This landmark anthology collects for the first time the key historical documents that helped give definition and purpose to the conceptual art movement. Compared to other avant-garde movements that emerged in the 1960s, conceptual art has received relatively little serious attention by art historians and critics of the past twenty-five years—in part because of the difficult, intellectual nature of the art. This lack of attention is particularly

striking given the tremendous influence of conceptual art on the art of the last fifteen years, on critical discussion surrounding postmodernism, and on the use of theory by artists, curators, critics, and historians. This landmark anthology collects for the first time the key historical documents that helped give definition and purpose to the movement. It also contains more recent memoirs by participants, as well as critical histories

of the period by some of today's leading artists and art historians. Many of the essays and artists' statements have been translated into English specifically for this volume. A good portion of the exchange between artists, critics, and theorists took place in difficult-to-find limited-edition catalogs, small journals, and private correspondence. These influential documents are gathered here for the first time, along with a number of previously unpublished essays and interviews.

Attitudes Aren't Free: Thinking Deeply about Diversity in the US Armed Forces emerged from a vision to collect essays from the brightest voices of experts across the range of contentious social issues to catalyze productive discussions

between military members of all ranks and services. Forty-nine experts contributed to the following 29 chapters writing on the primary themes of religious expression, homosexuality, gender, race, and ethics. Chapters appearing in this volume passed the scrutiny of a double-blind peer-review by one or more referees from the board of reviewers. The chapters are largely written in a colloquial, intellectual op-ed fashion and capture a "snapshot" of the current

discussions regarding a particular topic of interest to uniformed personnel, policy makers, and senior leaders. Each section seeks to frame the spectrum of perspectives captured within the current debates and lines of argument. Authors were specifically asked not to address all sides of the issue, but rather to produce a well-reasoned argument explaining why they believe their well-known position on an issue is in the best interests of the military members and make

specific recommendations about how best to address the policy issues from their perspective. The volume is arranged in four primary sections by theme: Religious Expression, Homosexuality, Race and Gender, and Social Policy Perspectives. Within each section, readers will find multiple chapters—each embracing a different perspective surrounding the section's theme. Thus, because of the unbalanced nature of many of the individual chapters, it is critically

important that readers focus on the entire spectrum of perspectives presented within a section to ensure they have the context necessary to frame any single perspective. Diversity of opinion has been the hallmark of the United States since its dramatic birth in 1776 and has continued unfettered through today where we now have developed the most innovative and effective military the world has ever known. Thus, it is imperative that we continue to reflect

upon the diversity of ideas about how best to formulate the "right" social policy to ensure our service members can most effectively execute their missions.

Falkland Road Bright Sparks

In May 2010, NYPD officer Adrian Schoolcraft made national headlines when he released a series of secretly recorded audio tapes exposing corruption and abuse at the highest levels of the police department. But, according to a lawsuit filed by Schoolcraft

against the City of New York, instead of admitting mistakes and pledging reform Schoolcraft's superiors forced him into a mental hospital in an effort to discredit the evidence. In *The NYPD Tapes*, the reporter who first broke the Schoolcraft story brings his ongoing saga up to date, revealing the rampant abuses that continue in the NYPD today, including warrantless surveillance and systemic harassment. Through this lens, he tells the broader tale of how American law

enforcement has for the past thirty years been distorted by a ruthless quest for numbers, in the form of CompStat, the vaunted data-driven accountability system first championed by New York police chief William Bratton and since implemented in police departments across the country. Forced to produce certain crime stats each quarter or face discipline, cops in New York and everywhere else fudged the numbers, robbing actual crime victims of justice and

sweeping countless innocents into the police net. Rayman paints a terrifying picture of a system gone wild, and the pitiless fate of the whistleblower who tried to stop it.

"Captured in three Tokyo parks in the early seventies, Kohei Yoshiyuki's The Park series features some intriguing photographic works of art. Shot at night using flash and infrared film, the photographs show hetero- and

homosexuals gathering for furtive sexual encounters in the Shinjuku, Yoyogi, and Aoyama parks. These amorous scenes, however, are unpleasantly crowded; even before Yoshiyuki approached them with his camera, the couples had become objects of desire for voyeurs. The sixty-two photographs are presented here in duotone quality with an interview with the artist."--BOOK JACKET.

Whistle for the wind Alpha Edition

Providing a crucial record of the painter Noah Davis's extraordinary oeuvre, this monograph tells the story of a brilliant artist and cultural force through the eyes of his friends and collaborators. Despite his exceedingly premature death at the age of 32, Davis's paintings have deeply influenced the rise of figurative and representational painting in the twenty-first century. Davis's emotionally charged work places him firmly in the canon of great American

painting. Stirring, elusive, and attuned to the history of painting, his compositions infuse scenes from everyday life with a magical realist atmosphere and contain traces of his abiding interest in artists such as Marlene Dumas, Kerry James Marshall, Fairfield Porter, and Luc Tuymans. This catalogue is born of the unique relationship between Davis and Helen Molesworth, whom Davis entrusted to be the curator of his work. It is published on the occasion of the 2020 exhibition at

David Zwirner, New York, which travels to The Underground Museum in Los Angeles, a space that Davis founded with his wife, artist Karon Davis. In her introduction, catalogue essay, and interviews with important figures in Davis's life, Molesworth shows how the artist's generosity and sense of responsibility galvanized a uniquely supportive artistic community, culture, and vision. Together with color illustrations and archival photographs, the book features heartfelt

testimonials that unfold in the intimate yet expansive spirit of studio visits with people close to him.

