We call many things sacred, from cows, churches and paintings to flags and burial grounds. Is it still meaningful to talk of things being sacred, or is the idea merely a relic of a bygone religious age? Does everything - and every life - have its price? Is Nothing Sacred? is a stimulating and wide-ranging debate about some of the major moral dilemmas facing us today, such as the value of human life, art, the environment, and personal freedom. Packed with clearly presented controversial issues, we are asked to decide whether we should revere life when someone chooses to die, preserve the giant California redwoods, cherish Vermeer's originals for their own sake, or curtail personal freedom for the greater good. Ronald Dworkin argues that the concept of the scared is essential to any human ethics, and Simon Blackburn explains why he thinks 'a humanist should not feel guilty at the emotions of awe and reverence that can be inspired by great religious works of art. Throughout, the idea of the sacred in a secular age is hotly debated amongst the authors and put to the test: should it be abandoned altogether, or does it still have something to teach us? Is Nothing Sacred? brings together outstanding philosophers and thinkers, including Suzanne Uniacke, Michael Clark, Alan Holland, Simon Blackburn, Richard Dawkins, Richard Norman, Alan Howarth, Nigel Warburton, Matthew Kieran and John Harris.

In Search of the Sacred Book studies the artistic incorporation of religious concepts such as prophecy, eternity, and the afterlife in the contemporary Latin American novel. It departs from sociopolitical readings by noting the continued relevance of religion in Latin American life and culture, despite modernity’s powerful secularizing influence. Analyzing Jorge Luis Borges’s secularized “narrative theology” in his essays and short stories, the book follows the development of the Latin American novel from the early twentieth century until today by examining the attempts of major novelists, from María Luisa Bombal, Alejo Carpentier, and Juan Rulfo, to Julio Cortázar, Gabriel García Márquez, and José Lezama Lima, to “sacralize” the novel by incorporating traits present in the sacred texts of many religions. It concludes with a view of the “desacralization” of the novel by more recent authors, from Elena Poniatowska and Fernando Vallejo to Roberto Bolaño.

A dangerous heretic who turns brother against brother? Or the only man who can avert the Second Apocalypse? With the fate of the Holy War hanging in the balance, the great powers will have to choose between their most desperate desires and their most ingrained prejudice. Between hatred and hope. Between the Warrior-Prophet and the end of the world . . .

Acclaimed writer and thinker Douglas Rushkoff, author of Ecstasy Club and Coercion, has written perhaps the most important—and controversial—book on Judaism in a generation. As the religion stands on the brink of becoming irrelevant to the very people who look to it for

answers, Nothing Sacred takes aim at its problems and offers startling and clearheaded solutions based on Judaism’s core values and teachings. Disaffected by their synagogues’ emphasis on self-preservation and obsession with intermarriage, most Jews looking for an intelligent inquiry into the nature of spirituality have turned elsewhere, or nowhere. Meanwhile, faced with the chaos of modern life, returnees run back to Judaism with a blind and desperate faith and are quickly absorbed by outreach organizations that—in return for money—offer compelling evidence that God exists, that the Jews are, indeed, the Lord’s “chosen people,” and that those who adhere to this righteous path will never have to ask themselves another difficult question again. Ironically, the texts and practices making up Judaism were designed to avoid just such a scenario. Jewish tradition stresses transparency, open-ended inquiry, assimilation of the foreign, and a commitment to conscious living. Judaism invites inquiry and change. It is an “open source” tradition—one born out of revolution, committed to evolution, and willing to undergo renaissance at a moment’s notice. But, unfortunately, some of the very institutions created to protect the religion and its people are now suffocating them. If the Jewish tradition is actually one of participation in the greater culture, a willingness to wrestle with sacred beliefs, and a refusal to submit blindly to icons that just don’t make sense to us, then the “lapsed” Jews may truly be our most promising members. Why won’t they engage with the synagogue, and how can they be made to feel more welcome? Nothing Sacred is a bold and brilliant book, attempting to do nothing less than tear down our often false preconceptions about Judaism and build in their place a religion made relevant for the future. From the Hardcover edition.

