HAROLD KRUEGER

Propedeutica al diritto internazionale privato Martinus Nijhoff Publishers

The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects. The work of the Hague Academy receives the support and recognition of the UN. Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law. The courses deal with the theoretical and practical aspects of the subject, including legislation and case law. All courses at the

Academy are, in principle, published in the language in which they were delivered in the "Collected Courses of the Hague Academy of International Law .

Il diritto internazionale privato e i suoi recenti progressi: Il Savigny, la scuola italiana e gli sviluppi più recenti della dottrina dell'ordine pubblico Kluwer Law International B.V.

Una introduzione chiara, agile e originale alle categorie e agli istituti fondamentali del diritto internazionale in edizione riveduta e aggiornata. A distanza di più di un anno dall'uscita della Introduzione al diritto internazionale, questa seconda edizione riveduta e aggiornata intende rispondere a una duplice esigenza: la prima è quella di considerare le principali

novità della prassi internazionale, con particolare attenzione alle vicende riguardanti l'Italia; la seconda, invece, può dirsi 'fisiologica', riflettendo la necessità di rivedere parzialmente il contenuto del volume tenendo conto dei numerosi spunti di riflessione emersi nel dialogo costante con docenti e studenti.

Il diritto internazionale privato e i suoi recenti progressi BRILL

This book looks at the question of extending the reach of the Brussels la Regulation to defendants not domiciled in an EU Member State. The Regulation, the centrepiece of the EU framework on civil procedure, is widely recognised as one of the most successful legal instruments on judicial cooperation. To provide a basis for

the discussion of its possible extension, this volume takes a closer look at the national rules that currently govern the question of jurisdiction over non-EU defendants in each Member State through 17 national reports. The insights gained from them are summarised in a comparative report and critically discussed in further contributions, which look at the question both from a European and from a wider global perspective. Private international lawyers will be keen to read the findings and conclusions, which will also be of interest to practitioners and policy makers.

Il diritto internazionale privato Martinus Nijhoff Publishers

International Law provides a comprehensive theoretical examination of the key areas of international law. In addition to classic cases and materials, Carlo Focarelli addresses the latest relevant international practice to illustrate contemporary themes and trends in international law and to examine its most topical challenges.

International Human Rights Law Taylor & Francis

This book centres on the ways in which the

concept of imperativeness has found expression in private international law (PIL) and discusses “imperative norms”, and “imperativeness” as their intrinsic quality, examining the rules or principles that protect fundamental interests and/or the values of a state so as to require their application at any cost and without exceptions. Discussing imperative norms in PIL means referring to international public policy and overriding mandatory rules: in this book the origins, content, scope and effects of both these forms of imperativeness are analyzed in depth. This is a subject deserving further study, considering that very divergent opinions are still emerging within academia and case law regarding the differences between international public policy and overriding mandatory rules as well as with regard to their way of functioning. By using an approach mainly based on an analysis of the case law of the CJEU and of the courts of the various European countries, the book delves into the origin of imperativeness since Roman law, explains how imperative norms have evolved in the different conceptions of private international law, and clarifies the

foundation of the differences between international public policy and overriding mandatory rules and how these concepts are used in EU Regulations on PIL (and in the practice related to these sources of law). Finally, the work discusses the influence of EU and public international law sources on the concept of imperativeness within the legal systems of European countries and whether a minimum content of imperativeness – mainly aimed at ensuring the protection of fundamental human rights in transnational relationships – between these countries has emerged. The book will prove an essential tool for academics with an interest in the analysis of these general concepts and practitioners having to deal with the functioning of imperative norms in litigation cases and in the drafting of international contracts. Giovanni Zarra is Assistant professor of international law and private international law and transnational litigation in the Department of Law of the Federico II University of Naples.

Introduzione al diritto internazionale contemporaneo Edward Elgar Publishing
This textbook provides a thorough and

systematic overview of human rights law, including the most relevant practice and case law, but also dealing with theoretical issues. It pursues an original approach, seeking to reconcile its didactic purpose with a scientific one, positing that there must be a necessary synergy between these two purposes. Furthermore, the author is convinced that international human rights law should not be studied (as is done in virtually every textbook) as a special legal regime, separate and autonomous from the overall system of international law; but as a regime that is fully integrated into the international legal order. The book's dominant theme is the interrelationship of international human rights law and general international law. Following this approach, the author has chosen to devote comparatively little content to institutional issues (Part IV) and to instead more intensively explore the structural impact of human rights law on the entire international order (Part I); on the sources (Part II) and obligations (Part III) of general international law; and what constitutes "fundamental" human rights (Part V), without neglecting other rights (Part VI).

