<b>HERNANDEZ HUGHES</b>		"The Masque of the Red Death", originally published as "The Mask of the Red Death: A Fantasy", is an 1842 short story by American writer Edgar Allan Poe. The story follows Prince Prospero's attempts to avoid a dangerous plague, known as the Red Death, by hiding in his abbey. He, along with many other wealthy nobles, hosts a masquerade ballwithin seven rooms of the abbey, each decorated with a different color. In the midst of their revelry, a mysterious figure disguised as a Red Death victim enters and makes his way through each of the rooms. Prospero dies after confronting this stranger, whose "costume" proves to contain nothing tangible inside it; the guests also die in turn. Poe's story follows many traditions of Gothic fiction and is often analyzed as an allegory about the inevitability of death, though some critics advise against an allegorical reading. Many different interpretations have been presented, as well as attempts to identify the true nature of the titular disease. The story was first published in May 1842 in Graham's Magazineand has since been adapted in many different forms, including a 1964 film starring Vincent Price.

Nineteenth-century Britons treasured objects of daily life that had once belonged to their dead. The love of these keepsakes, which included hair, teeth, and other remains, speaks of an intimacy with the body and death, a way of understanding absence through its materials, which is less widely felt today. Deborah Lutz analyzes relic culture as an affirmation that objects held memories and told stories. These practices show a belief in keeping death vitally intertwined with life - not as memento mori but rather as respecting the singularity of unique beings. In a consumer culture in full swing by the 1850s, keepsakes of loved ones stood out as non-reproducible, authentic things whose value was purely personal. Through close reading of the works of Charles Dickens, Emily Brontë, Alfred Lord Tennyson, Thomas Hardy, and others, this study illuminates the treasuring of objects that had belonged to or touched the dead.		On August 7, 1998, bombs exploded at two United States embassies in East Africa. American anthropologist Susan Hirsch and her husband Jamal, a Kenyan, were among the thousands of victims, and Jamal died. From there, Hirsch went on to face devastating grief with the help of friends and families on two continents, observing the mourning rituals of her husband's community to honor him. When the alleged bombers were captured and sent to New York to stand trial, she witnessed firsthand the attempts of America's criminal justice system to handle terrorism through the law. In the Moment of Greatest Calamity is her story--a tale told on many levels: personal, anthropological, legal, and, finally, political. The book's central chapters describe Hirsch's experience of the bombing trials in a Manhattan federal court in 2001, including a behind-the-scenes look at the investigation leading up to the trial, encounters with some of the FBI's leading terrorism investigators, and many moments of drama from the proceedings themselves. Hirsch reveals the inner conflict that results from her opposition to the death penalty and concludes that the trial was both flawed and indispensable. Hirsch's story of this tragedy and its legal aftermath comes to life through--and is enhanced by--her skills as a social scientist. Her unique viewpoint makes it unlike any other story about terrorism.

Do we really need to wear masks? From the New York Times Bestselling authors of *Plague of Corruption* comes the must-read guide on masks and re-opening following the COVID-19 pandemic. *The Truth About Masks* is the book all America needs to be reading as the COVID-19 pandemic rages on. Written by New York Times bestselling authors Dr. Judy Mikovits and Kent Heckenlively, this book reviews the evidence for and against widespread public masking as provided by the Centers for Disease Control and the Mayo Clinic, as well as top scientific publications such as the *New England Journal of Medicine* and *The Lancet*. This debate needs to take place without fear and paranoia. Important questions raised in this book are the effect of masks on oxygen and carbon dioxide levels, how COVID-19 spreads, the effectiveness of various types of masks, those who are most vulnerable to COVID-19, and what measures should be taken by schools as children continue to return to in-person classes. The authors' previous book, *Plague of Corruption*, was the runaway science bestseller of 2020, and the authors bring that same passion and attention to detail to the mask question. As politicians and bureaucrats of all stripes are weighing in on this question, with some again placing their cities and states under mandatory masking provisions, we need to understand the science behind their decisions. Are such measures a reasonable response to current circumstances, or is it a dramatic overreach, which in many cases might make the situation even worse? America desperately needs this public conversation to take place

with the best science we have available. As Americans have always done during difficult times, we must summon the courage to have these challenging conversations.

An amnesiac girl explores an enchanting underground world filled with sinister secrets in this YA fantasy from the award-winning author of *The Lie Tree*. In the underground city of Caverna, the world’s most skilled craftspeople toil in the darkness to create delicacies beyond compare—wines that remove memories, cheeses that make you hallucinate, and perfumes that convince you to trust the wearer, even as he slits your throat. On the surface, the people of Caverna seem ordinary, except for one thing: their faces are as blank as untouched snow. Expressions must be learned, and only the famous Facesmiths can teach a person to express (or fake) joy, despair, or fear—at a steep price. Into this dark and distrustful world comes Neverfell, a girl with no memory of her past and a face so terrifying to those around her that she must always wear a mask. Neverfell’s expressions are as varied and dynamic as those of the most skilled Facesmiths, except hers are entirely genuine. And that makes her very dangerous indeed . . . Praise for *A Face Like Glass* An ALA/ALSC Notable Children’s Book “Hardinge is at the top of her game with this entrancing and action-packed adventure. Her voluptuous prose is full of sensory details and wildly imaginative descriptions, yet the world-building is controlled and gradually revealed. . . . VERDICT A compelling and triumphant follow-up to *The Lie Tree* for those who love to become immersed in a good story.” —School Library Journal, starred review “Using beautiful prose, Hardinge builds a richly imagined world that twists as much as the carefully orchestrated plot. Readers will eagerly follow noble Neverfell through its tunnels, marveling at the extraordinary sights and catching their breath at her daring escapades.” —Booklist, starred review “Hardinge excels at wordplay and worldbuilding; witty but not trite, her utterly original setting and chaotic, fidgety protagonist anchor a cracking good story that raises important ideas surrounding the nature of friendship, the value of honesty, and the danger of too much.” —Kirkus Reviews, starred review
