It is very satisfying." "You mean, we can subject them to any amount of humiliation?" Julie asked. "Yes, Julie and he will love you unconditionally, no matter what humiliation you give him." Eve answered. "What are some ways to humiliate our husbands?" Heather asked. "There are dozens upon dozens of ways to humiliate your husband. Start out slow at first, work them into it, then go for the more severe humiliation." Eve turned to her husband and said, "Stand up." "Yes, Mistress." Immediately, Jake stood up. "First, you need to set boundaries on how he should respond to you. Always have him speak only when spoken to. Second, have him address you as Mistress or Goddess, or whatever you prefer him to call you. I personally prefer Mistress. Whatever it is, get that straightened out right away." She then looks over to Jake. "Strip naked now." "Yes, Mistress." Jake immediately pulled his shorts off.

Eve was pleased at the turnout for the Dominant Wives Society's first hands on meeting. The six couples, all the females being her friends as well as Dominatrixes. All of them had brought their husbands. It was a better turn out than Eve had hoped and expected. Once everyone had arrived, the males wearing nothing but vinyl shorts and leashes that were held by their wife and the women wearing their black leather mini dresses with corsets to push up their breasts and make their waists look smaller, everyone gathered down in the basement where Eve had chairs set up in her beautiful dungeon. The chairs were dark red velvet for the ladies to sit in and the males were to sit on the floor next to their wife. Eve's husband was obediently at her side on the floor wearing his vinyl shorts and leash. Eve began to speak,

"Thank you everyone for coming tonight. Tonight I am going to teach you how to turn your husbands into cuckold husbands." The wives were smiling. "Ladies you will find that once you have turned your husbands into cuckold husbands, it will be a rewarding experience and one that you will enjoy for years to come." She pulled the leash of her husband Jake. "Jake here has been a cuckold for years now. His purpose is to make me happy. Jake, tell everyone how it feels to be a cuckold husband." Jake was sitting on the floor and looked up at Eve, "Mistress, may I stand up?" He asked Eve. The wives nodded their heads, all very impressed so far with how Jake was acting towards his wife, Eve. They had all craved the same control over their husbands. "Yes, you may." Eve answered him. Jake stood up and began to speak, "I love my wife with all my heart, soul and every fiber of my being and existence. I love serving her. I love waiting on her hand and foot. I love pleasing her. The works of Ben Jonson. With a biographical memoir, by William Gifford. A new edition Good Press

In November 2010, a small but growing group of Victorian Alternate Historians, often referred to as Steampunk, met for the first conference of its kind. There was music, fashion, merchants, and all the other trappings of the Victorian time period set in a venue of "what if." What set this conference apart was the academic nature of the presentations. Utilizing the internet and scholarly publications, a call for papers was sent out and the response was impressive. Faculty, graduate students, specialists, and general interest writers wrote, prepared, and presented on a wide array of subject matters. This publication is the culmination of those presentations.

Before, during, and after the conference, Steampunk became a much debated and discussed subject on our list servers and emails. While some had no idea what Steampunk was and others had an idea that they thought was correct, there was no "one size fits all" definition to this new genre. It was at that point that a number of us that had been at the conference sat down and tried to describe the phenomenon. This is what we came up with: Steampunk is a juxtaposition of science fiction, fantasy, and Victorian alternate history. Its roots are in the literature and architecture of the late 19th century while having its branches reach into the future. It is The League of Extraordinary Gentlemen, the music of Abney Park, the engineering of Nikola Tesla, and the aviation of helium and hot air. In the 1980s a subculture of science fiction found a foothold in literature and science fiction conventions. These "paths not taken" alternative histories gave the cyberpunk and Goth followers at the conventions a new path to follow. There were the works of H. G. Wells, the undersea submersible of Captain Nemo in Verne's 20,000 Leagues Under the Sea, and the Victorian work of Mary Shelley's Frankenstein to start with. Add to that the architecture of the Victorian age as a gentrification in many of the inner cities of America and England, and you have a breeding ground for something not quite realized but possibly attainable.
