"God. . . wherever He is, whoever He is, hasn't cared about Syria in a very many years." The Sukhoi Su-57 "Felon." The Russian Federation's formidable new stealth fighter. Sleek, dangerous, and forward-deployed into the maelstrom of the Syrian Civil War for field testing-vulnerable. For the CIA, the Su-57's presence in Syria presents an opportunity. For Mossad's David Shafron, the former assassin once known as the "Lion of God," it represents a threat. For the Syrian rebels soon tasked with its recovery. . .their own damnation. It's a high-stakes gambit worthy of the Cold War, but this war is red-hot. For Mohamed Taferi, dispatched by Shafron to lead the operation on the ground, the Syrian conflict is nothing new. An Israeli Druze and Mossad field officer, he's found himself in the war-ravaged country countless times over the years. But this mission will plunge him deeper into the darkness-the madness-of the inferno than ever before, hunted by Russian Spetsnaz and a sadistic Syrian Special Forces captain, forced to rely on a ragtag, bloodied band of the unlikeliest allies, rebels and jihadists alike, in a nightmarish journey of the damned across the very heart of desolation. And no one is emerging from these fires unscathed.

"He who seeks vengeance must dig two graves: one for his enemy and one for himself." In the Middle East, refugees fleeing dictatorship and terrorism pour across the borders into Europe, destabilizing countries already in the throes of economic crisis. But not all who seek refuge share the same reasons for so doing. . . In the UK, the nationalist far Right gathers strength-fueled by a government unable or unwilling to protect its own. England is on the brink. All it will take to send it tumbling into the abyss. . . is a single push. And in the midst of it all, two men have arrived in London, dark harbingers of death to come. One of them is a terrorist, responsible for one of the most successful attacks against the West in the years since 9/11. The other, an assassin, come to take his life. Fifteen years Harry Nichols spent as a CIA paramilitary operations officer. Fifteen long years of war, tracking America's enemies across the world. Hunting them down-killing them. Before they could strike. Until the Christmas Eve attacks on Las Vegas forced him to resign from the Agency. Attacks which killed hundreds of innocent Americans, claimed the life of the woman he had sworn to protect. The woman he loved. Forced out into the cold, Nichols has found himself in the UK, operating without sanction, without law. A man without a country-come to London with a single purpose: kill the man responsible for the attacks in Vegas. Avenge her death. No matter what it takes. What lines must be crossed. What faiths must be betrayed. There are no rules, not any more. Only vengeance. His career with the CIA is over. His war. . .has only just begun.

Wonder Woman and the Pandora Plot Michelle Howard

An unconventional war requires unconventional men—the Special Forces. Green Berets • Navy SEALs • Rangers • Air Force Special Operations • PsyOps • Civil Affairs • and other special-mission units The first two Commanders books, Every Man a Tiger and Into the Storm, provided masterly

blends of history, biography, you-are-there narrative, insight into the practice of leadership, and plain old-fashioned storytelling. Shadow Warriors is all of that and more, a book of uncommon timeliness, for, in the words of Lieutenant General Bill Yarborough, "there are itches that only Special Forces can scratch." Now, Carl Stiner—the second commander of SOCOM, the U.S. Special Operations Command—and Tom Clancy trace the transformation of the Special Forces from the small core of outsiders of the 1950s, through the cauldron of Vietnam, to the rebirth of the SF in the late 1980s and 1990s, and on into the new century as the bearer of the largest, most mixed, and most complex set of missions in the U.S. military. These are the first-hand accounts of soldiers fighting outside the lines: counterterrorism, raids, hostage rescues, reconnaissance, counterinsurgency, and psychological operations—from Vietnam and Laos to Lebanon to Panama, to Saudi Arabia, Kuwait, and Iraq, to the new wars of today...
