A Commentary on President Marcos' Independence Day Speech, June 12, 1974 University of Illinois Press

Success in any walk of life is hard to achieve in this razor-edged highly competitive age. Besides knowledge; one has to be well versed in the art of forceful communication; an essential pre-requisite of a qualified man; lack of which renders him unfit for

high posts in any sector. Participation in debating activities makes a man forceful communicator. Debating is an art and it can be mastered and developed by constant practice. Fluency in speech enables a man to express views effectively and convincingly. Debates are nowadays a regular feature in schools and colleges. Pupils are assigned debatable statements to argue either in favour or against the motion on occasions like Independence Day or Republic Day. Often inter-school competitions are organized on such eves and the best debater is conferred with prizes. In competitive as well as school tests; examinees are asked to put forward their pros and cons views against a debatable statement. The dearth of books on debatable topics is being felt seriously which could cater to the needs of participants. Most of the participants exhibit no interest due to lack of guidance and sufficient materials and prefer to remain mute spectators in the debating hall. Here relevant topics of general interests have been compiled and presented both ways—positively and negatively with a view to provide feedback to young debaters.

Cherry Lake Bachelor Thesis from the year 2015 in the subject American Studies - Culture and Applied Geography, grade: 1,3, University of Kassel, language: English, abstract: The aim of this work is to analyse the meanings and functions of Independence Day which shapes American identity. For an integral analysis two important aspects have to be considered: socio-political circumstances and the techniques used for generating national identity. In the beginning the concept of national identity will be discussed and the terms nation and identity defined. Therefore, the work draws on Benedict Anderson's theory of imagined communities in order to establish a general understanding of nations. Patrick Colm Hogan's techniques of nationalization provide the basis for the

final analysis. After conceptualizing the major elements for the analysis, the author analyses Americas oldest holiday, Independence Day. In the course of the analysis, both socio-political developments and Hogan's techniques of nationalization will be identified in order to show how Independence Day celebrations generate and shape American identity. Independence Day is America's most important national holiday since it commemorates the birth of the United States of America. The holiday solemnizes the ratification of the Declaration of Independence and the foundation of the United States of America. But the Fourth of July encompasses more meanings than commonly assumed. Since its emergence, Independence Day has been instrumentalized for generating national identity and articulating social and ethnic issues. Down to the present day, the Fourth of July has accomplished important functions that established, defined, and shaped American identity.

In Pole Raising and Speech Making, author Jennifer Eastman Attebery focuses on the beginnings of the traditional Scandinavian Midsummer celebration and the surrounding spring-to-summer seasonal festivities in the Rocky Mountain West during the height of Swedish immigration to the area—1880-1917. Combining research in folkloristics and history, Attebery explores various ways that immigrants blended traditional Swedish

Midsummer-related celebrations with local civic celebrations of American Independence Day on July 4 and the Mormons' Pioneer Day on July 24. Functioning as multimodal observances with multiple meanings, these holidays represent and reconsider ethnicity and panethnicity, sacred and secular relationships, and the rural and the urban, demonstrating how flexible and complex traditional celebrations can be. Providing a wealth of detail and information surrounding little-studied celebrations and valuable archival and published primary sources—diaries, letters, speeches, newspaper reports, and images—Pole Raising and Speech Making is proof that non-English immigrant culture must be included when discussing “American” culture. It will be of interest to scholars and graduate students in ethnic studies, folklore, ritual and festival studies, and Scandinavian American cultural history.

As a high school teacher of government and AP Us history, I found it compelling to prepare my students to be an educated electorate. In many cases, students did not go on to college, and this was the last opportunity I had as a teacher to inform them about the workings of the federal and state government. As a high school teacher of government and AP Us history, I found it compelling to prepare my students to be an educated electorate. In many cases, students did not go on to college, and this was the last opportunity I had as a teacher to inform them about the workings of the federal and state government. Several students were instrumental in creating an atmosphere of challenge and the desire to be more knowledgeable. As a result, I formulated a pretest that became the citizenship Test for my high school students in government. Since it is required in most high schools across the nation, other teachers might find this a good guidebook. That citizenship test and the student responses are the basis for this book, which I hope the readers will find enlightening and educational. This is my attempt to educate the electorate about basic information that every citizen should know

about their government and maybe encourage them to want to know more.