Master story teller Marc Mappen applies a generational perspective

to the gangsters of the Prohibition era—men born in the quarter century span from 1880 to 1905—who came to power with the Eighteenth Amendment. On January 16, 1920, the Eighteenth Amendment to the Constitution went into effect in the United States, "outlawing the manufacture, sale, or transportation of intoxicating liquors." A group of young criminals from immigrant backgrounds in cities around the nation stepped forward to disobey the law

of the land in order to provide alcohol to thirsty Americans. Today the names of these young men—Al Capone, Lucky Luciano, Dutch Schultz, Legs Diamond, Nucky Johnson—are more familiar than ever, thanks in part to such cable programs as *Boardwalk Empire*. Here, Mappen strips away the many myths and legends from television and movies to describe the lives these gangsters lived and the battles they fought. Placing their criminal activities within the

context of the issues facing the nation, from the Great Depression, government crackdowns, and politics to sexual morality, immigration, and ethnicity, he also recounts what befell this villainous group as the decades unwound. Making use of FBI and other government files, trial transcripts, and the latest scholarship, the book provides a lively narrative of shootouts, car chases, courtroom clashes, wire tapping, and rub-outs in the roaring 1920s, the Depression of the 1930s,

and beyond. Mappen asserts that Prohibition changed organized crime in America. Although their activities were mercenary and violent, and they often sought to kill one another, the Prohibition generation built partnerships, assigned territories, and negotiated treaties, however short lived. They were able to transform the loosely associated gangs of the pre-Prohibition era into sophisticated, complex syndicates. In doing so, they inspired an enduring icon—the gangster—in

American popular culture and demonstrated the nation's ideals of innovation and initiative. View a three minute video of Marc Mappen speaking about Prohibition Gangsters.

In this sobering collection of photographs, Joel Sternfeld looks at fifty places where violence has stained the American landscape. Arriving long after news photographers have gone, he presents us with the landscape that is left behind, the ordinary site that remains after the tragedy. Free of the sensationalism of contemporary reporting, these unadorned images, and the brief text that accompanies them, have a surprising power,

allowing us to contemplate the meaning of what has taken place, and what has been lost. In this work, one of the most acclaimed photographers of our time extends the documentary tradition, finding a way to visualize our beleaguered national sense, shaken by decades of violence. This groundbreaking work asks that we broaden our conventional definition of violence to include the consequences of corporate irresponsibility and governmental indifference. These

picture stand as a heartfelt memorial. They mark sites that have become an indelible part of the American landscape. They ask us to stand on that difficult threshold between what has happened and what little remains; between what we know and what cannot be understood. This, too, is the American landscape.

Conceptual Art Ember Exploring one of the most exciting and transformative developments in the history of photography,

this book focuses on the masters of contemporary digital art photography. The rise of digital photography is perhaps the most manifest legacy of the digital revolution in art. Through the use of sophisticated software and scanners, artists are able to enhance photographs, saturate them with colour, and create mesmerizing effects. Focusing exclusively on digital photography and its enormous varieties of technique and style being practiced today, Sylvia

Wolf explores a genre that challenges our notions of the art and the role of the artist. This lavishly illustrated book takes readers from the earliest experiments in digital photography to the latest innovations. Wolf candidly discusses issues of global panoply of artists, including Andreas Gursky, Chris Jordan, Loretta Lux, and Lucas Samaras, demonstrates just how diverse and complex the field has become. Today as digital photography is being used by artists to portray unbridled

consumption and warn of ecological disaster; as artists employ Photoshop, Google and their own programming skills to create software-cum-art objects; and as seasoned photographers turn from film to their laptops; this volume offers a riveting snapshot of a medium that is changing the way we look at pictures.

Frida by Ishiuchi is the first photographic documentation ever published of Mexican artist Frida Kahlo's personal attire and belongings, as portrayed by Japanese artist Miyako Ishiuchi. The victim of a nearly fatal bus accident as a young woman, Kahlo used fashion to channel her resulting physical difficulties into courageous statements of heritage, strength and

beauty. Also focusing on the ways in which Kahlo used her iconic style to project her feminist and socialist beliefs, Ishiuchi's color photographs transform Kahlo's dresses, corsets, shoes, gloves, jewelry and other accessories into objects freighted with personal struggle, cultural awareness and sartorial inventiveness. Following Ishiuchi's acclaimed series *Mothers and Hiroshima*, this collection provides a special look at a very intimate dimension of Frida Kahlo's universe.

Gus Van Sant goes from auteur to author in an brilliant, inventive, and endlessly entertaining first novel that reads like a Warholian mix of Kurt Vonnegut and Tom Robbins. In the town of Sasquatch, Oregon, Spunky Davis, middle-aged maker of infomercials, is trying to

find his next assignment, finish the screenplay that he hopes will bring him Hollywood glory, and deal with the death of his friend and favorite infomercial presenter, teen idol Felix Arroyo. Enter two young aspiring filmmakers, Jack and Matt, whom Spunky finds strangely familiar-- especially as Jack bears an uncanny resemblance to the late Felix. But Jack and Matt are not what they appear to be; they are messengers from a dimension beyond time known as Pink, and they

invite Spunky to join them on their voyage of transcendence and recovery. Using a delirious array of voices signified by different typefaces, a flip cartoon that animates the novel's action, footnotes and line drawings, Gus Van Sant turns the novel into an explosively visual experience, a captivating combination of texture and text. As original and involving as any of Van Sant's films, Pink is both a hip, comic deconstruction of our image-obsessed culture and a genuinely

tender story on the classic themes of love, time, and loss.
