For everyone who loves watching Amanda Owen and her family on Our Yorkshire Farm, or enjoys reading her bestselling books, comes this delightful and uplifting collection of her monthly Dalesman columns. In *Tales From the Farm* by the Yorkshire Shepherdess Amanda takes readers on an evocative journey to Ravenseat, where she lives with husband Clive and their nine children, not to mention their flock of sheep, herd of cows, hardworking dogs and a formidable chicken called Linda. Covering events from 2019 through to early 2021, Amanda describes saving the life of a newborn calf on New Year's Eve and watching, mouth agape, as their livestock trailer was swept away by floodwater in March. Son Sidney braves the wrath of Linda and husband Clive crafts an unusual Valentine's Day gift. Eldest daughter Raven leaves the nest, headed for university, while young sheepdog Taff and Tony the pony arrive at the farm. As Covid-19 sends the country into lockdown, Amanda feels more lucky than ever to live close to nature, finding

happiness in the beauty of the Dales and the unchanging routines of the farming year. Illustrated with charming line-drawings throughout, this book is the perfect gift for fans of the Owen family and a chance to catch up on their adventures.

Doug is still in the netherworld. He's working a cleaning job in the Hive's stinking hallways, trying to ignore the screams, and reading romance comics to the breeders. But as the stories unravel on the page, frame by frame, mirrored memories plunge him back into his waking life. And that's where the real nightmare is. In Burns's trademark hard-edged style, The Hive is horrifying and completely absorbing: an incredible new installment from one of the most exciting artists in the comics world.

Indian by Choice tackles the complex theme of identity; it is a journey of self-discovery through the myriad human relationships that help us see things in perspective and in context. Written in the form of a graphic novel, it tells the story of Mandy, a second generation Indian, born and brought up in Chicago. He is as American as they come—hot dogs, French Fries, baseball and the love of all things American, especially blonde. He is, of course, no different from his clones who are in several other parts of the world—England and Australia, the Netherlands and Canada. They blend with their surroundings by assimilating the culture of their adopted home and denying their Indian roots and heritage. In the case of the hero of our book, he has even changed his name from Mandeep to Mandy! He is required, under duress, to travel to India for a family wedding and despite his fears and his doubts, his distaste and his abhorrence of 'all things Indian', he finds himself drawn into a world that he was familiar with only through his relationship with his parents and sister. These had to do with strong and pervasive family ties and bonding, friendships that were open and warm-hearted. All this appeared to be so 'normal and natural' in India. Through candid discussions, he confronts his fears and ignorance about India. When it is time for him to leave, he finds that there is much about India he simply did not know and a great deal he would like to know more. He increasingly reconciles with his suppressed identity. He willingly makes the choice of not denying his Indian roots. He is an Indian by choice.

Beginning Topology is designed to give undergraduate students a broad notion of the scope of topology in areas of point-set, geometric, combinatorial, differential, and algebraic topology, including an

introduction to knot theory. A primary goal is to expose students to some recent research and to get them actively involved in learning. Exercises and open-ended projects are placed throughout the text, making it adaptable to seminar-style classes. The book starts with a chapter introducing the basic concepts of point-set topology, with examples chosen to captivate students' imaginations while illustrating the need for rigor. Most of the material in this and the next two chapters is essential for the remainder of the book. One can then choose from chapters on map coloring, vector fields on surfaces, the fundamental group, and knot theory. A solid foundation in calculus is necessary, with some differential equations and basic group theory helpful in a couple of chapters. Topics are chosen to appeal to a wide variety of students: primarily upper-level math majors, but also a few freshmen and sophomores as well as graduate students from physics, economics, and computer science. All students will benefit from seeing the interaction of topology with other fields of mathematics and science; some will be motivated to continue with a more in-depth, rigorous study of topology.

#1 New York Times Bestseller "Funny and smart as hell" (Bill Gates), Allie Brosh's

Hyperbole and a Half showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every time Allie Brosh posts something new on her hugely popular blog *Hyperbole and a Half* the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, "The God of Cake," "Dogs Don't Understand Basic Concepts Like Moving," and her astonishing, "Adventures in Depression," and "Depression Part Two," which have been hailed as some of the most insightful meditations on the disease ever written. Brosh's debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn't me wrote it—but I soon discovered that I'm not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars* Stories about dogs The secret to eternal happiness* *These are lies. Perhaps I have underestimated my sneakiness!

Camming American Mathematical Society Moving away from the explicitly political content of his previous novels, Victor Hugo turns to social commentary in *The Man Who Laughs*, an 1869 work that was made into a popular film in the 1920s. The plot deals with a band of miscreants who deliberately deform children to make them more effective beggars, as well as the long-lasting emotional and social damage that this abhorrent practice inflicts upon its victims.

Winner, Sociology of the Body and Embodiment Best Publication Award, given by the American Sociological Association Honorable Mention, 2021 Sexualities Section Book Award, given by the American Sociological Association The first inside look at how sex workers use webcams to make a living The erotic webcam industry, also known as "camming," is a thriving global business. Angela Jones takes readers inside this multi-billion dollar industry, revealing how its workers experience intimacy, community, empowerment—and, as she compellingly argues, pleasure. Drawing on in-depth interviews, survey data, web analytics, and more, Jones highlights not only the dangers, but also the rewards, of working in one of the most taboo corners of the Internet. She provides an inside look at the public and private shows between cam models and their customers, from exotic dancing and pornographic videos, to masturbation shows and erotic chatrooms. A fascinating, much-needed glimpse into the lives of cam models, *Camming* takes us behind the webcam lens to experience the power of erotic labor in the twenty-first century.