Unfinished Nation traces the evolution of Indonesia from its anti-colonial stirrings in the early twentieth century to the lengthy, and eventually victorious, struggle against the dictatorship of President Suharto. In clarifying the often misunderstood political changes that took place in Indonesia at the end of the twentieth century, Max Lane traces how small resistance groups inside Indonesia directed massive political transformation. He shows how the real heroes were the Indonesian workers and peasants, whose sustained mass direct action was the determining force in toppling one of the most enduring dictatorships of modern times. Taking in the role of political Islam, and with considerations on the future of this fragmented country, Unfinished Nation is an illuminating account of modern Indonesian history.

“Where did this happen?” the inspector asked. “We went for a walk outside our hotel and then after a few minutes, I saw a crowd of people surrounding Mr. Ozlan who was lying dead on the ground. I went inside the crowd to see him and when I came back, I could not find my wife there” Ramsay replied. “Mr. Ozlan? Which Mr. Ozlan?” the inspector asked. “Mr. Ozlan, the doctor, who jumped from his roof and died yesterday” Ramsay promptly replied. “Have you gone mad? Mr. Ozlan, the doctor, had died 5 years ago. Do you know the truth of Ramsay, his wife and Ozlan? The truth is here in this book and there are multiple layers of truth and each truth will open a closed chapter of your life.

Josip Broz Tito was a remarkable figure in the history of Communism, the Second World War, the Balkans and post-war Eastern Europe. He was the only European besides Lenin to lead a successful Communist revolution and became one of the most renowned Communist leaders of all time. For a certain generation, he was remembered as someone who stood up to both Hitler and Stalin - and won. Tito was above all else a communist, and was devoted to the communist cause until the day he died. What made him different from other communist leaders was that his early experience of Soviet Russia had given him sufficient knowledge of the Soviet experiment to be wary of its spell. In this, the first post-communist biography of Tito, the acclaimed historian Geoffrey Swain paints a new picture of this famous figure, focusing primarily on his Communist years. It will be essential reading for anyone interested in Communist and Eastern European history.

High School Students Tackle Citizenship Test Ferron Olson

Following India’s general election in May 2009, this book undertakes a critical evaluation of the performance of the United Progressive Alliance (UPA). It presents a thorough analysis of the UPA coalition government, and by providing an understanding of the new innovations in the UPA’s policies, the book goes on to evaluate the effectiveness of these policies against their aims and objectives. This book suggests that there is an analytical framework for assessing the political consequences of the policies and the UPA’s success, both at the national and state levels, with particular reference to new policies in governance, secularism and security. These three areas constitute important fault lines between the main national political parties in India, and provide an interesting point of departure to explore the new emerging trends, as well as the strong underlying continuities between the

UPA administration and its predecessors. The book offers new insights into the structure of Indian politics, and is a useful contribution to studies in South Asian Politics, Governance and Political Parties.

Haven’t read anything positive about the United States of America lately? Can hardly remember exactly why we fought all those wars or what that is worthwhile came out of them? The author of this book of 12 speeches and several essays was the invited speaker in those difficult Sixties and Seventies on Independence Day, Naturalization Day, Memorial Day, and Veterans Day at gatherings in Southern Oregon. There he spoke from the heart (and his years of historical training) to the matter of our wars and their reasons for being waged. Large audiences and small alike stood or sat while Vaughn Davis Bornet delivered short orations that speak directly to sensitive matters. In the Country and around the World at the time there grew to be muttering and questioning; many “tuned out” or “dropped out” as the drug culture and draft resistance moved in on the spirit that had won World War II and earlier World War I. The Rogue River Valley is a place of small towns; the locale is just north of California, in the mountains, but Ashland, Medford, and the smaller places are in valleys where old values continue to be honored in ceremonies that honor our service personnel year after year. This book, whose prose is in most cases forty years old, returns readers to an older time. It does so without apology, for the author admits from the very beginning to being “patriotic.” His essay/speeches are, in a word no longer in general use, patriotisms. The author’s publications and bio appear on pages 150-153. Since most of the words in this book were created to be spoken aloud, why not read a few paragraphs or pages to a friend or relative?
