NFPA 470 Hazardous Materials

Standards for Responders

NationalFireProtectionAssoc

"This standard addresses electrical safety-related work practices for employee workplaces that are necessary for the practical safeguarding of employees relative to the hazards associated with electrical energy during activities such as the installation, inspection, operation, maintenance, and demolition of electric conductors, electric equipment, signaling and communications conductors and equipment, and raceways. This standard also includes safe work practices for employees performing other work activities that can expose them to electrical hazards as well as safe work practices for the following: (1) Installation of conductors and equipment

that connect to the supply of electricity (2) Installations used by the electric utility, such as office buildings, warehouses, garages, machine shops, and recreational buildings that are not an integral part of a generating plant, substation, or control center."--Scope. *Standard for Fire Department Safety Officer Professional Qualifications* Joint Commission Resources NETC LRC call no. TH 9176 .L9 M657 2013.

NFPA 1000 Standard for Fire Service Professional Qualifications Accreditation and Certification Systems National Fire Protection Assn

.1 Scope. This standard identifies the levels of competence required of emergency medical services (EMS) personnel who respond to incidents

involving hazardous materials or weapons of mass destruction (WMD). It specifically covers the requirements for basic life support and advanced life support personnel in the pre-hospital setting. 1.1.1 This standard is based on the premise that all EMS responders are trained to meet at least the core competencies of the operations level responders as defined in Chapter 5 of NFPA 472, Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents.

NFPA 1072 National Fire Protection Assoc This edition of NFPA 45, Standard on Fire Protection for Laboratories Using Chemicals, was prepared by the Technical Committee on Laboratories Using Chemicals. It was issued by the

Standards Council on November 5, 2018, with an effective date of November 25, 2018, and supersedes all previous editions. This edition of NFPA 45 was approved as an American National Standard on November 25, 2018.
