emerged: the selfie, the faux-vintage

photo, the self-destructing image, the food photo. Jurgenson shows how these devices and platforms have remade the world and our understanding of ourselves within it. *The Filmmaker's Eye* Renard Press Ltd Motion Picture and Video Lighting, Second Edition, is your indispensable guide to film and video lighting. The Way of Shadows CRC Press

Lynne Truss's 'Eats, Shoots and Leaves' injected new life into the long-standing

arguments over rights and wrongs in English usage. Now David Crystal brings together his own distinctive style and unique expertise to provide the first thorough-going assessment of the ongoing debate. With a lively, humorous, and accessible approach, Crystal charts the battles past and present, illustrating the characters and attitudes involved from a wide range of written

sources. He combines a chronological survey of key influences in the area of usage with discussion of particular themes such as punctuation, spelling, and pronunciation. And he looks ahead to the future in the context of recent education policy shifts. A positive and compelling case is made for variation in usage of English based on appropriateness of situation, arguing that 'zero

tolerance' in relation to language is a profoundly flawed approach. Crystal offers an original and authoritative counter-argument to the prescriptivist agenda that has been expounded in many accounts of English usage over the years. The Fight for English is the book that everyone concerned with English usage has been eagerly awaiting. **Grammar of**
