It is our hope that this volume will serve to document both the history of the Collegium Phaenomenologicum during its first ten years as well as some of the philosophical work that has grown out of the annual gatherings in Perugia. The Introduction narrates the history and is

supplemented by the Appendices, in which the programs and the participants for each of the ten years are listed. The essays, on the other hand, present in more finished form work that was developed in connection with courses, lectures, or seminars conducted during the first ten years of the Collegium. Giuseppina Moneta John Sallis Jacques Taminiaux Introduction The Collegium Phaenomenologicum in Its First Ten Years GIUSEPPINA C. MONETA The idea of the Collegium Phaenomenologicum first took shape in a conversation that I had with Werner Marx at his home in Bollschweil in the Spring of 1975. Previously I had thought of the possibility of a gathering of phenomenologists somewhere in Italy during the summer months. And when I explained

to Werner Marx that it would not be difficult to find accommodation for such a gathering in a Franciscan monastery in Umbria, he responded enthusiastically and assured me that such a project would have the support of the Husserl Archives in Leuven and in Freiburg.

This volume brings together key findings of the long-term research project 'Religious Individualisation in Historical Perspective' (Max Weber Centre for Advanced Cultural and Social Studies, Erfurt University). Combining a wide range of disciplinary approaches, methods and theories, the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different

religious environments and historical periods, in particular in Asia, the Mediterranean, and Europe from antiquity to the recent past. Contrary to standard theories of modernisation, which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon, the chapters reveal processes of religious individualisation in a large variety of non-Western and pre-modern scenarios. Furthermore, the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency, the pluralisation of religious options, dynamics of de-traditionalisation and privatisation, the development of

elaborated notions of the self, the facilitation of religious deviance, and on the notion of dividuality.

English is the language of science today. No matter which languages you know, if you want your work seen, studied, and cited, you need to publish in English. But that hasn't always been the case.

Though there was a time when Latin dominated the field, for centuries science has been a polyglot enterprise, conducted in a number of languages whose importance waxed and waned over time—until the rise of English in the twentieth century. So how did we get

from there to here? How did French, German, Latin, Russian, and even Esperanto give way to English? And what can we reconstruct of the experience of doing science in the polyglot past? With *Scientific Babel*, Michael D. Gordin resurrects that lost world, in part through an ingenious mechanism: the pages of his highly readable narrative account teem with footnotes—not offering background information, but presenting quoted material in its original language. The result is stunning: as we read about the rise and fall of languages, driven by politics, war, economics, and institutions, we actually see it happen in the ever-changing web of multilingual examples. The history of science, and of English as its dominant language, comes to life, and brings with it a new

understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices, but also of the possibilities of the polyglot, and the losses that the dominance of English entails. Few historians of science write as well as Gordin, and *Scientific Babel* reveals his incredible command of the literature, language, and intellectual essence of science past and present. No reader who takes this linguistic journey with him will be disappointed.

A man goes in search of the Roman poet  
Ovid, banished to the end of the world.  
He finds that Ovid's personality and  
stories have undergone a sea-change,  
and have fragmented themselves into  
lots of clues - people, bizarre events, odd  
stretches of landscape, and a story  
emerges.

"Quintus Caecilius Metellus Celer, a  
relative of Decius and his family and the  
head of a powerful political clan, has  
been poisoned, and his infamous wife  
Clodia is immediately suspected of  
disposing of her rather inconvenient

husband. Not entirely convinced of  
Clodia's guilt, Decius delves into the  
intricacies of Rome's ruling class and  
discovers that a clandestine, forbidden  
witches' cult is inextricably intertwined  
with some very highborn people. A trial  
for Clodia would be most unwelcome, as  
it could bring to light some well-kept  
secrets. To get to the bottom of the  
corruption that accompanies the  
intoxicating allure of this ancient city,  
Decius must form an uneasy alliance  
with Clodius, Clodia's brother and his  
sworn enemy, and be extremely careful  
not to step on any toes."--BOOK JACKET.

"A delightful mix of grammar and growth, words and wonder." – The Washington Post An entertaining exploration of the richness and relevance of the Latin language and literature, and an inspiring account of finding renewed purpose through

learning something new and challenging. After thirty-five years as a book editor in New York City, Ann Patty stopped working and moved to the country. Bored, aimless, and lost in the woods, she hoped to challenge her restless, word-loving brain by beginning a serious study of Latin at local colleges. As she begins to make sense of Latin grammar and syntax, her studies open unexpected windows into her own life. The louche poetry of Catullus calls up her early days in 1970s New York, Lucretius elucidates her intractable drivenness and her attraction to Buddhism, while Ovid's verse conjures a delightful dimension to the flora and fauna that surround her. Women in Roman history, and an ancient tomb inscription give her new understanding

and empathy for her tragic, long deceased mother. Finally, Virgil reconciles her to her new life—no longer an urban exile, but a rustic scholar, writer and teacher. Along the way, she meets an impassioned cast of characters: professors, students and classicists outside of academia who keep Latin very much alive. Written with humor, heart, and an infectious enthusiasm for words, Patty's book is an object lesson in how learning and literature can transform the past and lead to an unexpected future.

The mother tongue of the Roman Empire and the lingua franca of the West for centuries afterward, Latin survives today primarily in classrooms and texts. Yet this "dead language" is unique in the influence it has exerted across centuries and continents. Juergen Leonhardt offers the story of the first "world language," from antiquity to the present.

**A Journey Called Home** Frontiers Media SA

In recent years we have witnessed a

growing interest in multilingualism and its relationship with the learning and teaching of second/foreign languages. However, multilingualism is a highly complex phenomenon, which has a direct influence on how we learn languages. For instance, do we learn a second/foreign language in a similar way in a multilingual context as in a monolingual one? What is the role of the other languages spoken in the community? Do contrasting learning contexts, like CLIL or studying abroad, produce different results? Can positive emotions such as foreign language enjoyment have an active role in the foreign language learning process? These and other topics will be discussed in this book, with the aim of understanding multilingualism, how

languages are learned and how to teach them better. This book was originally

published as a special issue of the International Journal of Multilingualism.
