This unique volume, nearly 2000 pages in length and handsomely printed on Bible paper, is perhaps the most comprehensive scholarly work of our time on the translation and interpretation of the Bible. At its core are papers presented to an international symposium in Ljubljana in September 1996 to mark the publication of the new Slovenian version of the Bible, a landmark in Slovene identity and cultural life. In addition, its distinguished editor, Joze Krasovec, has commissioned a wide range of contributions devoted to translations of the Bible in many languages, including the Slavonic languages, Croatian, Czech, Hungarian, Polish and the Scandinavian languages. The 82 chapters in this work, mostly in English, are divided into three parts. Part I, on ancient translations and hermeneutics of the Bible, contains contributions by M.-E. Boismard, S.P. Brock, K.J. Cathcart, R.P. Gordon, L.J. Grech, M. Hengel, O. Keel, J. Lust, E. Tov and others, with a notable comprehensive bibliographic survey of oriental Bible translations from the first millennium by M. van Esbroeck. Part II, on Slavonic and other translations of the Bible, includes the first detailed study of the history of the Slavonic Bible, by Francis J. Thomson (over 300 pp.). Part III, with essays by such scholars as J.H. Charlesworth, D.J.A. Clines, J. Gnilka, M. G÷rg, N. Lohfink and A.C. Thiselton, concerns the interpretation of the Bible in translation, philosophy, theology, art and music. In an appendix, a complete list of printed Bibles in languages throughout the world is presented for the first time.

Isaiah 40-66, by Marvin A. Sweeney, is the nineteenth published volume in The Forms of Old Testament Literature (FOTL), a series that provides a form-critical analysis of the books and units in the Hebrew Bible. Building on his earlier FOTL volume Isaiah 1-39, Sweeney here presents his analysis of Isaiah 40-66 within both the synchronic literary form of Isaiah and the diachronic history of its composition. In keeping with the methodology and goals of the FOTL series, Isaiah 40-66 offers detailed examinations of the formal structure of the chapters covered; the genres that function within these chapters; the literary, historical, and social settings of the text; and the overall interpretation of Isaiah 40-66 and its constituent textual units. Including a glossary of the genres and formulas discussed, this commentary will be a useful resource to anyone wishing to engage more deeply with this central book in the Hebrew Bible.
