ALEXIS MELENDEZ

Ordering Information | SimBio Darwinian Snail Lab Simbio Grossmont This lab and accompanying workbook lead students through simulated experiments investigate the assumptions behind natural selection using an experimental system involving green crabs preying on periwinkle snail. Students are able to "violate" each assumption in turn to explore whether evolution by natural selection still occurs. Exercises target common misconceptions among Darwinian Snails | SimBio A note to students. You cannot submit an order through this website. Please contact your instructor for information about purchasing materials, or use our SimUText Student Help Center to find the information you need, including how to access course materials. Ordering Information | SimBio Select labs and/or chapters for your class using our free evaluation software. Use THIS FORM to send SimBio your course name and number, start-date, expected enrollment, and your module selections. After confirming pricing with you, we will build your SimUText and send you a custom registration link to pass to your students. Ordering Information: College | SimBio Lab (Tutorial): Darwinian Snails This tutorial-style lab investigates the requirements for evolution by natural selection using an engaging simulation of crab predation on snails. Students are able to manipulate the snail population to sequentially "turn off" variation, heritability, and differential survival based on shell thickness to investigate the importance of each of these factors. EvoBeaker | SimBio The Darwinian snails lab in EvoBeaker™ went great.
