CARLA WILLIS

Land, People, Nation

Holt Rinehart & Winston
Every chapter begins with a set of theme statements which are drawn from broad themes central to American history: geography, economics, government, citizenship, culture, science, technology, constitutional heritage and global relations. Throughout the book the student will be asked to think critically about the events and issues that have shaped American history.

Longman Phrasal Verbs Dictionary Prentice Hall
For a century and a half,

Abraham Lincoln's signing of the Emancipation Proclamation has been the dominant narrative of African American freedom in the Civil War era. However, David Williams suggests that this portrayal marginalizes the role that African American slaves played in freeing themselves. At the Civil War's outset, Lincoln made clear his intent was to save the Union rather than free slaves - despite his personal distaste for slavery, he claimed no authority to interfere with the institution. By the second year of the war, though, when the Union army was in desperate need of black support, former slaves who escaped to Union lines

struck a bargain: they would fight for the Union only if they were granted their freedom. Williams importantly demonstrates that freedom was not simply the absence of slavery but rather a dynamic process enacted by self-emancipated African American refugees, which compelled Lincoln to modify his war aims and place black freedom at the center of his wartime policies.

The American Nation
Cambridge University Press

In this important book, Nicholas Hartlep and Daniel Scott's detailed analyses on both visual and historical representations of Asian

Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans. As Hartlep and Scott write. Asian Americans have once again been constructed as the “good minority” that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality. Over and over again, the media has been telling “a single story” about Asian Americans to the public for the past fifty years. The consequence of this fabricated story is that it “discourages others—even Asian-Americans themselves—from believing in the validity of their struggles” (Linshi, 2014, p. 1).

the American Nation

Westminster John Knox Press

Are we now, or have we ever been, a nation? As this century comes to a close, debates over immigration policy, racial preferences, and multiculturalism challenge the consensus that formerly grounded our

national culture. The question of our national identity is as urgent as it has ever been in our history. Is our society disintegrating into a collection of separate ethnic enclaves, or is there a way that we can forge a coherent, unified identity as we enter the 21st century? In this “marvelously written, wide-ranging and thought-provoking” book, Michael Lind provides a comprehensive revisionist view of the American past and offers a concrete proposal for nation-building reforms to strengthen the American future. He shows that the forces of nationalism and the ideal of a trans-racial melting pot need not be in conflict with each other, and he provides a practical agenda for a liberal nationalist revolution that would combine a new color-blind liberalism in civil rights with practical measures for reducing class-based barriers to racial integration. A stimulating critique of every kind of orthodox opinion as well as a vision of a new “Trans-American” majority, *The Next American Nation* may forever change the way we think and talk about American identity. *New

Betting on America

Human Kinetics

This edition was developed specifically for courses covering up to the Civil War or Reconstruction. The text can also be used for the first part of a two-year American history course.

America: History of Our Nation Houghton Mifflin Harcourt

Fea offers an even-handed primer on whether America was founded to be a Christian nation, as many evangelicals assert, or a secular state, as others contend. He approaches the title's question from a historical perspective, helping readers see past the emotional rhetoric of today to the recorded facts of our past. Readers on both sides of the issues will appreciate that this book occupies a middle ground, noting the

good points and the less-nuanced arguments of both sides and leading us always back to the primary sources that our shared American history comprises.

I Freed Myself Copyright Office, Library of Congress

This work weaves together the complex interaction of social, political and historical forces that have shaped the United States and from which the American people have evolved by telling stories of people and of the nation.

America: History of Our Nation Liveright

Publishing

America's foreign

relations tradition, for all

its successes, has not always served the American people well. Utilizing tradition as a framework of analysis of the historic American approach to foreign affairs, this book critically examines the country's international conduct over time, leading to a number of provocative and controversial conclusions. The first section deals with ideas, ideals, and ideology in American history that provide a context and value structure that have long conditioned the American people's conception of the world. The second part critically examines the problematic American national style of interacting with others. The nation's parochial approach to problem-solving is explicated in the third section. The fourth part centers upon the country's historic isolationist-interventionist impulse--a two-sided, often contradictory dynamic. The fifth section is an extended analysis of the country's approach to alliance-building after World War II as a case study of its approach to foreign affairs in the past. The final section proposes that America's traditional values and decision-making style have often

been incompatible, and this contradiction has brought forth the exorcising role of violence in American's relationships with others.

The American Nation
Bloomsbury Publishing USA

This guide focuses on using Document Based Questions (DBQs) to challenge students to interpret primary sources such as letters, diaries, speeches and other historical records. Challenge your students to interpret primary sources from American History such as letters, diaries, speeches, and other historical records. Students learn to analyze a wide variety of visual and graphic stimuli such as paintings, photographs, charts, and graphs using Document-Based Questions. Containing sixteen different themes selected from major units that are covered in American History, DBQs help to utilize many of the skills stressed by social studies teachers, and are an excellent tool for assessing student progress. The activities are geared primarily toward middle school students (grades 6-8), but can be adapted easily for use by secondary students.

America's Congress FT Press

First published ten years ago, award-winning historian Ray Raphael's Founding Myths has since established itself as a landmark of historical myth-busting. With Raphael's trademark wit and flair, Founding Myths exposed the errors and inventions in America's most cherished tales, from Paul Revere's famous ride to Patrick Henry's "Liberty or Death" speech. For the thousands who have been captivated by Raphael's eye-opening accounts, history has never been the same. In this revised tenth-anniversary edition, Raphael revisits the original myths and further explores their evolution over time, uncovering new stories and peeling back new layers of misinformation. This new edition also examines the highly politicized debates over America's past, as well as how our approach to history in school reinforces rather than corrects historical mistakes. A book that "explores the truth behind the stories of the making of our nation" (National Public Radio), this revised edition of Founding Myths will be a welcome resource for anyone

seeking to separate historical fact from fiction.

Out of Many Pearson Prentice Hall

American Government 3e aligns with the topics and objectives of many government courses. Faculty involved in the project have endeavored to make government workings, issues, debates, and impacts meaningful and memorable to students while maintaining the conceptual coverage and rigor inherent in the subject. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political

structures that constitute American government.

The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens.

Catalog of Copyright Entries. Third Series

Routledge

There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad

surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.

Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June)

Albion's Seed Springer
Social Studies for Secondary Schools: Teaching to Learn, Learning to Teach, Second Edition integrates discussions of educational goals and the nature of history and social studies with practical ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme woven throughout the text is that what we choose to teach and the way we teach reflect our broader understanding of society, history, and the purposes of social studies education. Each chapter opens with a broad question about social studies education; provides many examples of lessons, including lesson ideas developed by

new and experienced middle school and high school social studies teachers; features a rich variety of teaching, learning, and classroom activities designed to provoke discussion and illustrate different approaches to teaching social studies; and concludes with essays about related social studies topics. Part I focuses on philosophical issues, social studies goals and standards, and the design of social studies curricula. Part II examines and offers examples of strategies for planning units and lessons. Part III explores topics, such as thematic and interdisciplinary teaching, a project approach to social studies, as well as assesses student learning and one's own performance as a teacher, and provides a guide to social studies resource materials and organizations. New in the Second Edition: *Every chapter has been updated and includes a number of new lesson ideas. *The lesson ideas are designed especially to help beginning teachers address learning standards; work in inclusive settings; and promote literacy and the

use of technology in social studies classrooms.

*Sample activities developed with members of the Hofstra New Teachers Network reflect the current focus on document-based instruction and assessment, and can serve as tools for assessing student learning. *Increased attention is given to project-based social studies instruction and to multicultural education. Intended as a text for undergraduate and graduate preservice social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice.
