Allow anyone to join the rapidly growing number of mental athletes who are preparing themselves for memory competitions and championships. All the classic memory systems are explained, plus, of course, Tony Buzan's own world-famous Mind Mapping technique.</p> <p><i>Buzan's Book of Genius</i> Plume Nobel Laureate in Literature Wole Soyinka considers all of Africa--indeed, all the world--as he poses this question: once repression stops, is reconciliation between oppressor and victim possible? In the face of centuries-long devastation wrought on the African continent and her Diaspora by slavery, colonialism, Apartheid, and the manifold faces of racism, what form of recompense could possibly suffice? In a voice as eloquent and humane as it is forceful, Soyinka boldly challenges in these pages the notions of simple forgiveness, confession, and absolution as strategies for social healing. Ultimately, he turns to art--poetry, music, painting, etc.--as the one source that can nourish the seed of reconciliation: art is the generous vessel that can hold together the burden of memory and the hope of forgiveness. Based on Soyinka's Stewart-McMillan lectures delivered at the DuBois Institute at Harvard, The Burden of Memory speaks not only to those concerned specifically with African politics, but also to anyone seeking the path to social justice through some of history's most inhospitable terrain.</p> <p><u>The Memory Book</u> Plume Provides techniques for memorizing things, absorbing facts, figures and formulas, improving concentration and motivation, remembering names, events and lines for plays, recalling information under pressure, cutting study time in half with double the results.</p> <p><i>Mind Maps for Business</i> Black Dog & Leventhal Tony Buzan's techniques have been proven over many years and students will see immediate benefits across their memory, speed reading and general recall.</p> <p><i>Unlimited Memory</i> Simon and Schuster Tony Buzan, 'the biggest name in memory', takes a fascinating and exuberant look at the enormous potential of a child's brain and provides parents with the practical tools they need to help their children achieve it. Mind maps, memory games and other techniques allow parents to encourage learning and development for children of all ages.</p> <p><u>The Burden of Memory, the Muse of Forgiveness</u> Pearson UK From the bestselling author of The Mind Map Book, proven mind mapping techniques to help you raise all levels of your intelligence and creativity, based on the latest discoveries about the human brain. Using the latest research on the workings of the human brain, Tony Buzan, one of the world's leading authorities on learning techniques, provides step-by-step exercises for discovering the powers of the right side of the brain and learning to use the left side more effectively. By increasing our understanding of how the mind works, he teaches us: · How to read faster and more effectively · How to study more efficiently and increase overall memory · How language and imagery can be used for recording, organizing, remembering, creative thinking and problem solving. This completely updated Third Edition of a classic work provides a proven way of using our brains to their fullest potential and to our best advantage.</p> <p>Use Your Perfect Memory HarperThorsons Unleash the hidden power of your mind It's there in all of us.