Il contratto di trasporto in rapporto al diritto internazionale privato G

Giappichelli Editore

La vita delle persone, come l'attività delle imprese, si svolge non di rado in spazi che attraversano le frontiere nazionali. Per disciplinare i rapporti privatistici che si sviluppano in questi spazi, gli ordinamenti giuridici statali si aprono in molti casi alle determinazioni degli altri ordinamenti statali e al lavoro delle relative autorità:

dispongono l'applicazione di norme straniere, danno effetto alle decisioni rese da autorità estere, coordinano l'attività dei propri giudici con quella dei giudici di altri Stati, etc. Il diritto internazionale privato presiede precisamente a questa apertura, definendone presupposti, limiti e modalità. Questa Introduzione propone un'illustrazione sintetica delle questioni di cui si occupa il diritto internazionale privato ed esamina alcune delle norme che hanno il compito, in Italia, di rispondervi.

Introduzione al diritto internazionale pubblico G

Giappichelli Editore
Anyone involved in trade law knows the time-consuming nature of obtaining primary source material and consulting each of the main trade laws. Now in its fourth edition, Basic Documents in International Trade Law solves this problem by assembling, in a single, easy-to-use resource, a very comprehensive collection of the most important and frequently used documents on the law of international trade. In addition to its obvious practical value, this work reveals much about the process of harmonization in international trade law and the

operation of the key international trade bodies. This makes the book a helpful reference for international business lawyers, researchers, legislators and government officials in the field. Since the successful publication of the previous editions of the book, the appearance of new conventions and model laws has considerably enriched the law of international trade, and the present edition contains a wealth of new material. The book has been substantially revised and several new instruments have been included. Among the most significantly important improvements to this new edition are new chapters added to different parts of the book, a redesigned and thoroughly revised Part 6 reflecting the expansion of intellectual property rights under the framework of treaties administered by World Intellectual Property Organization, and bibliographies and other research resources updated and enlarged to include an extraordinarily rich collection of books and articles in many trading languages besides English, including, for the first time, major Chinese works in the international trade law field. As the late Prof. Clive M. Schmitthoff

commented on the first edition, the book 'is not only of practical usefulness but has also considerable jurisprudential value', and 'reveals the methodology of the harmonization process in the area of international trade law'. The International Business Lawyer first commented in 1987 that the book 'can only be described as a "vade mecum" for every international business lawyer', an assessment that now seems more merited than ever.

Introduzione al diritto penale

internazionale Giuffrè Editore

First published in 1917 (Part 1) and 1918 (Part 2), with a second edition in 1946, this is the first English translation of Santi Romano's classic work, *L'ordinamento giuridico* (The Legal Order). The main focus of *The Legal Order* is the notion of institution, which Romano considers to be both the core and distinguishing feature of law. After criticising accounts of the nature of law centred on notions of rule, coercion or authority, he offers a compelling conception, not merely of law as an institution, but of the institution as 'the first, original and essential manifestation of law'. Romano advances a definition of a legal institution as any group who share rules within a bounded context: for example, a family, a firm, a factory, a prison, an association, a church, an illegal organisation, a state, the community of states, and so on. Therefore, this understanding of legal institutionalism at the same time provides a ground-breaking theory of legal pluralism whereby 'there are as many legal orders as institutions'. The acme of a jurisprudential current long overlooked in the Anglophone environment (Romano's work is highly

regarded in France, Germany, Spain and South America, as well as in Italy), The Legal Order not only proposes what Carl Schmitt described as a 'very significant theory'. More importantly, it offers precious insights for a thorough rethinking of the relationship between law and society in today's world.

Introduzione al diritto internazionale privato Giuffrè Editore

Le site d'éditeur Giuffrè indique : "L'opera offre un importante contributo alla conoscenza e all'approfondimento del diritto internazionale penale, una materia nuova e ancora poco conosciuta all'interno del panorama italiano. Di taglio prettamente didattico, il volume tratta la parte generale del sistema, offrendone una nuova chiave di lettura, e i singoli capitoli, compresi quelli dedicati alle singole incriminazioni, sono strutturati in modo organico, così da creare un dialogo continuo tra i redattori della ricerca. Il volume si propone così di analizzare il sistema normativo cui dovrà fare riferimento la Corte permanente, disegnato principalmente, ma non esclusivamente, dallo Statuto. Quanto ai contenuti, la prima parte dell'opera è

dedicata al sistema, la seconda agli istituti di parte generale e alle sanzioni, la terza infine alle fattispecie incriminatrici."

