Turkmenistan Country Study Guide - Strategic Informtion and Developments

Angola: Doing Business and Investing in Angola Guide - Strategic, Practical Information, Regulations, Contacts Lulu.com

Derived from the renowned multi-volume International Encyclopaedia of Laws, this monograph on the rules on immigration and right of residence of non-nationals in Serbia examines the legal and administrative conditions for persons not having the citizenship of a State to enter the country and to stay and reside there. It provides a survey of the subject that is both usefully brief and sufficiently detailed to answer most questions likely to arise in any pertinent legal setting. It follows the common structure of all monographs appearing in the International Encyclopaedia for Migration Law, thus allowing easy comparison between the country studies. As migration and economic activities are often interlinked, the analysis pays particular attention to labour market access and regulation of self-employed activities for non-nationals. The book describes the status of such specific categories of persons as students, researchers, temporary workers, and asylum seekers, as well as the position of family members, detailing applicable legislation and providing practical information on administrative procedures, sanctions, and legal remedies and guarantees. The impact of international human rights law and various bilateral and multilateral agreements is considered, along with the broader application of national and local law to non-citizens in such areas as family relations, labour, social security, and education. Lawyers, scholars, practitioners, policymakers, government administrations, and non governmental organizations involved in the development, practice and study of migration law will find this book indispensable. It will be welcomed by lawyers representing parties with interests in Serbia and immigration specialists in both public and private organizations. Academics and researchers also will appreciate its value in the study of comparative trends and harmonization initiatives affecting migrants.

This edited contribution explores strategies and measures for leveraging the potential of skilled diasporas and for advancing knowledge-based evidence on return skilled migration and its impact on development. By taking the example of Indian skilled migration, this study identifies ways of involving returned skilled migrants in home country development as well as proposes approaches to engage the diaspora in development. As high-skill immigration from India to mainland Europe is a rather recent phenomenon, the activities of Indian professionals in Europe are under-researched. The findings have wider application in contributing to the policy dialogue on migration and development, specifically to the advantage for developing and emerging economies. The book employs an interdisciplinary, two-fold approach: The first part of the research looks at how international exposure affects the current situation of skilled returnees in India. The second, European, part of the research examines migration policies, labour market regulations and other institutional settings that enable or hinder skilled Indians’ links with the country of origin. Structural differences between the host countries may facilitate different levels of learning opportunities; thus, this book identifies good practices to promote the involvement of Indian skilled diaspora in socio-economic development. In applying the framework of diaspora contributions as well as the return channel to study the impact on India, the book draws on qualitative and quantitative research methods consisting of policy analysis, in-depth interviews with key experts and skilled migrants and on data sets collected specifically for this study.

Kazakhstan is vast – the ninth-largest country in the world – yet there is relatively little information available in English about the attractions of this remarkable country. With the Kazakh government seeking to promote the development of tourism, publication of the Bradt guide is timely. Located between Russia and China, the state of Kazakhstan possesses an incredible diversity of natural beauty; this guide includes arrangements for visiting natural parks and reserves and special features such as singing sand dunes and the Sharyn Canyon – Asia’s equivalent of the Grand Canyon. Key historical and archaeological sites are also given due prominence, Kazakhstan having been inhabited since the Stone Age.

With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe, the border between these Southern African countries has become one of the busiest inland ports of entry in the world. As border crossers wait for clearance, crime, violence, and illegal entries have become

rampant. Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this, including searches for better paying jobs and access to food and clothing at affordable prices. Musoni sets these actions into a framework of illegality. He considers how countries have failed to secure their borders, why passports are denied to travelers, and how border jumping has become a phenomenon with a long history, especially in Africa. Musoni emphasizes cross-border travelers' active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk.
