Recent Reforms in Indian Education Nelson Thornes

Covers the Biology syllabus for Victoria and New South Wales. Provides exercises and activities for each topic. Answers are provided in a separate volume. Suggested level: senior secondary.

Methods Of Teaching Science Springer Science & Business Media

Researchers who participate in IEA studies have a unique opportunity to work collaboratively with their counterparts from many different countries and disciplinary backgrounds over a period of

several years on questions of shared academic interest. Once the data for a given study have been collected and the first round of international reports published, however, opportunities for that kind of collaboration tend to be much less frequent. A major strength of IEA studies compared to other large-scale, international studies is that they are classroom based, thereby making it possible for researchers and policy makers to investigate linkages between students' achievement and a wide range of variables. Those variables could be related to instructional practices, to students' and teachers' background and attitudes, to school organizational patterns, or to opportunity to learn, to name a few. The research questions that TIMSS was designed to address make it clear that these kinds of relational, multi-variate analyses were among the major goals of the project. The international reports of the TIMSS-95 results that were published by the International Study Center at Boston College between 1996 and 1999 were intended to provide comprehensive coverage of the basic findings of the study. They were not intended to provide

in-depth analyses of research and policy issues; instead, their main purpose was to make the basic findings of the study widely available in a timely manner. This they certainly did.

2 Unit Biology Higher School Certificate Examination Paper and Answers 1999
Discovery Publishing House

Student-centred resource providing classroom activities, homework, revision and consolidation of the Year 12 biology syllabus. Suggested level: senior secondary.

Chemistry for Senior Secondary Schools Frank Brothers