Imperativeness in Private International Law Giuffrè Editore

International Investment Law in Latin America: Problems and Prospects analyses the trend from enthusiasm to diffidence Latin American countries have recently undergone towards investment law.

Experts draw lessons from the Continent's past experiences while identifying possible solutions to the important challenges it faces. En Derecho Internacional de las Inversiones en América Latina: Problemas y Perspectivas, la tendencia desde el entusiasmo a la desconfianza de los países latinoamericanos hacia esta rama del derecho es analizada, en búsqueda de posibles soluciones a los importantes desafíos que actualmente enfrenta esa región.

Il diritto internazionale privato e i suoi recenti progressi Gius. Laterza & Figli Spa "The Italian Yearbook of International Law" aims at making accessible to the English speaking public the Italian contribution to the practice and literature of international law. Volume XIV (2004) is organised in

three main sections. The first contains doctrinal contributions including articles on the UN Charter reform; corporations as international actors; human genetics and reproductive technology; and on the ICJ Advisory Opinion on the construction of a wall in the Occupied Palestinian Territory. This section includes also notes on the seminal judgment of the Italian Supreme Court in the "Ferrini" case, setting aside immunity of a foreign State in respect of reparation claims by victims of gross violations of human rights, and on the decision of the Special Court of Sierra Leone in the "Charles Taylor" case, as well as surveys on the activity of selected international institutions and tribunals (World Trade Organization, Law of the Sea Tribunal, and European Court of Human Rights). The second section covers the Italian practice in the areas of 1) judicial decisions; 2) diplomatic and parliamentary practice; 3) treaty practice; and 4) national legislation. The third section contains a systematic bibliographical index of Italian literature in the field of international law and reviews of recent books. The volume ends with an analytical index for ready consultation that includes the main judicial

cases and legal instruments cited throughout the "Yearbook," *International Law* Giappichelli

Introduzione al diritto penale internazionale, alla sua terza edizione, fornisce una bussola a chi voglia orientarsi nei territori di un settore del diritto, il penale internazionale, alla costante ricerca di una sintesi tra cultura penalistica e cultura internazionalistica, due tradizioni giuridiche spesso notevolmente diverse. Il diritto penale internazionale ha ad oggetto la persecuzione dei crimini internazionali, identificati nei crimini di aggressione, quelli di guerra, quelli contro l'umanità e il genocidio. Di recente emersione vede infatti le sue origini con i processi di Norimberga ed il suo sviluppo con i tribunali penali internazionali per la ex-Jugoslavia ed il Ruanda tale disciplina coinvolge in modo sempre più significativo gli ordinamenti penali nazionali e sollecita la riflessione scientifica. Riflessione che si è resa ancor più necessaria con l'inizio dei lavori nel 2002 della Corte Penale Internazionale dell'Aia, il primo giudice

internazionale permanente, competente ad accertare la responsabilità penale individuale per crimini internazionali. Privilegiando una lettura penalistica della materia, il manuale *Introduzione al diritto penale internazionale* si concentra sullo Statuto e sulla giurisprudenza della Corte Penale Internazionale, senza trascurare lo studio del penale internazionale come applicato e interpretato da altri giudici nazionali o internazionali là dove aiuti la comprensione degli istituti e del sistema della Corte Penale Internazionale. Il manuale si struttura in tre parti: il sistema, la parte generale e la parte speciale. Dando conto dei più significativi profili problematici secondo un metodo comparato e attento alla realtà applicativa, il volume è rivolto a studenti, operatori e studiosi del diritto che vogliono avvicinarsi al diritto penale internazionale anche per meglio comprendere il diritto penale tout court. Enrico Amati, Ricercatore confermato di diritto penale nell'Università degli Studi di Udine. Matteo

Costi, Sostituto Procuratore presso la Procura della Corte Penale a Internazionale. Emanuela Fronza, Ricercatrice confermata di diritto penale nell'Università degli Studi di Bologna. Paolo Lobba, Legal Officer presso la Corte Suprema delle ECCC, United Nations Assistance to the Khmer Rouge Trials. Elena Maculan, Ricercatrice post-doc nell'Istituto Universitario Gutiérrez Mellado (UNED), Madrid. Antonio Vallini, Professore associato di diritto penale nell'Università degli Studi di Firenze.