Comedian Lewis Black unleashes his trademark subversive wit while recounting his own life story in his New York Times bestselling memoir. You've seen him on *The Daily Show* with Jon Stewart offering up his trademark angry observational humor on everything from politics to pop culture. You've seen his energetic stand-up performances on HBO, Comedy Central, and in venues across the globe. Now, for the first time, Lewis Black translates his volcanic eruptions into book form in *Nothing's Sacred*, a collection of rants against stupidity and authority, which oftentimes go hand in hand. With subversive wit and intellectual honesty, Lewis examines the events of his life that shaped his antiauthoritarian point of view and developed his comedic perspective. Growing up in 1950s suburbia when father knew best and there was a sitcom to prove it, he began to regard authority with a jaundiced eye at an early age. And as that sentiment grew stronger with each passing year, so did his ability to hone in on the absurd. True to form, he puts common sense above ideology and distills hilarious, biting commentary on all things politically and culturally relevant. "No one is safe from Lewis Black's comic missiles." (New York Times) You have been warned....

Essays by the influential—and controversial— macroeconomist Robert J. Barro. Since the 1970s, Robert Barro's academic research has significantly influenced macroeconomic theory. For more than a decade, his writing has also enlivened the pages of publications such as the *Wall Street Journal* and *Business Week*. In *Nothing Is Sacred*, Barro applies his well-honed free market arguments to a remarkably diverse range of issues. These include global problems such as growth and debt, as well as social issues such as the predictive value of SAT scores, drug legalization, the economics of beauty, and the relationship between abortion rights and crime reduction. The book opens with a series of essays on famous economists, past and present, and other prominent figures whose work has economic implications, including Joe DiMaggio and Bono. In the book's second part, Barro discusses the economics of social issues. In the third part, he considers democracy, growth, and international policy, and in the final part he examines fiscal policy, monetary policy, and the macroeconomy. Throughout, he shows that even the most widely held beliefs are not sacred truths but are open to analysis.

An epic tale of freedom and slavery, love and war, and the potential futures of humankind tells of a twenty-first century California clan caught between two clashing worlds, one based on tolerance, the other on repression. Declaration of the Four Sacred Things The earth is a living, conscious being. In company with cultures of many different times and places, we name these things as sacred: air, fire, water, and earth. Whether we see them as the breath, energy, blood, and body of the Mother, or as the blessed gifts of a Creator, or as symbols of the interconnected systems that sustain life, we know that nothing can live without them. To call these things sacred is to say that they have a value beyond their usefulness for human ends, that they themselves became the standards by which our acts, our economics, our laws, and our purposes must be judged. no one has the right to appropriate them or profit from them at the expense of others. Any government that fails to protect them forfeits its legitimacy. All people, all living things, are part of the earth life, and so are sacred. No one of us stands higher or lower than any other. Only justice can assure balance: only ecological balance can sustain freedom. Only in freedom can that fifth sacred thing we call spirit flourish in its full diversity. To honor the sacred is to create conditions in which nourishment, sustenance, habitat, knowledge, freedom, and beauty can thrive. To honor the sacred is to make love possible. To this we dedicate our curiosity, our will, our courage, our silences, and our voices. To this we dedicate our lives. Praise for *The Fifth Sacred Thing* "This is wisdom wrapped in drama."—Tom Hayden, California state senator "Starhawk makes the jump to fiction quite smoothly with this memorable first novel."—Locus "Totally captivating . . . a vision of the paradigm shift that is essential for our very survival as a species on this planet."—Elinor Gadon, author of *The Once and Future Goddess* "This strong debut fits well against feminist futuristic, utopic, and dystopic works by the likes of Charlotte Perkins Gilman, Ursula LeGuin, and Margaret Atwood."—Library Journal

*Sacred Economics* traces the history of money from ancient gift economies to modern capitalism, revealing how the money system has contributed to alienation, competition, and scarcity, destroyed community, and necessitated endless growth. Today, these trends have reached their extreme—but in the wake of their collapse, we may find great opportunity to transition to a more connected, ecological, and sustainable way of being. This book is about how the money system will have to change—and is already changing—to embody this transition. A broadly integrated synthesis of theory, policy, and practice, *Sacred Economics* explores avant-garde concepts of the New Economics, including negative-interest currencies, local currencies, resource-based economics, gift economies, and the restoration of the commons. Author Charles Eisenstein also considers the personal dimensions of this transition, speaking to those concerned with "right livelihood" and how to live according to their ideals in a world seemingly ruled by money. Tapping into a rich lineage of conventional and unconventional economic thought, *Sacred Economics* presents a vision that is original yet commonsense, radical yet gentle, and increasingly relevant as the crises of our civilization deepen. *Sacred Economics* official website: <http://sacred-economics.com/>
